

The Amazing Son In Law Chapter 4595 (The Charismatic Charlie Wade Chapter 4595)

Hearing that Li Yalin suddenly asked about Xion, Fei Kexin's heart suddenly became nervous.

She knew that Xion's identity was relatively sensitive. If Li Yalin had set his sights on Xion, he might have already suspected the head of Wanlong Palace.

And Fei Kexin is also very clear that when Li Yalin came to Xion directly, he must have mastered the information that Xion and himself entered the country together. There will definitely be trouble.

On the other end of the phone, Charlie heard that Li Yalin came to find Xion, and also realized that Li Yalin must have regarded Xion as a breakthrough.

At this moment, Charlie couldn't help feeling a little annoyed. He asked Xion to escort Fei Kexin to Syria, just considering that Xion was completely credible and she was also a woman, so it was convenient for him to protect and take care of Fei Kexin.

And temporarily asked her to bring Fei Kexin to the United States because of the sudden incident, and Fei Kexin needed to come back to inherit the Fei family. At that time, it was a matter of course for Xion to escort Fei Kexin to New York.

However, he now realizes that he should not let Xion enter New York. Once he enters the country, he will naturally leave entry information, and Xion is quite famous, so it is inevitable that he will be targeted.

So, he immediately sent a text message to Xion using WeChat on his mobile phone, the content was: Xion, Li Yalin has been eyeing you, the people are in the Fei Group, you immediately leave New York and return to China through a special channel, the rest Let Abbas solve the problem!

After the message was sent, he heard Fei Kexin on the phone saying to Li Yalin, "Inspector Li, I take the liberty to ask, what is your business with miss xion?"

Li Yalin was also unambiguous, and said directly: "There is information that she has joined Wanlong Palace some time ago, so I want to ask her about things related to Wanlong Palace."

Fei Kexin said very seriously: "Inspector Li, Miss Xion is a guest I invited to New York, and she entered the United States through legal channels openly and honestly, and she is also a green card holder. It's not appropriate for you to come over so aggressively to ask her questions, isn't it?"

Li Yalin said coldly, "Miss Fei, according to American law, I have the right to inquire under the jurisdiction of my jurisdiction, so I hope you will not interfere with my normal law enforcement."

Hearing this, Fei Kexin knew that Li Yalin's attitude was firm, so she thought to herself: "Mr. Wade is listening on the phone now, thinking that he will definitely inform Xion to deal with it in advance, I will buy some time for Xion anyway!"

Thinking of this, she put away the friendly attitude just now, and said very strongly: "Inspector Li, I know you have the right to ask, but I also have the right to refuse to answer your question."

Li Yalin snorted coldly: "Miss Fei, I know that Xion is at the headquarters of your Fei Group, if you let me meet her, then I won't embarrass you too much, but if you insist on Come face to face with me, then don't blame me for blocking your entire Fei Group."

Fei Kexin nodded: "If Detective Li feels it is necessary to block, I have no opinion, but I want to remind Detective Li that blocking Fei Group requires legal authorization documents, not to mention that I still have such A lot of journalists are getting ready to leave, and if you lock them in, you better have a legitimate reason."

Li Yalin saw that Fei Kexin could not enter, so he threatened: "Miss Fei, you must know the identity behind Xion, if I go back and apply for a search warrant to block this place, if the media reporter asks me, I will I will answer truthfully, suspecting that the Fei Group has a relationship with Wanlong Palace, how will Miss Fei explain it to the American people?"

Fei Kexin said indifferently: "My grandfather and I were hunted and killed overseas, and it was Miss Xion who protected us all the way to let us return to the United States safely. I don't know what Miss Xion's identity is, I only know that she is my benefactor. My friend, even if she is a member of Wanlong Palace, then I want to ask, is there any law in the United States that prohibits American citizens from being friends with Wanlong Palace members?"

Li Yalin said coldly, "Miss Fei, I think you should know that your nephew Jamura and the other people who were killed last night all died at the hands of Wanlong Palace. You can hold a meeting as chairman today. The press conference must also be related to Wanlong Palace!"

Speaking of this, Li Yalin raised his voice a bit and threatened: "Miss Fei, if this matter gets out, do you think the outside world will think that the reason why Jamura died is that you, Miss Fei, fought for the inheritance of the family and fought with you. Wanlong Palace has reached some kind of cooperation and hired Wanlong Palace to kill relatives righteously? At that time, we may even investigate you on suspicion of hiring murderers, which may affect your hard-earned future!"

Fei Kexin said nonchalantly: "It doesn't matter, if Inspector Li wants to investigate, you can do it with confidence and boldness. I, Fei Kexin, will definitely cooperate with you. It doesn't matter if there is random suspicion from the outside world. You coerce something I haven't done!"

"Okay!" Li Yalin said, "Miss Fei, might as well tell you that when I came up, I had already asked the relevant staff downstairs, and I showed them Xion. They all told me that they saw Xion come in with you and never left, so I believe that Xion must be in the Fei Group now."

After he finished speaking, he looked at Fei Kexin and said coldly, "If Miss Fei is willing to cooperate, call Xion now. If you insist on refusing to cooperate, then I can only order the headquarters of Fei Group to be temporarily closed. It's closed, and when things get bigger, Miss Fei will be responsible for all consequences!"

Fei Kexin smiled slightly, hugged his shoulders, and said lightly: "To tell the truth, Detective Li, although I am not very old, I have seen almost all the big battles, you don't need to bully me here, if you If you want to close the Fei Group, please do it!"

At this time, Fei Kexin believed that charlie must have notified Xion in advance.

With Xion's resolute style of behavior, maybe he is already on his way to the airport now.

Therefore, she is not worried at all about Li Yalin closing the Fei Group.

Li Yalin was very angry in his heart, and the successive setbacks had made him a little irrational. At this time, he angrily took out his mobile phone, called his subordinates, and ordered: "From now on, block all the entrances and exits of the Fei Group, temporarily not Allow anyone to leave!"

The subordinate asked in surprise: "Inspector... There are hundreds of reporters in the Fei Group... Is this action a little too big?"

Li Yalin looked at Fei Kexin and said coldly: "I now suspect that the chairman of the Fei Group is related to foreign terrorists, you immediately shut down the entire Fei Group, I will call the director now to bring a search warrant! "

For Li Yalin, Xion is the only clue he can find so far.

Therefore, he is very clear that if he wants to solve the case, he must first find out Xion, and then find a way to dig out other clues related to Wanlong Palace from her.

Otherwise, once Xion and the people from Wanlong Temple withdraw from the United States, this series of lynching cases in New York will not only be impossible to solve, but will also become the biggest shame in his career as a police officer.

As a police officer, he naturally abhors the abuse of lynching.

In his view, fighting crime is the police's blame, not the responsibility of other social groups.

Moreover, other social groups do not have any law enforcement power. Once they commit private executions, it is a complete crime. Even if they punish evil and promote good, they should be punished by the law.

Therefore, he is determined to find Xion now, and he believes that as long as he does not give Fei Kexin any chance to tip off, Xion will definitely not leave here.

Because of this, after hanging up the phone, he said to Fei Kexin, "Miss Fei, I need you to take out your phone and put it on the table, and you can no longer touch any communication equipment in the room."

Fei Kexin wanted to promise him bluntly that as long as he took out his phone and pressed the screen lock button twice in a row, his call with Charlie would be hung up and the screen would be locked automatically, which would definitely not be noticed by Li Yalin.

But after thinking about it carefully, she felt that if she agreed too simply, she would definitely give Li Yalin a feeling that she was confident about this matter.

So, she pretended to be nervous and said coldly, "Inspector Li, I have always respected you, but please don't go too far! What right do you have to restrict my personal freedom?"

Seeing Fei Kexin's guilty conscience, Li Yalin immediately pursued the victory and said unceremoniously, "I now suspect that you have close ties with criminals, so in order to prevent you from tipping off criminals, I have absolute power to restrict your contact with the outside world. If Miss Fei is not satisfied, she can sue me in federal court at any time after this incident!"

Fei Kexin insisted: "I want to notify my lawyer! This is my right!"

Li Yalin sneered: "I'm sorry, Miss Fei, you are now closely related to terrorists and have threatened the homeland security of the United States of America, so you can't contact your lawyer during these extraordinary times!"

After that, he warned: "Miss Fei, I repeat, you immediately take out your mobile phone and put it on the table, otherwise, I will do it myself!"

Fei Kexin gritted his teeth, and pretended to be indignant, reached into his pocket and took out his mobile phone, and by the way, he pressed the screen lock button twice in a row to hang up the phone and lock the phone screen.

Then, she took the phone out of her pocket and placed it on the table, glaring at Li Yalin, and asked, "Are you satisfied?"

Li Yalin smiled contemptuously and said lightly: "Miss Fei, I hope you can understand what kind of mistake you are making. If the final evidence points to your cooperation with Wanlong Palace, then I will definitely send you to prison myself!"

Fei Kexin nodded and replied: "Inspector Li, I also hope you can understand that after today's incident, I will definitely protest to the mayor and announce it to all the media. I hope you Don't be removed from office until you retire."

Li Yalin was slightly startled, then said coldly, "Okay, Miss Fei, let's see!"

At this time, Li Yalin was confident.

No matter what kind of movement he made in Fei's group today, as long as he can find Xion in Fei's group, then he will win.

After all, Xion's identity is sensitive and special. Although she has never broken the law in the United States, it is reasonable to define her as a terrorist in view of her previous actions in Tokyo.

Therefore, as long as she is found in the Fei Group, even if the president comes, he can't do anything to himself.

But how did he know that Xion had left the Fei Group a few minutes ago.

And just after she left the Fei Group with her forefoot, the hackers of Wanlong Palace directly invaded the security monitoring of the Fei Group, and manipulated all the surveillance videos of Xion in the Fei Group.

As for Xion himself, he went directly to the wharf in New York Harbor, where there happened to be a freighter from Yisu Shipping about to return to China, so Charlie arranged for Xion to leave the United States by boat.

The freighter will sail directly back to Central China Sea from New York, so it will pass through the Panama Canal and enter the Pacific Ocean under normal circumstances. However, due to the long voyage, Xion can take a helicopter directly from the sea to Cuba when the freighter passes through Cuba, and then from Cuba returned to China by plane.

But Li Yalin, who knew this, made a phone call directly to the New York Police Commissioner, revealed his suspicions and motives, and asked the Police Commissioner to come to support immediately with a search warrant.

The police chief was originally a little angry at his private actions, but when he heard that Xion was in the Fei Group, it might even be related to more than a dozen murders in New York, so he immediately sent people to the Fei Group to support him.

He has the same position as Li Yalin, no matter whether those mysterious people are acting for the sky or not, he must arrest these people, otherwise it will be a disgrace to the entire New York police system.

As a result, a large number of police officers from all over New York came to the headquarters of the Fei Group for support, including the most powerful SWAT special forces in the New York police.

In order to prevent Xion from escaping, the police blocked all the entrances and exits of Fei's group, and sent heavy guards at each entrance and exit. In addition to the special forces with live ammunition, there were many snipers hidden in the dark.

The other policemen checked the identity information of the insiders one by one, and those who checked it were asked to leave the scene immediately. The headquarters of the Fairfield Group conducts a blanket search.

In order to prevent accidents, the New York police also informed the immigration management department to list Xion as the object of restricted exit. Once Xion appears at the port of entry and exit, the powerful face recognition system can be used within one second. identified and alerted the police.

Therefore, Li Yalin believed that Xion would be hard to fly.

Just when the New York police set up a net in the Fei Group to search for Xion's whereabouts, charlie had already arrived in New York.

Today, Stefanie sun will do the final rehearsal in the performance venue. Tomorrow night at 8 o'clock, her first concert in the United States will officially start in New York.

So charlie didn't rush to find her, but planned to go to Arman's restaurant to meet Uncle Arman first, chat with Uncle Arman about the current situation, and also take the opportunity to ask him if he is interested in returning to China for development.

This time, charlie took a helicopter to the vicinity of Chinatown in a very low-key manner, and then walked to Chinatown alone.

Having met his uncle at Uncle Arman's restaurant last time, he also deliberately wore a peaked cap and a disposable mask this time.

When charlie came to the vicinity of Uncle Arman's restaurant, he suddenly found that just outside the restaurant, a young man in his twenties reached out and grabbed the mobile phone of a girl on the side of the road, then got into a black car, And go.

After the phone was robbed, the girl shouted nervously, "Please call 911 for me, someone robbed my phone!"

charlie frowned slightly, but didn't think much about it.

Then, he walked towards Uncle Arman's restaurant.

At this time, Uncle Arman opened the door and saw charlie wearing sunglasses and a mask. He recognized him at a glance by his posture and hairstyle, so he shook his head slightly at him, winked again, and then He skipped him and said to the girl whose phone was stolen, "Don't be afraid, girl, come to the store and sit for a while, and I'll help you call the police!"
