

## ARMIPOTENT Chapter 549

There was a shock wave that came out from Goldier. The shock wave covered a big area, around a hundred meters area. The fire that could not be extinguished was gone immediately when the shock wave spread out.

Tang Shaoyang did not know what happened but he felt a tingling uncomfortable sensation all over his body. It was as if something was suppressed inside his body, "What did he do?" He was confused.

"Huh, I thought it would cancel the transformation," Goldier looked at the air. He had suppressed the mana in the area, and he thought it would cancel the transformation. No one would be able to use mana in his Anti-Mana Domain so it would be a physical contest. That was the Gator Tribe known as, especially true for Golden Gator.

That was why the six leaders were trying to test Tang Shaoyang's physical power earlier because they would fight him with their physical strength. This was how they beat their enemy and the main reason why the Gator Tribe ruled the big swamp alone. The Golden Gator could cast the Anti-Mana Domain, and they become the core strength of the Gator Tribe.

Tang Shaoyang quickly found out that he could not use the skill. His mana was abundant inside his body but the mana could not be used. If he tried to cast a skill such as [Thousand Blast]. The skill would be activated but once the mana was released to execute the skill the mana dispersed instantly. The skill could not get activated as the mana instantly dispersed.

The one who told him about this was Rosalie. Apparently, she had faced this annoying Anti-Mana Domain before. This skill became the bane of the Elemental Knight who was reliant on their elemental attack. They could not use the elemental power, meaning they became an ordinary knight.

"So they want to fight me with their brute force. An interesting way to fight," Tang Shaoyang stayed calm even though he would not be able to execute most of the skill, no, he smiled even, "But what about [Flash Step]? Can I still use the skill?" He then thought of something interesting.

The Anti-Mana Domain would disperse the mana he ejected out from his body but [Flash Step] did not eject the mana from his body. He used the mana inside his body and the skill would be activated, "This is a fight that I excelled with... No, the Anti-Mana Domain gives an advantage. I don't need to be careful with their weird sh\*t skill since we will be fighting with our physical force," His purple eyes glowed in excitement.

Usually, he needed to be careful of the weird skill they had in their sleeves. Aki was the best example of it. If Aki was much stronger the chance that he survived the mind attack was small. But now mana that became the foundation of the skills could not be used. That meant he did not need to worry about the weird skill.

"This is so doable for me," Tang Shaoyang muttered and squinted his eyes at Goldier. He voluntarily came down but he was still floating above the water. He then motioned to Goldier with his right hand to come at him, "Come, let's fight!"

Swoosh! Swoosh!

Silver and the Obsidian Gator rushed toward him from the front. The Obsidian Gator with spike shield was in the front and Silver with dual spears stayed behind. The two Golden Gators also followed the two from the back.

When the Obsidian Gator was three meters away from Tang Shaoyang, he leaped out and swung the shield toward him. While the Obsidian Gator attacked from the air, Silver was coming from below.

[Flash Step]

Tang Shaoyang activated the skill and his black figure blurred. He ignored the hard Obsidian Gator and focused on the Silver Steel Gator. He thought it would be easier for him to defeat the Silver Steel Gator first.

Silver barely saw what happened but he managed to cross his dual spears at the sight of the battle-ax that swung toward him.

Dang!

The Dragon Destroyer hit the dual spears, and Silver's defense was broken in the first attack. Tang Shaoyang followed with a flying side kick to Silver's chest.

"Rughmm!" Silver grunted in pain as his body was flying backward. His vision was getting further and further from his enemy. Silver was known for his spear-play and speed. He would take advantage of his speed and tricky spear-play. However, Tang Shaoyang's speed was much faster than he thought. Since he could not follow his opponent's speed Silver could not put his tricky spear-play.

After kicking Silver, Tang Shaoyang ducked his head and flapped his wing to maneuver in the air. He sensed something coming from behind.

Fwoosh! Fwoosh!

A strong gust of wind was heard by his ears. When he turned around, the two Golden Gators were already there. Both fight with their bare hands, "Being sneaky, heh," He smirked at the two Golden Gators.

'I see now, [Flash Step] is working. What about Slayer Energy? It is a different energy. Maybe I can use that as well,' The more he thought about it, he was even more sure that Anti-Mana Domain only gave a huge advantage instead of suppressing him. It was as if the skill was cast by him to the six gators. Thanks to the Anti-Mana Domain, the two gators that were reliant on using their mana could not join the battle as they had to stay away. At least a hundred meters away from where they fought.

"Don't you dare to ignore me!" The Obsidian Gator charged at him again. At the same time, the two Golden Gators followed the Obsidian Gator in the background.

Tang Shaoyang planned to save the hard Obsidian Gator for the last but the thought of Slayer Energy caused him to change his mind. Instead of escaping from the Obsidian Gator, he rushed toward the black-colored gator. His right foot took a big step forward as his both hands were holding the Dragon Destroyer. At the same time, he gathered Slayer Energy at ax-blade.

"We caught ya!" Goldier's brother exclaimed as a smirk plastered on his face. The two Golden Gators picked up their speed and flanked him from both sides. At the same time, Silver was coming from behind him.
