

## ARMIPOTENT Chapter 629

Tang Shaoyang went to the dungeon with Zara, Ashley, and Selena. The dungeon was underground, located at the deep part of the Beast Coven's village. He stepped into the damp and dim dungeon, but his eyes could see everything clearly.

Tang Shaoyang stopped for a moment and looked to the side. "Can you call Kalliyen to come here?" He thought about it, and he realized he needed The Kirin to execute his plan. The three girls looked at each other. None of them wanted to leave him, and they were gesturing at each other to go to call Kalliyen.

"Never mind, I will ask Orlean to call her instead." Tang Shaoyang shook his head and activated his [Spirit Link] to Orlean. The Demon Prince's reply was quick and spry. Tang Shaoyang could hear that The Demon Prince seemed to rush over to call Kalliyen as he spoke.

After that, he continued into the dungeon... Through his sense and his [Spirit Eyes], he easily located the eight representatives from the two tribes. There were three levels in this dungeon, and they were at the end of level 1 dungeon.

Tang Shaoyang soon arrived at the cell. The Elven and The Moonlight Warriors were placed in a different cell, next to each other. He stood in front of the cell as the eight representatives also looked toward the uninvited guests. The four Elven and the four Moonlight Warriors were still limbless.

"The Elven will not stay still for what you have done to us!" Kaylin remained strong even with her current predicament. She showed no fear to Tang Shaoyang despite the plight she faced. Once she showed weakness, the enemy would use that weakness against her.

"As I thought, you still think Your Elven highly." Tang Shaoyang could not help but remember what Lu An and Yu Shun told him about the Elf's characteristics. They were prideful and also arrogant, thinking the other races were lower than them. Even after they witnessed the Beast Coven's fall, The Elven still acted haughty like this, thinking the Elven could win against him.

"I don't know if having a prideful vassal is necessary. Some day, they may bring a disaster to my empire. Should I eradicate The Elven and take in The Moonlight Tribe instead? It's not like I need the Elven to take over the Ortis Continent." Tang Shaoyang muttered in a low voice.

Of course, even though he said it in a low voice, everyone still could hear it. The eight representatives felt the human was too arrogant when they heard the first part, but they were shocked when they listened to the latter part, taking over the whole continent.

Tang Shaoyang ignored the Elven and looked toward the Moonlight Warriors. "Which one of you is the leader?" Compared to the Elven, the Moonlight Warrior was more docile. They did not show any aggressive stance but just stared at him.

"What do you want to do with us?" The first Moonlight Warrior at the corner of the cell opened her mouth. Her moon-like eyes wavered at the sight of Tang Shaoyang, but she still faced him.

"Don't worry, I will not do anything to your leader. I need your leader to send a message to your Chief and Elders. A simple message, just report what happened here and what happened to the Beast Coven." Tang Shaoyang smiled and gestured to Ashley to bring the Moonlight Warrior out.

Ashley entered the cell and dragged the Moonlight Warrior out of the cell. "Since you are brave enough to speak with me, I assume you are the leader?" The Moonlight Warrior did not answer him. "I don't care if you are the leader or not, but you will become the messenger between your tribe and me."

Tang Shaoyang then glanced at Selena. "Can you regrow her limbs? She needs that so she can send the message." Selena nodded her head and squatted next to the Moonlight Warrior. She extended her hand toward The Moonlight Warrior's shoulder and chanted in a low voice.

The bright glow covered the Moonlight Warrior's shoulders, and slowly, The Moonlight Warrior's hands grew back. Selena repeated the process, but it was The Moonlight Warrior's feet this time.

"You tell your leader what happened to the Beast Coven and convey my message to them. Surrender and become my Empire's vassal, or else we will bring the war to the Moonlight Tribe!" Tang Shaoyang deepened his voice as his face turned solemn to leave a deep impression on the Moonlight Warrior.

The Moonlight Warrior did not immediately agree with Tang Shaoyang's terms as she glanced at her comrades. "What about them? What will you do to them?" There was a reason for her concern. It was the past event where humans were slaving the beastmen.

The humans would take them as sex doll and a toy to play with. Most of them that the humans caught were sold for that purpose. If that were what would happen to her comrades, she would rather die than leave them behind.

Tang Shaoyang sensed the Moonlight Warrior's concern over her comrades. He held his chin for a moment before he continued. "Then what about signing a system contract? If you do what I tell you to, then I promise you not to harm your comrades, but if you break the contract, then suffering is their future. I can tell you that suffering is not death; death is a mercy for them."

The Moonlight Warrior's body shuddered slightly, but she braced herself to stand up and bowed her head. "As long as you don't harm my comrades, I will do everything for you."

"Good choice. Call Roan-" Tang Shaoyang stopped midway as he realized that the girls would not leave him. He activated [Spirit Link] and connected to Maldros. After confirming his order, the Black Storm Dragonewt cut the call and headed toward Roan.

"Why don't we use The Oath instead?" Selena did not understand why they had to take a long way to draft a system contract when they had her here to hold the oath ceremony. "They don't know anything about the oath; they will not trust the credibility of the oath."

"Do you call for me, My Lord?" At this moment, Kalliyen arrived and knelt toward Tang Shaoyang.
