

The Amazing Son In Law Chapter 4593 (The Charismatic Charlie Wade Chapter 4593)

Fei Kexin solved all the troubles of the Fei family at once, but then, more new video evidence was immediately exposed on the Internet.

However, the protagonist of these evidences is no longer Jamura, but the wealthy New Yorkers who were found tragically dead in the Hudson River this morning, as well as the sons of nobles.

This time, it exploded all over the world.

The public's attention immediately shifted from the Fei family to these big families.

And those big families don't even care to grieve over the tragic death of their own family members, and they immediately have to worry about how to eliminate the anger of the public.

Although Fei Kexin has given them a sample, her solution is too expensive for others.

These big families who are addicted to money are not a last resort, and they are unwilling to provide billions of dollars in compensation for each victim's family members. It is more difficult for them to pay so much compensation than their lives.

However, these are no longer issues that Fei Kexin needs to consider.

After the press conference, she immediately called Charlie, and after the call was connected, she asked reverently, "Mr. Wade, did you see the Fei Group's press conference just now?"

Charlie smiled and said, "I saw it."

Fei Kexin hurriedly asked: "Then do you think the solution I proposed is still satisfactory to you?"

charlie said seriously: "I think you have handled it well enough. I believe that with your impeccable handling, the Fei family will soon be able to get out of Jamura's haze."

Hearing charlie's praise, Fei Kexin not only breathed a sigh of relief, but also felt a little more shy of a girl.

So she said to charlie, "Thanks for Mr. Wade's approval, I will complete the verification of the victim's information and the payment of compensation in the fastest time."

"Okay." charlie paused slightly, and then asked her again, "You have officially become the head of the Fei family, what are your plans next?"

Fei Kexin said: "I have only planned two things recently. The first thing is to solve the mess left by Jamura; ."

charlie instructed: "Actually, your priority now is not to be familiar with the business, but to clear the team."

Fei Kexin hurriedly asked, "Mr. Wade, what do you mean..."

charlie reminded: "Don't forget that the members of the Fei family's board of directors are the ones who kicked your grandfather out of the game. Your top priority now is to get all their voting rights and veto rights on the board of directors. Take it back, only in this way will your position be the safest."

Fei Kexin said with some worry: "The members of the board of directors, except for the direct members of the Fei family, are basically the relatives of the Fei family, as well as some ministers of the humerus. I have just taken office, and the smooth operation of the group still needs them. Keep it up, if you start with them at this time, I'm afraid they will unite to overthrow me, or simply quit."

charlie said seriously: "These people were on the wrong team once, and now that you have become the new head of the family, they must be very panicked, for fear that you will settle accounts with them after the fall, so at this time, you must not let them worry about it for nothing. , Be sure to clear up the previous accounts as soon as possible, otherwise, if you read this article today, they will feel that there is no consequence for being on the wrong team, and they will only be more reckless next time."

After speaking, charlie said again: "There are two extremes in front of you right now, either take this opportunity to completely subdue them and make them fear you, or let them take this opportunity to see clearly Your weaknesses will get worse in the future, apart from these two possibilities, if you want to disregard the past, get along well, and cooperate sincerely with them, the possibility is almost zero."

Fei Kexin suddenly fell silent.

She knew that charlie was right.

At this time, he really should be tougher and uphold the majesty of the head of the family.

It's just that one person is fighting against the entire board of directors, which makes her more or less embarrassed, and she doesn't know where to start.

charlie said at this time: "In my impression, most groups have equal shares and voting rights. If one person holds 10% of the shares, he will have 10% of the voting rights. If one person holds 10% of the voting rights, With more than 51% of the shares and more than 51% of the voting rights, theoretically it is a major shareholder with absolute control, right?"

Fei Kexin said hurriedly, "That's right, Mr. Wade, that's it."

charlie added: "But for many large groups, due to the large number of businesses and shareholders, and the public offering of shares, the dilution of equity is very serious. In many large groups, the single largest shareholder, some Maybe only 20 to 30 percent of the time, right?"

"Yes." Fei Kexin said truthfully: "This is the case with most listed companies. Take Apple, which has a market value of more than 2 trillion US dollars, for example, the largest shareholder, Pioneer Group, holds only about 7% of the shares. ."

charlie said: "So in this case, it is necessary to implement the AB share system, and take away their voting rights without depriving other shareholders of their shares, even if you can't achieve absolute control of more than 51%, it is still Take at least 51% of your voting power in your hands to ensure that no one else can shake your foundation."

After speaking, charlie added: "You have to remember that today is the day those shareholders are most afraid of you, whether you let them pay the price today or not, after today, their fear of you will be lessened, so you You must seize the opportunity."

Hearing this, Fei Kexin's whole body was full of energy.

charlie is right, the current board members must all be like suspects who have committed crimes and are waiting to be sentenced.

They are all prepared to accept punishment. If they don't take this opportunity to suppress them, they will feel a sense of impunity after today.

In that case, they will only be more arrogant.

Thinking of this, she immediately said to charlie: "Mr. Wade, thank you for your reminder, I understand, I will convene a board of directors later and ask all board members to surrender all voting rights corresponding to their equity!"

charlie smiled with satisfaction: "Then I'll wait for your good news."

At this moment, a public relations manager of the group strode over and said to Fei Kexin, "Chairman, Detective Li Yalin of the New York Police Department is here. He said he has something important to ask you."

Fei Kexin frowned and said, "He should be here for Jamura's business. It's up to you to talk to him about this matter. I have other matters, so I won't meet him."

The PR manager nodded immediately and said, "Okay, then I'll go and communicate with him."

Fei Kexin was about to speak, when charlie said on the phone, "Miss Fei, since Li Yalin came to look for you, you might as well meet him and see what he's up to."

"Okay!" Fei Kexin agreed immediately and said to the public relations manager, "Let Inspector Li come in."

charlie said at this time, "Miss Fei, you don't need to hang up, I want to hear what Detective Li is going to do."

"Okay, Mr. Wade." Fei Kexin said, putting the phone in his pocket.

After a while, Li Yalin strode in.

After seeing Fei Kexin, he asked straight to the point: “Miss Fei, where is Miss Xion who went back to New York with you now? I have something to ask her face to face!”
