

The Amazing Son In Law Chapter 4157 (The Charismatic Charlie Wade Chapter 4157)

When the rich black man shouted the price of 800 million US dollars, the old Nordic queen instantly sat down on the chair like a deflated ball, her eyes were empty, and she was a little unwilling.

This price has exceeded her affordability.

Even if you sell it to yourself at this price, you won't be able to get so much money.

Therefore, she knew very well in her heart that she had completely missed the relationship with Huichundan.

At this time, many people at the scene have begun to whisper in private.

Everyone knows that the five rejuvenating pills tonight must be going higher and higher like a ladder, so the price of this first rejuvenating pill is equivalent to laying a solid foundation and setting the tone for the later rejuvenating pills.

If its price is raised too high, then the price of Huichundan in the future may explode to a sky-high price.

At this moment, Travis Lane's mentality was about to collapse.

He cursed inwardly: "750 million! And it's still US dollars! Converted, this is more than 4 billion yuan, just to take pictures of this quarter of Huichundan, isn't this f*cking enough? !!"

After all, he violently tugged at his hair, hesitating and struggling whether to continue calling for another 810 million.

But just when he was hesitating, the Middle Eastern rich man who had made a bid before but didn't move for a while raised his hand again and said in a deep voice, "One billion!"

Hearing this number, Travis Lane felt a surge of anger in his heart, and scolded in his heart, "One billion, how the hell is it going to let others live?!"

Before he could react, the rich black man raised his hand again: "I'll pay 1.1 billion!"

And the Middle Eastern rich man seemed to have a strong stamina, and blurted out almost without delay: "1.2 billion!"

The rich black man gritted his teeth and said without changing his face: "Ten.... 1.3 billion!"

From one billion to 1.3 billion, it took less than ten seconds.

The scene was in uproar again.

Some people who were originally determined to win the rejuvenation pill have completely given up the idea of competing for the rejuvenation pill in their hearts.

Because in their existing thinking mode, they feel that no matter how amazing this drug is, it is already outrageous at this price, and it is outrageous to open the door to the outrageous home.

Some people have even begun to watch a good show.

Because they feel that the price of a quarter of the rejuvenation pill has been fired to a sky-high price of 1.3 billion US dollars. No matter who buys this rejuvenation pill, I believe that after taking this rejuvenation pill, he will Regret for your own impulses.

Taking advantage of the exclamations of everyone, a wealthy domestic man whispered to the people around him: "F*ck, these people are all f*cking crazy, they even called for 1.3 billion US dollars?! What is 1.3 billion US dollars? Concept? If you use it to buy an Airbus A320, you can buy 20 of them!"

A Chinese-American next to him asked with a smile: "You are so interesting, why do you think of comparing the planes."

The man said: "Because I am an airline myself, you must know that there are at least a dozen domestic airlines with less than 20 aircraft fleets. The worst is Daxinghua Airlines, all families are counted. There are only three planes in total, this is damn good, I'm still not sure if it's such a powerful medicinal pill if I exchange twenty planes for a quarter, can you stand this?"

The people around them nodded involuntarily.

They also felt that it was unacceptable to buy a quarter of a pill for the money of 20 planes.

However, even if others found it unacceptable, Travis Lane was not willing to give up.

He had really experienced the miraculous effects of Huichundan, and knew that this medicine brought not only health, but also more and more precious time.

Twenty planes were a lot to him, but not as important as longevity.

So, he gritted his teeth and shouted angrily: "I will pay 10 billion yuan! RMB!"

Jasmine moore said helplessly: "No. 055, this auction will be bid in US dollars. Please pay attention and re-quote the price."

Travis Lane said quickly: "Miss Jasmine, I can't calculate the exchange rate in my mind. Please help me to find out how much is 10 billion yuan in US dollars!"

Jasmine moore calculated with the calculator prepared in advance on the auction table, and said, "It's about 1.6 billion."

Travis Lane nodded and said with great resentment, "That's 1.6 billion!"

Travis Lane thought to himself: "10 billion yuan is the limit that I can bear. Instead of continuing to cut the flesh with these two bastards, it is better to be ruthless and increase it by 300 million US dollars, see who the f*ck is. Dare to follow!"

Just when Travis Lane felt that his furious price increase would definitely scare off the other two, to his surprise, the two raised their hands almost at the same time.

The rich man in the Middle East shouted: "I will pay 1.7 billion!"

The black tycoon is even more vicious, and shouted: "Twenty! I will give two billion!"

Travis Lane's psychological defense was completely destroyed in an instant, and he gave up in an instant.

He slumped on the chair, his back completely soaked in cold sweat.

He knew that he could no longer follow.

He couldn't accept that he used five times more than the previous price to buy a quarter of a rejuvenation pill. This time, the difference was twenty times worse.

If I buy this rejuvenation pill at a higher price, I may feel very sad in the future, and the more I think about it in the future, the more painful it will become.

So, he sighed dejectedly and gave up continuing to bid.

The eyes of everyone at the scene were focused on the rich man in the Middle East.

If he is still willing to continue to bid, the price of this quarter of the rejuvenation pill will exceed two billion US dollars.

If he gave up the bid, then the quarter of the rejuvenation pill would probably become the possession of the rich black man.

Jasmine moore also said at this time: "No. 047 bid two billion dollars, is there any higher price than this?"

Saying that, Jasmine moore looked around and said seriously, "The highest price for the first rejuvenation pill is 2 billion US dollars. This is the first rejuvenation pill tonight. Is there a higher price than 2 billion? ? If there is, please raise your hand and let me see."

No one answered, and no one raised a hand.

Jasmine moore smiled slightly and said, "Okay, it's the first time for 2 billion. Now if anyone wants to participate in the competition, there is still a chance to make an offer."

There was still no answer at the scene.

And the Middle Eastern rich man was a little hesitant at this time.

After all, the price of two billion US dollars is indeed too high. He is not a royal family, and the money is not blown by the wind, and it is not sprayed out by drilling a well in his own backyard, so he must consider the value of the two billion. Not worth the effort.

The reason why he called all the way to 1.7 billion was mainly because he was found to have pancreatic cancer three years ago. Fortunately, the disease did not develop very seriously, so he underwent surgical resection.

However, because pancreatic cancer is the most difficult to find, when he was diagnosed, the tumor had more or less invaded the lymphoid tissue, so it was a mid-stage cancer.

Doctors speculate that his five-year survival probability will generally not exceed 60 percent.

Many famous people all over the world have died of pancreatic cancer. The most troubling thing about this cancer, known as the king of cancers, is that it is difficult to find and treat.

Once you have this disease, no matter how much money you have, it is useless. For other diseases, various special medicines and high-end advanced treatment methods can also give patients a life cycle of several years or even longer. However, once the disease of pancreatic cancer is Diagnosis, even if there is gold and silver, can't change back a few years.

This is also the fundamental reason why Orrin is so rich, he still has to wait to die when he gets pancreatic cancer.

If charlie hadn't appeared in time and cured him with rejuvenation pill, I'm afraid he would only have one month of life left at the time.

The rich man in the Middle East is also hesitating at this time, worried that Huichundan will not have any effect on his condition, and he is suffering from pancreatic cancer. There is no professional equipment at the auction site, and the effect of Huichundan treatment cannot be seen at all. After I went back, I checked and found that there was no change in my condition. Wouldn't that be a waste of two billion dollars?

Thinking of this, he couldn't help but glance at the number 047.

He can also see that No. 047 is a severe Parkinson's patient, so he suddenly thought in his mind, Parkinson's disease, so the symptoms are almost all in front of him, then why don't he let this guy wave and let him shoot Go to the first one and eat it on the spot to see for yourself?

Just let him be a little white rabbit for himself!

If after taking a quarter of the rejuvenation pill, Parkinson's can be relieved or even cured visibly with the naked eye, then if he says anything, he will have to take a second rejuvenation pill!

If after he takes it, there is no improvement in Parkinson's, then he will not participate in the auction of Huichundan!
