

## ARMIPOTENT Chapter 782

It brought a surprise because the Osiris Guild's leader bowed his head toward the Tachibana Clan's leader. No one expected the Osiris Guild's member to do this after the previous match. However, the Osiris Guild's member did not care what the audience thought of him as he returned to the portal with an indifferent attitude.

The Tachibana Clan retrieved their dying members, but everyone could see that the atmosphere within the arena had changed. At this point, it was more than a mere tournament but a matter of pride and grudge between the two factions.

Tang Shaoyang looked at the dying fighter from the Tachibana Clan, and an idea crossed his mind. "How much do you think they want to pay for us to heal their member? I believe this is an opportunity for us to make a lot of Game Coins. A hundred thousand? No, a million per person, do you think they will pay a million to heal their member?"

He then looked at Selena and Arina. Selena was an Arch Priest, and Arina was Exalted Cleric. Both had achieved a high rank in their respective class, especially Arina. Her class was focused on support and healing as she was not capable of holding the oath ceremony like Selena. That specialized class made Arina able to do a lot of things, and healing the dying should not be an issue for Arina.

"Why would you heal them? Don't we have more advantages if we let them fight without healing their injuries?" Zhang Mengyao did not think it was worth it to heal their opponent for coins. However, Cao Jingyi, who was sitting in the spectator seat, heard Tang Shaoyang's idea. "I think that's a great idea. We can save up a lot of coins for the next upgrade. Don't forget that we have a lot of smart bases that need to be upgraded. I think this is the fastest way to get many coins, a million for healing a person. I bet they will pay for it. The tournament is not just an opportunity for them but also a matter of pride as this will be proof which faction is the strongest."

"Then I give you the permission." Tang Shaoyang nodded and appointed Cao Jingyi to be in charge of the healing business. Arina and Selena said nothing about it as they were glad to help Tang Shaoyang get more coins.

Right after receiving the permission, Cao Jingyi turned off the barrier and shouted. "If you want to heal your injured fighter, then come to us. We have two healer experts that can help your dying guild members. One million per person regardless of your injuries, from the heavy injury to the light injury, we can heal them."

Everyone looked toward the voice as the tense atmosphere was replaced with awkwardness. No one expected the Tang Empire would do this kind of shady business. What shocked everyone was the Tang Empire charged a sky-high price for the healing business.

Everyone believed no one would fall for this trap, but a group came down from the second floor. The Tachibana Clan brought their dying member who had lost too much blood that even a low-grade potion failed to heal him. The Tachibana Guild's leader came to meet Cao Jingyi, he glanced at Tang Shaoyang, but the latter did not even glance at him.

Izuhara Tachibana took a deep breath and spoke in a severe tone. "Can you heal my nephew? I will pay a million Game Coins if you can heal my nephew." Izuhara's nephew was breathing weakly even though the low-grade healing potion was given to him. Unfortunately, The Tachibana Clan did not have the

high-grade potion, and he had asked the World Union to lend them a hand, but they were refused. The Tachibana Clan was desperate enough and willing to pay a million to heal the dying member.

"What do you think, Arina? Can you heal him?" Cao Jingyi did not give the answer as she called the expert in this field. Arina came over and checked the person before nodding her head. "It's not a problem. But it will take an hour or maybe two hours before he can fight again in the arena."

"Please heal my nephew!" Izuhara Tachibana urged Arina. He was about to reach Arina, but Alton appeared before him. "Please maintain your distance, Sir."

The Tachibana Clan's leader was shocked as he could not sense this old man's movement. What shocked him was that this old man was not part of the registered fighter of the Tang Empire. Izuhara Tachibana took a step back and bowed his head. "I am sorry. I am just too anxious about my nephew's safety. I will pay one million GC, please heal my nephew."

"Done." Arina did not move from her spot to heal Izuhara's nephew. The two meters distance was not an issue for the Exalted Cleric to cast her skill.

Izuhara Tachibana was once more surprised when he heard that. He looked toward his nephew. While his nephew was still covered in fresh blood, he could see the hole in his nephew's shoulder had disappeared. Not only just that, but he could also hear the stable breathing from his nephew.

Izuhara Tachibana rushed toward his nephew and checked his nephew's condition. All the wounds his nephew suffered from the previous fight were gone. It was as if it had never been there in the first place. If not for the fresh blood, he might think his nephew was not dying a few moments ago.

"That's not how you are doing a business, Arina. They should pay me first before you heal them. What if our customers run away after you heal them?" Cao Jingyi reminded Arina as she stopped in front of Izuhara Tachibana and extended her hand toward him. "We have healed your nephew, Sir. Please pay up now."

Izuhara Tachibana was about to stand up until he noticed his nephew opening his eyes. The healing was more potent than a healing potion.. He immediately stood up and reached Cao Jingyi's hand, paying up a million GC.
