The female shopping guide said that the ceiling among the ladies immediately overwhelmed Elaine.

She felt that the female shopping guide had a kind of chemical energy. Through a certain chemical reaction with her eardrum, a large amount of dopamine could be produced, and it would go straight to the head along the blood.

Simply put, it's too much.

This feeling is like a young man who has just learned to smoke, grabbing the dry tobacco pouch of the old man in the village and taking a big mouthful.

Not only the head, but even a little dizzy.

She was so happy that she couldn't close her mouth. Looking at this female shopping guide, she liked it more and more.

souna is really good at flattering her. She has been her sister-in-law for decades, and she can call her sister with a calm face as soon as she turns her head.

But if you really want to compare with the female shopping guide in front of you, souna is at best a younger brother.

So, Elaine asked the female shopping guide overjoyed: "Hey, girl, what kind of necklace should I wear with my temperament?"

The shopping guide said without hesitation: "I think with your temperament, you will be the treasure of our town store no matter what!"

After she finished speaking, she said quickly, "Wait a minute, ma'am, I'll find our store manager in the back to open the safe and show you the treasure of the town store!"

As soon as the voice fell, the female shopping guide hurriedly got up and went to the office area behind.

In the office area, the store manager was watching the conversation between the female shopping guide and Elaine in real time through the storefront monitoring. When the female shopping guide came in, he quickly said, "Oh, how can you give her the treasure of our town store... "

The female shopping guide said with a look of surprise: "Manager, this is not what you asked, let me fool the woman as much as possible to spend more money? Then just do it one step at a time and find a way to get him to buy the treasure of our town shop."

The store manager waved his hand: "Oh, the treasure of the town store is more than 7 million, how can she afford it? As far as I know, her capital is only 500,000 at most, you can find a way to buy our emeralds. The goddess' dream sells her and it's over."

The female shopping guide was startled and blurted out, "The store manager... You are doing such a good job of intelligence work. Do you even know how much money she has?"

The store manager said seriously: "I'm also helping others, you must keep it a secret! In short, as long as you find a way to make her spend 500,000 yuan in our store, I will immediately charge you 100,000 yuan! If it's not enough, you will do everything you can to make her spend all the money, even if you lower the price or fool her directly, it doesn't matter, you are free to play, and I will bear the burden!"

"Okay!" The female shopping guide nodded and waved: "Leave it to me."

The store manager said again: "By the way, after she finishes shopping, tell her that she can come to the lottery after lunch. The first prize is worth 1.2 million! The prizes are all set for her, but the lottery tickets are still available. In the expedited processing, it can be delivered after one o'clock in the afternoon, so when she comes to the lottery in the afternoon, she will be able to draw the first prize."

The female shopping guide asked dumbfounded: "Store manager, what's the background of this woman? So much money..."

The store manager said: "The original is not from me, but from a big man. You cooperate well, and you will benefit after everything is done!"

The female shopping guide nodded sensible and said to the store manager, "I know the store manager! I have to trouble you to give me the treasure of the town store first, otherwise I won't be able to explain it when I go out."

The store manager didn't say much, and immediately took out a set of beautiful diamond necklaces from the safe and handed it to her: "You must take it, don't drop it."

The shopping guide nodded and smiled, and walked out with the treasure of the town store in both hands.

When Elaine saw the huge diamond necklace in her hand, in addition to being pleasantly surprised, she couldn't help but feel a little guilty.

Elaine is not a fool. She knows how bad things are. With such a big diamond, it is impossible to get a 7-digit number at a glance.

However, thinking that the sales have set off the atmosphere here, wouldn't I be sorry for the title of "Lady Ceiling" if I say I can't afford it?

Just when Elaine was uneasy, the female shopping guide put the treasure of the town store in front of her.

Elaine looked down at the price tag, and suddenly exclaimed in her heart: "My mother, seven, eight, eight, eight... There are six eight after seven, and there is no decimal point... This is 7,880,000. what!"

The female shopping guide in front of her took out the necklace, looked at Elaine, then looked at the necklace, she shook her head and said, "Ma'am, I suddenly feel that even this necklace is somewhat eclipsed in front of you."

Elaine was about to cry.

"Nearly eight million necklaces are eclipsed in front of my mother? You think my mother is the sun!"

sona behind him was also shocked, and blurted out: "Your chain is too expensive... 8 million, and you have to win the lottery at least twice after taxing!"

The shopping guide said seriously at this time: "Actually, money is not a problem. I believe that with this lady's temperament and her worth, it is more than enough to buy such a necklace."

When she said this, Elaine was already a little restless.

This female shopping guide is really good at setting off the atmosphere. At first, the atmosphere made Elaine really happy, but at this point, Elaine has already been riding a tiger.

At this moment, the female shopping guide changed the conversation and said seriously: "Actually, I think this kind of diamond necklace is too big, too special, too flashy, and it looks a bit too vulgar when it is matched together. The taste is too strong, but there is no background."

When Elaine heard this, her eyes suddenly lit up, and she blurted out: "Oh, what you said is so right! Wearing such a large diamond necklace around his neck is like hanging three words on his neck: 'I'm rich'!, vulgar! Really vulgar!"

The shopping guide nodded and said very seriously: "Actually, when a noble lady like you chooses jewelry, what she really cares about is not its value, but its temperament, its style, and its heritage! "

Elaine's fidgeting just now has vanished, replaced by a higher level of comfort and pleasure.

She said with great approval: "Oh girl, what you said is great! It's really great!"

The shopping guide smiled slightly, took out a necklace with broken diamonds and an emerald pendant from the counter on the side, handed it to Elaine, and introduced: "Lady, look at this Goddess' Dream, although its diamonds are not big, But each one is a carefully selected ultra-pure diamond, and the fan-shaped pattern is inspired by the classic architectural style of ancient Rome, showing the unique charm of successful women everywhere!"

"The most important thing is that the main gemstone of this chain is a teardrop-shaped emerald!"

"You know, we Chinese people love emeralds very much, and emeralds respect and value green. Although Westerners don't understand emeralds, they also regard emeralds as the best among gemstones. Aesthetics coincide!"

"So, such a necklace is not only beautiful and exquisite, but more importantly, it also integrates the cultural heritage of the East and the West. Whether you wear it in Western style or Chinese style, this necklace can perfectly set off your unique temperament. It seems that it is more suitable for you than our treasure of the town store! I even think it is tailor-made for you alone!"

When Elaine heard this, her love for this necklace was beyond words. She was pleasantly surprised and took the necklace in her hand to examine it carefully. She couldn't help but sighed, "Oh! This necklace is really beautiful! It's perfect!"

After speaking, she hurriedly looked at the price tag, 488,800...

Elaine couldn't help muttering in his heart: "Damn, 488,008... I have spent a lot of money that Charlie gave me recently, and the card seems to be only 300,000..."

Thinking of this, Elaine felt lost for a while.

After some talk by this female shopping guide, Elaine has already fallen in love with this necklace hopelessly, and now she has only one idea: buy it!

"But, the money is not enough..."

The shopping guide seemed to see Elaine's embarrassment, she turned her head and said, "Ma'am, you are so lucky today, today is our store's store celebration honor, this necklace is on sale now, and you can buy it now and get a fraction off. , as long as 400,000!"

Elaine hasn't responded yet, and sound on the side has already exploded.

She blurted out, "I remember that your family never had a discount. How could it be more than 80,000 yuan cheaper all of a sudden!"

The shopping guide smiled and said, "Ma'am, you're right, we never have any discounts in our store. Today is the only special case, and it's only today!"

Elaine was also moved.

Brands that never discount are directly cheaper by 80,000, which is a big bargain!

As the saying goes, cheap is not a bastard.

If you don't buy this necklace, you'll have to wake up at night.

So, she quietly turned on her mobile phone and glanced at the account balance in the bank APP. There were 362,000 left in the account.

During the few days that Charlie and Claire were gone, not only did she charge a super VIP membership card of 80,000 yuan in the beauty salon, but she also took a sound bath to several large meals and bought herself a few outfits. New clothes, money spent really quickly.

Even if I take out all the money now, I am still short of thirty-eight thousand, not to mention, I can't spend all the money, and I will have to live for more than half a month!

If you spend all your money on a stud, won't you have to eat dirt in the future?

At that time, Rolls-Royce can't even add gas, so it can't really sell four wheels, right?

Elaine was in a dilemma all of a sudden.

The female shopping guide is the same. Seeing that her expression is a little tangled, she asks very politely and tentatively, "Ma'am, are you inconvenient for money now?"

After finishing speaking, she was afraid that Elaine would be unhappy, and quickly added to the search: "I know that many successful people like you do not put too much cash in their bank cards. Many successful people like you usually put the money in financial management, and only keep a small part of it as a daily flow."

When Elaine heard this, he was relieved. Isn't this the best step? So she hurriedly said, "Yes, yes! I usually put my money in financial management. The balance of my bank card is just some pocket money. To be honest, my pocket money is really not enough for 400,000."

The female shopping guide nodded and said seriously: "Like the financial management you purchased, even if it is the fastest redemption time, it is estimated that it will not be credited until tomorrow, right?"

"Yes yes yes!" Elaine sighed and complained: "I tell you, these banks are so outrageous, when you buy them for wealth management, they will deduct your money in one second. , When you redeem the money from your financial management first, they will generally not be credited until the second day, and if there are holidays and weekends, they will have to wait until they finish the holiday before crediting the account."

In fact, Elaine has not bought a penny of financial management now.

But in the earliest days, when she was in control of the financial power of the family, she did buy some financial management.

At first, she also bought wealth management in the bank, but later she thought that the interest rate of bank wealth management was too low, so she ran to buy PtoP, and finally the platform exploded, and it was charlie who helped to get the money back.

When the female shopping guide saw Elaine borrowing the donkey, she asked with a smile, "Ma'am, how much pocket money do you have in your balance now?"

Elaine pretended to pick up the phone and said with a smile, "I'll take a look. I don't know how much it costs."

After finishing speaking, I opened the bank APP, glanced at the balance page to the female shopping guide, and said helplessly: "Oh, what a coincidence, my pocket money is only more than 362,000..."

The shopping guide nodded and said seriously: "It doesn't matter, lady, we have a hidden event today. While there are no other customers in the store, I will only tell you the details of this event."

Elaine hurriedly asked: "There are still activities? What kind of activities are they? Can they still be cheaper?"

The shopping guide explained: "That's right, we have a quota for high-end customers internally, and if you get this high-end customer, you can still get a discount of about 40,000 yuan on the price. In this case, you only need three dollars for this necklace. You can buy it for 160,000, and in addition, you can enjoy an additional cashback activity!"

Elaine asked in surprise: "What is the cashback activity?"

The female shopping guide said: "The cash back is 20%. Didn't you buy this necklace for 360,000 yuan? After the transaction, we will refund you 20%, which is 72,000 yuan."

"My mother..." Elaine blurted out: "Doesn't that mean that after I participated in various activities, I could buy this necklace for less than 300,000 yuan?"

"Yes!" The female shopping guide held the calculator for a while and said, "The actual price is only 288,000, which is a whole 200,000 cheaper!"

Elaine is crazy happy.

200,000 yuan cheaper, isn't this a big bargain?

Just when Elaine was excited, the female shopping guide said: "By the way, after you buy, you can come to the store to participate in the lottery at about 1:00 pm or 2:00 pm. The lottery is free, and the highest prize is worth 1.2 million."

"Mummy!" Elaine exclaimed: "What prize, it's worth 1.2 million!"

The shopping guide smiled and said, "I don't know exactly what the grand prize is. To be honest, I won't know until you come."

Elaine thought to himself: "I picked up a bargain of 200,000 yuan for nothing, and there is still a chance to draw a grand prize of 1.2 million yuan. This is simply a money bag dropped from the sky... What good luck did I have today?"

Thinking of this, she blurted out almost without thinking: "Okay! I bought it! Swipe the card now!"

After all, he immediately took out his bank card from his Hermes.

souna was so envious that she was about to cry, thinking to herself, "What kind of luck is this bi\*ch Elaine! She can pick up such a big leak, I'm so poor every day, even a dollar I've never picked up a steel shovel before!"

At this time, the female shopping guide saw Elaine took out her bank card, nodded immediately, and said with a smile, "Then I will swipe you 360,000!"

After all, she entered the amount on the POS machine, swiped Elaine's bank card on the POS machine, and handed it to Elaine: "Ma'am, please enter your password."

Elaine still retains the last calm, she knows that after the money is swiped, her card will only have more than 2,000.

So, she hurriedly asked: "Girl, is it true that you said about cash back just now?"

"Of course." The female shopping guide nodded and said, "You swipe your card first, and I will help you apply for cash back after swiping the card."

Elaine was completely relieved.

If the 72,000 cash rebates come back, I still have 74,000 left, and if I save some money, it will definitely be enough for my daughter and son-in-law to come back.

After Elaine entered the password, a transaction receipt was automatically printed out.

The female shopping guide handed the receipt to Elaine to sign, and then smiled: "Congratulations, ma'am, this necklace is yours, and I'll wrap it up for you."

Elaine was also overjoyed, nodded and asked, "Oh, that's right, girl, when will your cashback be credited?"

The female shopping guide hurriedly said: "That's the lady, the cashback is operated by the finance of our china headquarters. I need to send your transaction receipt, and after the review is completed, the money will be sent to the place where you paid. on the card."

"Ah?!" Elaine was shocked and blurted out: "How long will it take to get the account?!"

The female shopping guide said: "Under normal circumstances, it should be five to seven working days. After all, logistics also takes time."

Elaine was in a hurry and said subconsciously: "Oh, why didn't you say it earlier... I thought I would be able to get the cash back right away..."

The shopping guide hurriedly said: "Ma'am, if you are really in a hurry to use the money, you can redeem some from financial management first, because our cashback does take time, I'm really sorry! However, I believe that for high-end customers like you, Say, it is definitely impossible to urgently use these more than 70,000 yuan, right?"
