"Mr. Wade...you asked me...you asked me to freeze Detective Li?!"

Fei Kexin was stunned by charlie's words, and she didn't know how to respond for a while.

charlie said with a look of course: "Don't you have to say that there is a freezing center? Pulling him back to freeze is a matter of hand."

Fei Kexin saw that charlie said it very easily, and couldn't help reminding: "Mr. Wade, human body freezing technology is only a scientific concept so far, although this concept has been proposed by scientists decades ago, but So far there has been no success story..."

With that said, Fei Kexin couldn't help but look at Li Yalin lying on the ground, and continued: "Mr. Wade, let me be more straightforward, with the current scientific methods, it is impossible for a person to survive after being frozen... .."

charlie waved his hand: "You don't have to worry about this, just freeze him first."

The reason why charlie sent Li Yalin to the freezing center for freezing is because he also has no ability to keep Li Yalin's body undead and not broken. By freezing him, he can maintain his current state to the greatest extent, because he is frozen at one or two hundred degrees below zero. In the ultra-low temperature environment, the aura needed to maintain his body will also be reduced to an extremely low level.

In this way, charlie only needs to spend a small amount of spiritual energy to protect his body, and then let the spiritual energy be frozen with him, which can at least ensure that he will not have any changes in a few years.

However, charlie couldn't explain this kind of thing clearly to Fei Kexin, so he could only stubbornly ask her to obey.

Seeing that charlie had made a decision, Fei Kexin didn't say anything more out of respect, but immediately called his grandfather and asked him to personally instruct the person in charge of the freezing center to come and pick up Li Yalin.

After communicating with grandpa, Fei Kexin said to charlie, "Don't worry, Mr. Wade, grandpa said that he would come over to pick up Inspector Li from the freezing center within 15 minutes."

"Okay." charlie nodded and said, "I'll leave this person to you. Remember, don't leak any rumors to the outside world."

"You can rest assured." Fei Kexin said firmly: "The confidentiality level of the freezing center has always been high, and the information will not be leaked."

charlie said, "That's good."

Fei Kexin couldn't help but said at this time, "By the way, Mr. Wade, I have something I don't know if I should say it or not."

Charlie said: "But it doesn't matter."

Fei Kexin nodded and continued: "Mr. Wade, generally speaking, every move of a top family member is top secret, especially a super family like the An family, generally speaking, their movements cannot be captured by the outside world. Yes, but today, these gangsters can not only grasp the movements of the core members of the An family, but even know the situation here. It's the An Family that has an inner ghost..."

"Yes." charlie said in agreement: "I agree with you on this matter, but the An family may have to investigate who the inner ghost is."

After that, charlie said to Fei Kexin again: "By the way, Miss Fei, you have a lot of staff in New York, so you will work hard to arrange your own confidants first, remove all the carpets here, burn them, and deal with all the bloodstains, and bullet holes are also solved together, and we also seize the time to find a new batch of carpets to replace."

Fei Kexin said without hesitation: "Don't worry, Mr. Wade, I will arrange it!"

charlie nodded and said to Abbas: "Abbas, the gangster who is alive must be optimistic about me, he must not commit suicide, let alone let him be taken away, I will personally go over to try him later.!"

Abbas blurted out: "Okay, Mr. Wade, the subordinates will take care of them in person, and there will be no accidents."

"Okay." charlie nodded and said, "You go to the villa to wait for me first, and I'll go over at night."

Abbas clasped his fists and said, "Okay, Mr. Wade, then the subordinates will retire first!"

After Abbas left, Fei Kexin immediately instructed his subordinates to quickly prepare a large number of tools to prepare for the aftermath.

According to Fei Kexin's request, his men first removed all the carpets, and then packed the carpets in airtight bags and took them away for incineration.

While these subordinates were cleaning the carpets, another wave of subordinates had urgently sent a batch of lighting equipment, building materials, cleaning supplies and water pumps.

Subsequently, a few people who were proficient in circuits began to replace the spotlights for lighting, and more people immediately used the water retaining strips and styrofoam used for decoration to enclose the entire corridor into a ten-centimeter-high, dense impermeable pool, and then use the high-pressure water gun equipped by the firefighter with the strong detergent to clean the blood in the aisle diligently.

Soon, the lights in the corridor were completely restored, and as the blood concentration in the pool became less and less visible to the naked eye, the bloody smell in the corridor quickly dissipated 90%.

At the same time, another wave of people was silently dealing with the remaining bullet holes in the wall.

After they pulled out the warheads one by one, they smoothed the damaged wall with quick-drying putty.

Since the wallpaper in the corridor of the VIP area is the same as the wallpaper used in the room, they cut all the wallpapers in one of the unused VIP boxes, and then filled them in pieces according to the color, and dealt with the gaps at the joints. Makes it impossible to see what's wrong.

Afterwards, Fei Kexin's subordinates used a disinfectant with a certain pungent smell to spray the entire corridor again, and then used several high-power hot air dryers for drying.

Since everyone has a clear division of labor and tacit understanding, it took less than half an hour to complete all this.

At this time, another wave of Fei Kexin's subordinates drove a freight truck.

As early as when the first group of people started cleaning the carpets, they had urgently deployed brand new carpets from the Fei family's self-operated decoration city.

Although these carpets and the replaced carpets are not of the same brand, the color and texture are 80% similar.

Along with the truck, there were also some workers who didn't know anything. When they came here, they couldn't see that a tragic shooting case had just happened here, and they couldn't see that nearly 30 people had just died here. .

All they know is that their supervisor gave them five times the hourly rate to spread the carpet as fast as they could.

Therefore, everyone worked together to use the fastest time to cover the entire VIP area with brand new carpets.

When these workers withdrew, there was no sign of a fierce battle in the entire corridor.

Apart from the faint smell of disinfectant and the smell of brand new carpets, there was hardly any blood in the air.

At this time, Fei Kexin's subordinates below reported: "Chairman, there is a woman name Zuri who insists on going up, saying she is the person in charge here, and also questioning my identity and threatening me to call the police. She's under control, what's next?"

Fei Kexin was surprised, and quickly reported the situation to charlie.

After listening to charlie, he guessed that it should be Zuri, so he said, "Let someone bring her up, look after her, and don't let her contact the outside world."

After all, charlie frowned suddenly. Fei Kexin's feedback reminded him of a detail. Just now, his uncle said in the room that his phone had no signal, and he couldn't even call 911.

But why is my phone not affected in any way?

Could it be that the signal shielding equipment is installed in their box? !

If this is the case, then it is likely that there is an inner ghost in Stefanie sun's team!
