

The Amazing Son In Law Chapter 4887 (The Charismatic Charlie Wade Chapter 4887)

After ten minutes of driving, the convoy came to the hangar where Fei Kexin's special plane was parked.

charlie originally thought that Fei Kexin's special plane should be a luxurious business jet like the Gulfstream g650, but he didn't expect that the one parked in the hangar at this moment turned out to be a huge Boeing 747.

This plane, like Air Force One, the US President's vehicle, is a symbol of wealth and power.

The crew at this time had completed all the pre-takeoff checks, and more than ten people, including the captain and the purser, were standing at the bottom of the plane's spiral staircase and waiting.

The convoy stopped one after another, and everyone got out of the car. charlie glanced at Mia beside her, and when she saw her pursed lips and did not speak, he said, "Miss Mia, let's get out of the car."

Mia raised her head, her eyes Looking at charlie faintly, he said softly, "Mr. Wade, when will You be able to come to Hong Kong Island next time?"

charlie smiled and said, "It depends on the situation, if there is a chance, I will definitely come."

Mia tapped gently

charlie nodded and said: "Then please take care Mr. Wade. When you come to Hong Kong Island, remember to tell me in advance." melancholy.

Recently, because I went to school with my wife Claire in the United States, I seem to be a little leisurely, but once this period of time passes, I am afraid that I will be busy again. At that time, I will not have the time and opportunity to come to Hong Kong Island. .

However, at this time, charlie didn't know that Mia, who was beside him, was ready to quietly go to the mainland for development.

However, Mia had no plans, and told charlie at this time.

She thought that she would go to take down the position at Aurous Hill University first, and then go to Aurous Hill to surprise charlie in person.

Immediately, charlie and Mia got off the bus together, and Fei Kexin, who got off the bus first, was already waiting under the spiral staircase.

Liu Jiahui and Arman also came up to greet him, Liu Jiahui said to charlie with a face of reluctance: "Mr. Wade, your trip this time is too rushed, and I would like to invite you to stay at home for a few more days, but I didn't expect you now I 'm going back."

charlie knew that Liu Jiahui was just polite, so he smiled and said, "It doesn't matter, there may be a chance to harass Mr. Liu in the future."

Then, charlie looked at Arman and said seriously, "Uncle Arman, Take care of your family during this time, and I will contact you in advance when I return to Aurous Hill."

Arman cupped his hands respectfully and said, "I'll wait for Young Master wade !"

charlie smiled, and then said to Mia, "Miss Mia, thank you. I hope I haven't disturbed you for the past few days."

Mia's eyes were full of reluctance, and she said softly.

and said: "How come, Mr. Wade is too polite."

charlie smiled slightly, and after saying goodbye to a few people again, under the watchful eyes of a few people, he and Fei Kexin Board the plane together.

This Boeing 747 has a double-deck cabin design. The front half of the fuselage is divided into upper and lower layers. Although the area of the upper layer is smaller, three to forty business class seats can be placed loosely.

As for Fei Kexin's plane, the upper deck is reserved for the entourage, while the lower cabin with a larger area is designed with meeting rooms, reception rooms, restaurants, bars, and two luxurious rooms with independent bathrooms.

After boarding the plane, Fei Kexin first took Charlie to the reception area on the first floor, and said to Charlie, "Mr. Wade, let's sit here for a while, the plane will be launched and take off immediately, and after the plane flies level, the staff will prepare dinner for us, and if you are tired after dinner, you can go to your room to rest first, the flight is about 12 hours, and you will arrive after a sleep."

Charlie nodded, at this time the plane had already started to be tractor-trailed slowly drag out of the hangar.

Through the window, Charlie could see Mia below, waving at him constantly.

Charlie also waved at her across the window, and then Mia's figure became smaller and smaller in sight.

After the plane was pushed out of the hangar, the four engines started, and with the thrust of the engines, it began to taxi towards the end of the runway.

At this time, Mia was almost out of sight, but Charlie found that even though everyone else got on the plane, she was still standing there.

Charlie turned around and looked for a long time before turning his head back.

Somehow, he always had a feeling of empathy for Mia.

He knows that this beautiful girl who is envied by countless people on Hong Kong Island has actually lost its color since the day her father cheated on her.

Since then, in addition to facing her mother's tears and grief every day, she has to accept the reality that her mother is seriously ill and her health is deteriorating.

After the death of the mother, although the father gave a lot of material compensation, this compensation was almost a drop in the bucket compared to the blow caused by the death of the mother.

Therefore, he knew that Mia had not been happy all these years, and even lived in nostalgia for his mother.

This also made him feel a little more distressed for Mia.

At this time, Fei Kexin saw Charlie's melancholy appearance, and felt a little lost in his heart.

She always felt that she was no worse than Mia, and even much better than Mia in some aspects, but she didn't understand why Charlie only knew Mia for a few days, so he could pay so much attention to Mia, and he could even see that he was a little emotional, but , but he never found in him what was related to himself

affection.

While sighing in her heart, she did not forget to remind Charlie: "Mr. Wade, can you open the gift that Miss Mia gave you?"

"Oh yes!" Charlie remembered the gift.

So, he carefully placed the suitcase on his lap and opened it gently.

After opening it, he found that the inside of the suitcase contained an extremely beautifully made wooden box, and the English trademark of Patek Philippe was printed on the top of the box.

Fei Kexin, who was on the side, leaned over to take a look, and said in surprise, "It turned out to be a watch..."

She couldn't help but sigh, "Miss Mia is really observant, if you want me to think of a gift for you, I may I really can't think of it, because you don't lack anything, but thinking

about it now, you only lack a watch, and a successful man like you really needs to wear a watch that can highlight his identity when he goes out."

charlie smiled : "The reason why I don't wear a watch is because I don't like to wear it. Now I carry my mobile phone when I go out, so that I can check the most accurate time anytime, anywhere. There is absolutely no need to wear a huge watch on my wrist."

Feike Xin smiled and said, "I didn't like it before, but this watch was given to you by Miss Liu. Maybe it's because of this person that she likes to wear it."

After speaking, she hurriedly urged: "Mr. Wade still open it and see. Look, I also have some research on watches, maybe I can help you with reference."

charlie nodded and opened the top cover of the box.

What catches the eye is a large round dial watch with a circle of blue gems around the watch, which is very stylish with a platinum frame.

Fei Kexin couldn't help but exclaimed at this time: "Patek Philippe's 5073p is still the top sapphire model. Miss Mia has matched it for you all at once..."

charlie asked curiously, "This watch is very good. expensive?"

Fei Kexin smiled slightly: "For you, it may not be a big deal, but this watch should be one of the most expensive in a watch. The actual transaction price is around 10 million US dollars."

charlie couldn't help but Sigh: "Just such a watch, 10 million US dollars? This is too expensive, right?"

Fei Kexin said jokingly: "It's okay, you can buy the entire Patek Philippe brand with a blood-saving pill. Now, Patek Philippe has been doing it for so many years, and it has been over-marketed for so long. Its market value is only around \$8 to \$10 billion, and it is still overestimated. If you have a blood-saving pill and want to make a move, I can sell Patek Philippe. I'll buy it and exchange it with you." After speaking

, Fei Kexin smiled again: "No, no, I'm taking advantage of you too much, or I'll add the Rolex Group too, the market value of the Rolex Group is about the same. Also in the \$10 billion range."

The Amazing Son In Law Chapter 4889 (The Charismatic Charlie Wade Chapter 4889)

charlie didn't expect that Fei Kexin was willing to use Patek Philippe and Rolex, two well-known watch companies, to exchange a blood-saving pill with himself .

But thinking about it carefully, for a top rich man like her grandfather Jian, 20 billion US dollars for three to five years of life, this is still very cost-effective.

After all, Huichundan can be sold for more than 300 billion US dollars, and it is easy to sell one-tenth of the Huichundan for Sanxue Jiuxindan.

In fact, charlie is also very clear, don't look at Fei Kexin's words like a joke, but in fact this is what she really thinks.

However, speaking in such a joking tone, she left enough space for her to mediate before and after, and she could attack and defend.

If she said that she was unwilling to sell the Sanxue Rescue Pill, then she would definitely take jokes as a friend and take it easily.

But if you follow her words and express interest in selling to school, then she will definitely put away her joking attitude and have a serious and in-depth talk with herself.

This made charlie sigh again in his heart: "Fei Kexin is really smart. At any time and under any circumstances, he can judge the form very clearly and control the rhythm very accurately, which is really amazing."

Thinking of this , charlie couldn't help but ponder: "However, Fei Kexin definitely didn't think that I had already planned to give her a blood-rescue pill."

At this point, charlie suddenly felt a sense of ridicule.

He knew that Fei Kexin could attack and defend now, and he seemed to have the initiative, but he also knew that he still had a trump card that was worth a thousand pounds, and that was to pretend to be confused with her on purpose.

So, he looked at Fei Kexin and smiled, then looked at the luxurious and brand-new interior of the plane, and suddenly said, "Oh right, Miss Fei, your plane is very new, shouldn't it be? Did you just buy it?"

Fei Kexin was slightly startled.

She originally thought that she could communicate with Charlie about the purchase of the Sanxue Xindan for this joke-like conversation. Since everything has been said here, maybe this matter can really be facilitated.

But she really didn't expect that Charlie would change the subject directly.

It made her feel as if she had been punched in the air, not even getting any feedback, let alone any real progress.

This made Fei Kexin very disappointed all of a sudden.

She couldn't help thinking of Mia again, thinking of the blood-scattering pill that Charlie gave her, and felt even more inferior.

She thought: "Mr. Wade knows Mia for a few days, and he can give her a rejuvenation pill, but Mr. Wade knew me much earlier than Mia, but But he doesn't even want to sell me one..."

"Could it be... Could it be that in his heart, I am so much worse than Mia?"

Fei Kexin at the moment, in addition to being lost, can't help but feel a little more wronged, This kind of grievance made her feel uncomfortable, and her eyes were even a little red and wet.

The Amazing Son In Law Chapter 4890 (The Charismatic Charlie Wade Chapter 4890)

However, she didn't want charlie to see it, so she quickly adjusted and smiled along with charlie's words: "To tell you the truth, this plane was actually ordered by my grandfather from Boeing three years ago, and the prototype is Boeing. 747-8, since the interior renovation also needs Boeing to complete, the entire production cycle is extremely long, and it was only delivered in Chicago last week."

Having said this, Fei Kexin paused slightly and continued: "Originally I I didn't want to use this plane either. But my grandfather heard that I was coming to Hong Kong Island to see you, so he directly transferred the plane to New York."

charlie nodded lightly, and asked with a smile, "Old Fei How He doing, ?"

"Not bad." Fei Kexin said truthfully: "There is nothing serious about the body in a short time, and the mood is also good, so the state of the person is also better than before, and he has been talking about it recently. I'm going to learn Tai Chi with others, saying that I want to strengthen my body and try to live two more years."

charlie smiled: "It seems that the old man is in good shape."

"Yes." Fei Kexin nodded and said, "Look at it. The state of the whole person is much better than before, thanks to your help Mr. Wade."

After speaking, Fei Kexin said again: "Oh yes, Mr. Wade, my grandfather is determined to win the Huichundan auction next year. , said that we must get the last whole rejuvenation pill at all costs."

charlie smiled and asked her: "You are now the helm of the entire Fei family. From your current point of view, do you think the old man spends thousands of dollars Is it worth it for the entire Fei family to buy a rejuvenation pill for \$100 bill?"

Fei Kexin thought about it for a while, and said seriously: "If you look at it from the perspective of the head of the Fei family, it's definitely not worth it."

"Even if the Fei family has a big business, the real cash they can take out is not much. It is the value of a rejuvenation pill."

"Once the money is taken out, the entire Fei family will become a luxury jumbo plane with no money to refuel, and the turnover of many businesses will be greatly affected."

"And, for the sake of Free up enough cash in advance, I may start to reduce the family's debt from the second half of this year.

of the necessary expenses and investments with a longer income period to ensure that at least 350 billion to 400 billion US dollars are set aside in the first half of next year. Having

said that, Fei Kexin sighed softly and said again: "However, my identity is not just the head of the Fei family, I am also the granddaughter of his old man. Following him for the past few years, I can deeply understand. Realize how strong his desire to survive is. "

I'm not exaggerating, for Grandpa himself, he is even willing to give out 80% of the entire Fei family's assets in exchange for 20 years of life for himself. After all, in his opinion, the current industry of the Fei family. , most of them were made by him, even if he took away 80%, the remaining 20% would be enough for all the Fei family to spend a few lifetimes. At

this time, Fei Kexin paused for a moment and said with emotion: "So for me now, on the one hand, I can't let the Fei family suffer heavy losses, on the other hand, I can't live up to my grandfather's desire to survive, if I refuse at this time. He, then what is the difference between me and my uncle? The most embarrassing thing in this world is that the boy who slaughtered the dragon eventually turned into a dragon. This is what I keep reminding myself in my heart. charlie asked curiously: "

So how are you going to neutralize these two different positions?" Fei Kexin thought about it for a while, and said seriously, "

I think it would be irresponsible to take out 80% of the assets. It's irresponsible to myself and the entire Fei family, but if I take out 50%, I must have no hesitation, after all, to my grandfather now, the value of life is more than anything else. "

Speaking, she pointed to the luxurious floor in the plane and said to charlie: "When it's time to die, let him use this private plane costing more than 500 million US dollars to exchange even one day for himself, he will definitely Will agree without hesitation. Speaking of

this, she sighed, looked at charlie, and said very sincerely: "Mr. Wade, if you are willing to sell me a rejuvenation pill, I am willing to hand over half of the Fei family's assets and never break my promise. "

charlie smiled noncommittally, and said seriously: "People are more afraid of death the more they live, even if you really buy a rejuvenation pill for him next year and let him live for another 20 years, 20 years will eventually pass. , at that time, he will become more afraid of death than he is now, what should you do?"

Fei Kexin said very seriously: "I am not a filial piety, as long as I can do it once and have a clear conscience. Good."

charlie nodded lightly, took out a blood-scattering heart-saving pill in his hand, and said to Fei Kexin, "By the way, I have prepared a small gift for you, which I planned to give you just now. , never thought of it."
