

The Amazing Son In Law Chapter 5185 -

At this time, charlie had returned to Providence.

Claire went to class on time as usual, while he stayed alone in the hotel's presidential suite, waiting for news from Li Yalin.

Although charlie saved Li Yalin's life like a savior, he admired Li Yalin in his heart.

He admires Li Yalin's meticulous thinking and meticulousness, and can find breakthroughs from places that others can't think of.

It is his ability that has created his reputation as a Chinese detective.

And his idea of trying to use the clues of huge natural disasters to gradually locate where the dead are located is indeed very practical in charlie's view. Therefore, he believes that after Li Yalin went to Syria to see May 47, it would not take long. The clues will gradually become clear.

Li Yalin didn't let charlie down either. He made a phone call to charlie, which lifted charlie's spirit.

After getting on the phone, charlie asked him the first sentence, "Inspector Li, what's the gain?"

Li Yalin hurriedly said, "Young Master wade, we have analyzed some clues now, but what to do next, I still need you to decide."

Having said that, Li Yalin analyzed and investigated the situation together with May 47 and Abbas, and reported it to charlie in detail.

charlie didn't expect that Li Yalin would sort out so many valuable clues so quickly.

First of all, it is the location of the May 47 dead men. At present, it can be determined that the high probability is in South Asia, especially the southeastern coast of Sri Lanka, and the islands in the surrounding waters of Sri Lanka. It's very accurate. If you really want to find it in this range, it shouldn't be difficult.

Secondly, it is the Yuantai International Express Company registered in Singapore. In charlie's view, the function of this company is most likely to transport the dead for this mysterious organization; in

addition, there is a very key The clues are the six Boeing ultra-long-range aircraft registered under the name of Yuantai International Express.

Having mastered the registration numbers of these six planes, theoretically, he has mastered the transfer of the dead of this mysterious organization.

After reporting this, Li Yalin said to Charlie, "Master Wade, there are two directions for in-depth investigation. One is to find the dead man's station in the currently locked area, and then monitor the person in charge of the dead man's station, and then follow the vines all the way, to find the real core members of the mysterious organization;"

"The other is to first find out the actual controllers of Yuantai International Express and monitor them closely;"

"I personally feel that this Yuantai Express has a high probability of being like your little aunt who committed suicide by taking poison, she is the white glove of this mysterious organization in the outside world. Most likely they are all members of the outer circle of this mysterious organization, or they are another kind of dead man who is higher than the dead men of May 47. If you look up from their line, you should also be able to find clues about the organization."

Charlie thought for a moment, and said, "Inspector Li, there is no need to investigate these two directions for the time being. This organization can exist for hundreds of years, sure. Multiple firewalls have been prepared for a long time, and once there is a problem with any one of the firewalls, all connections can be disconnected immediately, leaving almost no clues."

Having said this, Charlie said again, "In contrast, what do we have now? There are no firewalls. As you said before, once there is substantial contact, the contact must be mutual. When the other party seizes a few clues, they will be able to check all the people around me. I'm not afraid of death, and I also have enough self-protection ability, but I can't ensure that everyone around me will not be in danger."

Li Yalin couldn't help but ask, "Master Wade, what should I do next? What to do? We can't just stop like this, right? Then it will be difficult to make new progress..."

Charlie smiled and said, "Inspector Li, we have another direction to go deeper."

The Amazing Son In Law Chapter 5186 -

Chapter 5186

Li Yalin asked subconsciously "What direction?"

Charlie said, "Keep an eye on the six planes under the name of Yuantai Express!"

After speaking, charlie said again, "They would never have dreamed that this express company and these six planes are all It's been exposed, and that's the biggest advantage in our hands right now."

"As long as they don't notice the exposure, these six planes will continue to serve this organization, and since the aviation information is public, every time they move planes in the future, no matter how well they cover it up, they will be useless in front of us. ;"

"What we have to do is to closely monitor the movements of these six planes. Once their planes move, it means that they are definitely moving personnel or materials,"

"So we need to record the time and time when each plane takes off and is moving." location, and then track the destination of the plane."

Li Yalin immediately said, "No problem, Young Master wade, I will closely monitor the movements of these six planes. Once they move, I will notify you as soon as possible!"

charlie smiled and said, "Monitoring Let abbas arrange for someone to do it. Inspector Li, you are responsible for commanding the rear, analyzing the collected information by the way, and sorting out valuable clues from all the information."

"Okay!" Li Yalin said without hesitation, "I I will work closely with the Hall Master Wan!"

"Okay." charlie smiled with satisfaction, "Then it's hard for Inspector Li to stay in Syria for a few more days, and let abbas prepare a bedroom and an office for you.

" The voice of Abbas came from the head, "Mr. Wade, rest assured, your subordinates have made arrangements! I have also asked the intelligence personnel to pay close attention to these aircraft. According to the latest flight records of these six aircraft, they are currently located at Singapore, the Sri Lankan capital Colombo, the Mexican border city of Monterrey, the Nigerian port city of Lagos, the Cyprus port city of Larnaca, and the Brazilian port city of Natal."

charlie frowned slightly, relying on his memory of the world map, He opened his mouth and said, "Sri Lanka is in South Asia, Mexico is in North America, Nigeria is in West Africa, Cyprus is in southern Europe, Brazil is in South America, and Singapore is the throat of Southeast Asia..."

Speaking of this, charlie added, "Except for Singapore, which is a developed country, the remaining five countries are all developing countries and third world countries. It should be that these countries have more loopholes in the overall management and control. Drilling, and these locations are scattered all over the world, either they have their death camps nearby, or they are deliberately scattered so that they can be maneuvered around the world anytime, anywhere."

Immediately afterwards, charlie asked himself and answered, "But at present, the possibility of the former is not very high. After all, when they sent May 47 to the United States, they flew from Sri Lanka to Mexico, if they have dead men near Mexico. , I shouldn't give up the near and far."

Abbas said, "Mr. Wade, I will let people keep an eye on these six planes, and if there is any movement, I will report to you as soon as possible!"

"Okay." charlie said with a smile " Keep an eye on them, and let me know as soon as there is a clear move, if I have a more convenient time and place, I can go and give them some surprises!"

Abbas exclaimed, "Mr. Actual contact?!"

charlie smiled slightly and said, "I hope Detective Li will maintain a non-contact unilateral investigation and not have any substantive contact with the other party during the investigation process. As for me, I am not going to investigate. They, I'm going to take them out."

Hearing this, May 47 said in a panic, "wade...Mr. Wade...I can assure you that almost all the dead were not willing to sacrifice their lives for them. ...and please look at their tragic fate...give them a chance to live..."

charlie said lightly, "May 47, if you encounter a dead man like you, I can give them a chance. , but only if they can be used by me."

May 47 blurted out, "Don't worry, Mr. Wade, if you are willing to give the dead man a chance to avenge the organization, I believe that any dead man will not refuse to serve You work! If you can rescue them from the shackles of hundreds of years, even if they die generously for you, they will never hesitate!"

"Okay." charlie said cheerfully, "If that's the case, then I You can give them a chance!"

As soon as he finished speaking, Abbas blurted out to charlie, "Mr. Wade, I just received news that one of the Boeing 777s took off from Larnaca Airport in Cyprus four hours later. ."

charlie blurted out and asked, "Can you see the destination they applied for?"

Abbas said, "The destination is the second largest city in Northern Europe, Bergen!"
