

ARMIPOTENT Chapter 607

"It seems I was overestimating the power of Legend Rank Beast..." Tang Shaoyang muttered after he killed the Legend of the Gigante Forest. The Green Sky Serpent was weak, and at least, it was not as strong as he thought.

—He is not weak, but we have become too strong. If you don't use your Spirit Blessing on me, the result might be different.

He heard a weak response from the Angel of Death. Zara voiced her honest opinion about the Green Sky Serpent. If not for the Spirit Blessing, she would lose the fight. She had to kill Suvan seven times, and The Serpent became stronger with each resurrection.

"You are right. If I face the Green Sky Serpent before reaching the Epic Rank, the result may be different. But that's just a possibility that will never happen because we have killed the Green Sky Serpent."

[You have leveled up!]

[You gained 64 Attribute Points!]

[You gained 64 Attribute Points!]

...

[You have reached level 1513!]

Tang Shaoyang's lip curved upward when he heard the notification in his head. He expected this, the insane level up, and the three hundred seventy-four levels by killing one beast. But then, he frowned, as the excitement did not last long. He recalled the level of the Legend Rank Beast.

Suvan was level over three thousand something, and he killed a beast level over three thousand while he was level a thousand and a hundred thirty-nine. He should get more levels than just three hundred seventy-four levels, at least five hundred levels. He expected a significant boost in levels, but he felt this was still too low.

—You don't look happy with what you get? It's actually decent since you have two classes. If you only had one class, you may get over five hundred levels.

Zara reminded him he had two classes. The number of monsters or beasts he had to kill doubled to level up.

"Ah, you are right about that." Tang Shaoyang nodded his head. However, he was still waiting for something, waiting for the [Slayer Absorption] notification. He used the skill on Legend Rank Beast; he also expected a big reward from this skill. It did not take long before he heard the notification.

[You have absorbed the Legend Rank Beast! You gained 34781 Attribute Points!]

[You have leveled up!]

[You gained 64 Attribute Points!]

[You have leveled up!]

[You gained 64 Attribute Points!]

[You have leveled up!]

[You gained 64 Attribute Points!]

...

[You have reached level 1745]

The creases on his forehead disappeared when he heard all the notifications of level up and the attribute points. This was a big surprise for sure after the disappointment. He was only disappointed that he did not get the Green Sky Serpent's seven life skill. 'I can only get levels and attribute points from the Slayer Absorption, and that's good enough.'

"I killed the big boss, and it's time to wrap things out." Tang Shaoyang glanced at the battlefield only to discover that the Dark Tribe's elite force had surrendered. It happened right after the Green Sky Serpent's last scream before his body dried up. Of course, only a quarter of the Dark Tribe's elite force left after the one-sided battle against the spirit.

He scanned the Dark Tribe's elite force and noticed a few beastmen had a similar appearance as Igor the Abyss Sabre. "Kill the Abyss Sabre and spare the rest!" That was his verdict before he glanced at the Abyss Raven, who was amongst the other spirits. He did not see any reaction from the blackbird, and that was the best he could do as he could not kill the Kirin.

As soon as he said that, Bronson and Orlean made their move and killed the remaining Abyss Sabre. At the same time, Tang Shaoyang returned to his human form. "This body is more comfortable for me." That was his remark. Not that he disliked the Dragon form, but he just felt weird when he transformed into a dragon.

"While waiting for them to finish off the Abyss Sabre, I will sacrifice these colossal bodies. Thanks to that snake's skill, now I have seven Legend Rank Beast's bodies. This sacrifice is huge..." He paused for a moment as he thought of a crazy idea. "Should I use all the bodies for the sacrifice? I may summon the Grade SSS Spirit with that kind of sacrifice."

Tang Shaoyang then glanced at the dried-up body. Suvan's last body before it died miserably. "Can I sacrifice this body?" That was a good question. The only thing left was the green scales that had lost their luster. The meat, organs, and bone had disappeared. It was an incomplete body.

"Fuck it, let use all the bodies." Tang Shaoyang extended his hand toward the seven bodies and cast the skill. He committed to summoning only a powerful spirit, might as well do it to the end.

The Green Sky Serpent's skin puffed out into green particles and the other six bodies, meaning the skin was considered the sacrifice. Unlike the past sacrifices he had done, there was no spectacular phenomenon even though he sacrificed seven Legend Rank's bodies.

The bright green particles gathered in one spot and formed an egg shape. The egg absorbed the green particles, and it got bigger. Within the next sixty seconds, the size of the egg had reached twenty meters tall. The egg radiated the bright green light, illuminating the dark forest.

The egg burst out in the next ten seconds as a gigantic figure came out of the egg. As the green particles slowly dimmed down, Tang Shaoyang got a clear sight of the creature from the egg, and as soon as Tang Shaoyang identified the newly summoned spirit, a wide grin formed on his lips.

"We meet again, Suvan~."

[You have summoned Grade SS+ Spirit, Suvan the Guardian Beast!]
