charlie's cold order made Asher feel sad in his heart.

Li Yalin is a good brother he grew up with since childhood. Today, his good brother died because of his own affairs. He can't even tell his family about his death, which makes him how can he accept it in his heart.

However, he is not the three-year-old child, or those giant babies who have not experienced social beatings. He knows very well that the current situation is completely beyond his control.

Being able to survive is already the greatest luck, what else can I expect?

The only thing I can do is to do everything I can to make up for Li Yalin's family after what happened today.

So, he could only nod his head honestly and say, "Thank you, sir, I understand now, and you must follow his instructions!"

The reason why charlie used such an unquestionable tone was to cut off Asher's other thoughts and let him do exactly what he wanted.

Seeing that he had accepted the reality at this moment, he closed the door very simply.

Afterwards, he took out his mobile phone and called Abbas while walking towards the elevator entrance.

After the call, Abbas's voice came: "Mr. Wade, what are your orders?"

charlie asked him: Abbas, you have arranged for the soldiers who stayed in New York to come to Miss sun's performance venue. Just now, more than 20 militants came here to attack An's family, and they were basically killed by me. I need you to help me deal with it."

After Abbas heard this, he asked in shock, "Mr. Wade, are you alright?!"

"I'm fine." charlie said indifferently: "It's just that there are too many corpses, and it's more troublesome to deal with alone."

Abbas hurriedly said: "This subordinate will bring someone over here!"

Charlie asked curiously, "You haven't left New York yet?"

Abbas said: "Mr. wade, my subordinates haven't left yet. It just so happens that there is an equipment dealer in New York who has cooperated for many years. I plan to purchase a batch of heavy equipment and transport it to Syria."

Having said that, Abbas hurriedly said: "Mr. Wade, most of the soldiers of Wanlong Palace have left for Syria this morning, and now there are only a dozen people on hand, is that enough?"

"It's okay." charlie said lightly: "I asked Fei Kexin to send some people over. She is a householder in New York, and the staff should not be a problem."

abbas breathed a sigh of relief and said, "Okay, Mr. Wade, wait a moment, your subordinates will come here."

charlie snorted and said, "Okay, prepare more body bags, I'll wait for you here."

charlie said, people have come to Li Yalin's body.

He hung up the phone, took off his thin coat, put it on Li Yalin's body, and then poured some spiritual energy into his body to maintain his current state.

Then, he picked up the phone again and called Fei Kexin.

Fei Kexin on the other end answered almost instantly, and his voice said with a bit of surprise: "Mr. Wade!"

"It's me." charlie asked, "Miss Fei, I need your help with something."

When Fei Kexin heard charlie said that he needed help with something, he blurted out almost without thinking, "Mr. Wade, please say, as long as I can do it, I will definitely do it!"

charlie said: "I was in Miss sun's performance venue, and I encountered a small situation here. I need you to bring enough people to block the entrance and exit of the entire VIP."

Fei Kexin said without hesitation: "No problem, Mr. Wade, I'm relatively close, and I'll bring someone here right away!"

After hanging up the phone, Stefanie sun's concert officially started.

Stefanie sun, who had no idea what was going on, appeared in the costume of a future soldier, and the fans in the audience shouted wildly with excitement.

Seeing that the performance started normally, charlie breathed a sigh of relief.

The best solution for tonight's event is to take advantage of the normal performance of the show to clean up the mess here, so as not to attract attention from the outside world, let alone the police.

Otherwise, once panic is triggered, tens of thousands of people will flee in droves, causing stampedes, and I don't know how many people will die.

As long as the site can be basically dealt with, tomorrow will let Zuri announce that the venue will be upgraded and renovated, and then the VIP area, including the floor, walls and ceiling, will be demolished and buried. Otherwise, there will be so many people and bloodshed today. , even if it is washed cleanly, there will be DNA residues in the cracks of the floor and the depths of the wall.

Only by dismantling everything here can we die without proof.

Ten minutes later, Fei Kexin rushed to the scene.

She brought dozens of bodyguards to directly block the entrances and exits of the entire VIP area. Then Fei Kexin took the elevator to the upper floor. As soon as the elevator door opened, she saw charlie standing here and Li Yalin's body on the ground. .

Since charlie covered Li Yalin's severely injured upper torso with clothes and did not cover Li Yalin's face, Fei Kexin recognized him at a glance and exclaimed, "Mr. Wade...you...you Detective Li killed?!"

charlie shook his head and said indifferently: "I really didn't kill it, the murderer's body is inside."

Fei Kexin almost subconsciously wanted to go in and take a look, charlie stretched out his arm in front of her, and said lightly: "The scene is too bloody, you better not go."

Fei Kexin pursed his lips and said, "Mr. Wade, my people are all guarding below, or I'll call them up to help you!"

charlie shook his head and said, "No need, Abbas will bring someone over to deal with the corpse in a while, your people just need to help me guard the entrances and exits here, including the entrances and exits on the first floor leading to the infield and backstage, all are blocked, except for Wan No one else from the Dragon Palace is allowed in, including the show's staff, and the New York police."

"Okay!" Fei Kexin immediately said solemnly: "Don't worry, Mr. Wade, I'll arrange it now."

After that, she took out her mobile phone and gave charlie's order to her bodyguard.

Later, she said to charlie, "Mr. Wade, there are several corpses in the lobby on the first floor. They were all shot to death and they look like staff."

charlie nodded and said, "The other party killed them all the way, and they must have killed them when they saw them."

Fei Kexin asked, "Mr. Wade, are these people here for you?"

charlie shook his head and said, "It's for the An family. The An family is here to watch the performance today."

Fei Kexin's eyes widened, and she blurted out, "Your grandfather and grandmother are all here?!"

"Yes."

Fei Kexin hurriedly asked, "Then are they all right?!"

charlie said: "It's okay, I was a little frightened, and I'm still in the box now."

Fei Kexin asked in a low voice, "Then...then did you recognize them?!"

In Fei Kexin's view, charlie's current comprehensive strength has basically reached its peak. If he can recognize his grandfather and grandmother's family, no one can match him.

"No." charlie smiled lightly and said, "Fortunately, I had an idea and shattered all the lights in the corridor. They shouldn't be able to see me clearly."

Fei Kexin looked surprised and blurted out: "Mr. Wade... Although this situation is very dangerous, it is also an excellent opportunity to meet each other... Why don't you take this opportunity and push the boat along the way?"

charlie laughed at himself and sighed: "Now instead of pushing the boat with the current, I want to hold the boat, and even let the boat go upstream..."

"Upstream?!"

Fei Kexin was even more surprised when he heard charlie's words.

She really couldn't understand why charlie was so resistant to recognizing his own grandfather.

At this time, Fei Kexin received a call, and the person on the phone said, "Miss, the Master of Wanlong Palace has arrived and has already brought people in."

"I see." Fei Kexin responded and said to charlie, "Mr. Wade, the Hall Master abbas is here."

Just as he was talking, the indicator lights of the two elevators flashed. After a while, the doors of the two elevators opened, and Abbas rushed out with more than ten Wanlong Hall soldiers.

Seeing charlie, Abbas took the lead and bowed his hands: "Mr. Wade, it's too late for this subordinate!"

The officers and soldiers immediately folded their hands and said in unison, "It's too late to come down!"

charlie said indifferently: "Everyone has come very quickly."

Abbas hurriedly asked: "Mr. Wade, how is the situation now? What do you need your subordinates to do?"

charlie said: "There is a gangster with a broken limb who is still alive. I want to take him away. I still have something to ask him. The rest of the people inside are dead. , and then clean up the blood and bullet marks on the scene."

Abbas's expression froze, and he said quickly: "Then we will deal with it now."

Then, he immediately took people to the corridor.

At this time, the corridor was dark, but Abbas was an eight-star warrior after all, and his strength was extraordinary, so even if the light was weak, he could see very clearly.

When he saw the scene, the whole person was stunned.

He could be considered to have come out of the dead pile, but it was the first time he had seen such a bloody scene.

The other Wanlong Hall soldiers couldn't hide their horror, and the strong smell of blood made everyone feel physically uncomfortable.

Abbas was the first to come back to his senses and said in a cold voice, "Prepare the body bag and pack all the dead."

"Okay!" Everyone nodded again and again, and immediately took out a thick black body bag from their pockets and began to dispose of the corpse.

As one body after another was put into a body bag, Abbas's heart became more and more shocked.

What shocked him was not the gangsters who had their legs cut off by Charlie and committed suicide by taking poison, but the four martial arts masters with extremely high cultivation.

These four martial arts masters were all hit by bullets beyond recognition. It is no exaggeration to say that there are at least thirty or forty bullet holes in each of them, and almost none of them are intact from head to toe.

Even, Abbas could only see from their mutilated corpses that one of their meridians was open, but he could not be sure that they were masters of a few stars, because most of their meridians had been smashed by bullets.

After all the corpses were put into the body bag, Abbas grabbed the collar of the leader and stuffed it into the body bag. There are other uses, sir."

"Okay!" The subordinate nodded quickly and made a mark on the body bag.

The soldiers in Wanlong Hall moved very quickly, and within a few minutes, nearly 30 corpses were all packed.

They then started carrying the body bags down the elevator.

Because they stood in the pool of blood for too long, when they came out, they left large blood-red footprints on the outside stalls.

Fei Kexin saw that these people in Wanlong Hall were covered in blood, and they had a strong smell of blood on their bodies. You didn't need to look at them to imagine how tragic the situation inside was.

Abbas came to Charlie at this time, and said, "Mr. Wade, the body is all packed, immediately arrange to transport it out of New York first, and then arrange for someone to transport it to the high seas for disposal as soon as possible. As for the one who is still alive, I will take it to the villa and lock it up."

charlie nodded: "Okay, you've worked hard."

Abbas asked, "By the way, Mr. Wade, there are four martial arts masters inside. I don't know what their cultivation bases are, why did they die so miserably?"

charlie said lightly, "One six-star warrior, two seven-star warriors, and one eight-star warrior."

"Eight-star martial artist?!"

Abbas was stunned.

You must know that the highest martial artist has only eight stars, which corresponds to the eight extraordinary meridians of the martial artist, and the one who opens the eight extraordinary meridians is the eight star martial artist.

And Abbas is now only a small level higher than the eight-star martial artist.

Eight-star warriors would die so tragically, which really surprised Abbas!

Seeing his surprised expression, charlie asked, "Did you expect that eight-star warriors would die so miserably? Even the Tianling Gai was shattered."

"Yes..." Abbas said incomprehensibly: "To tell you the truth, Mr. Wade, my subordinates can't think of why these four people died so miserably... With such strong strength, it should be difficult for ordinary people to get close to them. The body is just right, and they are bodyguards, and they should have a strong sense of prevention, and they should not give the opponent the opportunity to approach and shoot..."

charlie said coldly: "abbas, this is your pride as a warrior in your bones. You always think that warriors are strong, but you never thought that warriors also have many shortcomings."

With that said, charlie asked him, "If more than 20 people suddenly appear at the end of this corridor where there is nowhere to hide and shoot at you, how many rounds do you think you can survive?"

Abbas said seriously: "I think I should discover each other before they appear. After all, they are not eight-star warriors, and it is impossible to hide their breath and movements."

charlie asked again: "What if the other party is just about to start the performance, and the sound outside is full of the roar of the explosion of the cosmic war? Can you still perceive the other party's breath and movements?"

"This..." Abbas's expression froze, and he said ashamedly: "If this is the case, then I shouldn't be able to do it..."

charlie asked him again: "If more than 20 people suddenly appeared, using powerful modern firearms to shoot six or seven hundred bullets in a few seconds, would you be able to stop it?"

"This..." Abbas's expression became even more horrified. After a while, he shook his head and said, "If six or seven hundred bullets are fired in a few seconds, I... can't stop..."

charlie said: "I don't know if you have seen the details of the firearms they used. On the clips inserted under everyone's guns, a clip in the opposite direction was also tied with tape. Pull out the clip, insert it in reverse, and after two or three seconds, you can shoot six or seven hundred bullets again. This kind of firepower, in this kind of aisle where there is no way to hide, let alone an eight-star warrior, even a master of martial arts like you, who is the Great Perfection of the Bright Realm, can't resist it at all."

Speaking of this, charlie said with emotion: "It's like hunting in a group of African hyenas. Although the tricks are indiscriminate, as long as they cooperate with each other, they will be able to do everything in the grasslands. ."

"Yes..." Abbas's back was cold, and he said, "This subordinate will definitely learn a lesson!"

charlie nodded and said, "Just know what you have in mind, it's getting late, let the brothers hurry up and get the corpse away."

"Follow Mr. Wade!" Abbas said, pointing to Li Yalin's body and asking charlie, "Mr. Wade, will this Inspector Li's body be taken away and disposed of together?"

charlie shook his head: "No, he's not dead yet."

After that, he looked at Fei Kexin again and said, "Miss Fei, I have heard before that it seems that there are a lot of terminally ill rich people in the United States who will freeze themselves before they die. I hope that in the future technology can Take care of yourself, is this the case?"

Fei Kexin hurriedly said: "Mr. wade, this situation is quite common. Basically, every top rich man has his own investment in a freezing center, so that after exhausting all modern medical methods and unable to continue the statement,

put it away. Freeze yourself, which is called the future hibernation plan in the rich circle, hoping to be reawakened one day in the future.”

After speaking, Fei Kexin added: “The freezing center uses liquid nitrogen to maintain the temperature of the human body at about minus 200 degrees below zero, but many biological experiments have been done before, and all of them have failed. Frozen creatures wake up, and everyone regards it as the last bit of extravagance.”

charlie asked her, “Does the Fei family also have this kind of freezing center?”

“Yes.” Fei Kexin nodded and said, “Grandpa invested in one ten years ago, and it is still in operation.”

charlie nodded, pointed at Li Yalin, and said to Fei Kexin, “Then you can arrange it and send him to freeze it!”
