

The Amazing Son In Law Chapter 5209 -

Hearing Lin Wan'er (Alani)'s words, the old man hurriedly asked, "Miss, does that person know that he failed?"

Lin Wan'er (Alani) shook her head, "Of course not, otherwise, how could he let us go so easily?"

Then, Lin Wan'er (Alani) said, " He will also have some kind of very powerful hypnotic suggestion, fortunately, I successfully attracted his attention from you, otherwise if he put the hypnotic suggestion on you at that time, we would have been exposed." Hearing this, the

old man was afraid Besides, she couldn't help sighing, "It seems that no matter how superb the means are, they are of no use to you, miss."

Lin Wan'er (Alani) sighed desolately, and said sadly, "Father left me with few abilities, so this is one of them. As long as you can teach me some self-defense skills, I won't be so passive now." After

that, she waved her hand and said to the old man, "Forget it, you go and pack your things. Except for the necessary things, you don't want anything else."

"Good lady, I'm leaving!" the old man said respectfully, then turned and left the study.

After the old man left, Lin Wan'er (Alani) took out a small wooden spirit tablet from the desk drawer, on which was written the spirit tablet of her late father Parker in eight large characters.

Lin Wan'er (Alani) looked at this spiritual tablet carefully, and murmured in a low voice, "Father, my daughter is not filial. The ring you left me with your life was given to someone else by my daughter. It's not because my daughter doesn't want to protect it. It's because my ability is limited. If it wasn't for that charlie suddenly appeared, my daughter may have fallen into the hands of thieves, I don't think charlie looks like a bad guy, and he has great supernatural powers, the ring in his hands should be able to play a real role."

Lin Wan'er (Alani) said He said again, "By the way, father, charlie has the same enemy as us, and it seems that he is still in the dark. Maybe in the future, he will be able to kill our common enemy and fulfill your last wish!"

Immediately, Lin Wan'er (Alani) fell silent .

She couldn't help recalling that the ring made a sword sound in charlie's hand, and the sword sound was clear and melodious, which was fascinating.

After thinking about this, she secretly made a decision, and then put the spiritual position and the nine copper coins on the table into her backpack, and walked out of the study.

Outside the villa, the old man was packing his things.

He dragged some unnecessary things out of one of the cars, and finally sorted out two large boxes.

After Lin Wan'er (Alani) came out, the old man hurriedly stepped forward and asked, "Miss, you don't need to bring your blue and white porcelain?"

Lin Wan'er (Alani) hesitated for a moment, then sighed softly, "You should take it with you. After all, it is something from China. If you stay here, you might be able to buy it." It was ruined by those who don't understand."

She said, "Take away the blue and white porcelain that has been packed, and after returning to Huaxia, you can find a chance to donate it to the museum."

"Back to Huaxia?!" The old man was full of enthusiasm. She asked with a surprised face, "Miss, aren't you going to the Far East of Russia? We have a stable and safe industry there. Going there is easier to be found than going back to China."

Lin Wan'er (Alani) shook her head and said lightly, "I won't go to Russia anymore. I'm going to China to find Mr. Wade today, he must be very interesting." The

old man couldn't help but said, "Miss, China is so huge with a population of 1.4 billion, where are we going to find Mr. Wade you mentioned?" Lin Wan'er (Alani) said, "

Mr. Wade speaks Mandarin very well, his words are correct and round, and his pronunciation is accurate. There is almost no trace of an accent, so I speculate that there is a high probability that he is from the north, and there is a high probability that he is Eastcliff or Eastcliff. The surrounding provinces and cities, when the time comes, we will fly to Eastcliff first, and look for clues in Eastcliff."

"Okay!" The old man nodded, "Then go to Eastcliff!"

At

this time, Charlie was returning to Bergen. After returning to the airport and getting back his car, he returned to Helena's palace by the same route.

All the way, his mind has been on that strange ring.

So, he held the steering wheel in his left hand, and kept holding the ring in his right hand, rubbing it in his hand, and releasing a little spiritual energy into it, trying to figure out the real purpose of this thing.

There is a strong mutual attraction between this ring and the spiritual energy, but the strange thing is that the spiritual energy entered it without any actual transformation, which surprised charlie very much.

According to the law of energy conservation, energy is an existence that can neither appear out of thin air, nor disappear out of thin air.

It's like putting a pot of hot water outside, even if it finally cools down, the heat doesn't disappear out of thin air, but is released into nature through the air and other objects.

It's just that the heat of a basin of water seems insignificant compared to the whole nature.

But no matter how small, it is real.

However, the spiritual energy that charlie entered into the ring one after another, disappeared like a stone sinking into the sea, without any response.

charlie felt more and more strange. In his opinion, the principle of a magic weapon is the same as that of an electrical appliance, but the magic weapon needs to be driven by spiritual energy, while the electrical appliance needs to be driven by electricity.

Send electricity to the water heater, it will be converted into heat energy; send electricity to the motor, it will be converted into kinetic energy; send electricity to light bulbs, it will be converted into light energy, and send electricity to electrolysis equipment, it will be converted into chemical energy .

It's as if the aura is transferred to the Shocking Thunder Order, which can be transformed into lightning from the sky, and the aura is transferred to the Soul Piercing Blade, which can be transformed into an indestructible sharp blade. humming.

A ring that makes a sound similar to the sound of a sword is also very strange in itself.

This phenomenon is as weird as if the electric fan is powered on, the blades of the electric fan do not rotate, nor does it generate any wind, but it makes a blowing sound out of thin air, which cannot be explained.

While Charlie wondered, like a red-eyed gambler who kept throwing chips at the gaming table, he kept throwing money at the ring. Convey spiritual energy within.

Until half of the spiritual energy in the body was drained, Charlie still couldn't get any feedback other than Om's reputation.

He was a little pissed.

Before reaching the destination, he simply took out a Pei Yuan Dan, pinched it together with the ring on his fingertips, and then gritted his teeth, forcibly transporting almost 90% of the spiritual energy in the body into the ring.

He felt that he had input most of the spiritual energy into it, and this ghost had to give him a little bit of different feedback.

But what he didn't expect was that the ring was still like a black hole of spiritual energy. After swallowing so much of his spiritual energy, there was still no change.

Charlie was helpless. In order to make up for the lack of spiritual energy in his body, he could only throw a Peiyuan Dan into his mouth. When the surging spiritual energy quickly spread, he crossed nearly half of the spiritual energy into the ring again, but the result was still extremely disappointing to him.

At a certain moment, Charlie couldn't wait to quickly take out another Peiyuan Dan and fight with the ring to the end.

But reason finally triumphed over his impulses.

Peiyuan Dan is very precious, and there is no need to put all your own Peiyuan Dan in one after another for such a pitiful ring.

In this situation, it is the most sensible choice to stop loss in time.

So, he could only put the ring back in his pocket angrily.

Although he couldn't figure out the magic of this ring, he subconsciously told himself that it was definitely not simple.

You know, this is something that even the mysterious hero can't wait to get, and even that kind of high-level people are thinking about getting this thing, which proves that this thing must have some kind of value that I don't know yet!

Therefore, this ring must be kept well, and it may be of great use in the future.

What's more, this thing has swallowed more than one Yuan Pei Yuan Dan's spiritual energy. With such a large investment, he must find an opportunity to let it spit out even the profit!

The Amazing Son In Law Chapter 5211 -

Putting away the ring, Charlie continued to drive forward.

And he also silently recounted what happened today in his heart.

There was nothing special about the eight Xiao cavalry guards, but the girl named Lin Wan'er (Alani) always gave Charlie a vague sense of mystery.

Although he used psychological hints to Lin Wan'er (Alani), and there were no loopholes in what Lin Wan'er (Alani) said, Charlie still faintly felt that something was wrong.

However, after much deliberation, he couldn't figure out what was wrong.

At this time, a picture suddenly flashed in his mind.

That was the desk in front of Lin Wan'er (Alani) at that time.

On that desk, there were nine copper coins.

And those nine copper coins seem to be a complicated divination.

Thinking of this, Charlie suddenly thought of the content about gossip and divination in the Book of Changes in "Nine Xuantian Jing".

Among them, in Liuyao Bagua, there is a method of using three copper coins for divination and fortune-telling.

Therefore, Charlie could understand three copper coins, but he couldn't figure out nine coins.

After all, this is not even recorded in the "Nine Profound Heavenly Scriptures".

Thinking of this, he couldn't help but took out his mobile phone and called Orion Exeor, a Feng Shui master who was far away in the United States.

Orion Exeor was one of the people Charlie knew who had the strongest gossip in the Book of Changes, so Charlie planned to ask him about the divination method with nine copper coins.

Soon, the phone got through.

Due to the jet lag, Orion Exeor, who was in Los Angeles, had just finished dinner at this time.

When he received charlie's call, he said excitedly and respectfully, "Master wade!"

charlie said politely, "Mr .Exeor, if I bother you, there is something I would like to ask you about."

Orion Exeor hurriedly said, "Master wade, I don't dare to ask for advice. If you have any questions, just ask me anytime!" Nine copper coins for divination?"

"Nine copper coins?" Orion Exeor exclaimed, "If it is the method of six lines and eight trigrams, even three copper coins contain a lot of information. If you want to quickly and accurately see the divination, you need He has a strong memory and talent for mental arithmetic. If nine copper coins are used, then every three copper coins form a group, which is three groups of hexagrams, and each of the three groups of hexagrams forms a whole, which can form a deeper and more detailed pattern. The hexagrams..."

"So, if you use nine copper coins, you have to divide the hexagrams into four groups to calculate the hexagrams. This kind of calculation is equivalent to increasing the difficulty of guessing the 2-digit password to 12 digits. This technique It belongs to the top level in the I Ching gossip, and there is a nickname called "Jin Shen Gua", that is, those who can calculate this kind of hexagrams, and their comprehension of the I Ching gossip has already been called superb."

Speaking of this, Orion Exeor again He sighed, "However, the Near God Hexagram has been lost until today. I only heard it from my grandfather when I was very young, but I have never seen anyone who can really do it."

charlie wondered, "But I see people use it." Nine copper coins formed a hexagram, and the hexagram didn't look like it was thrown away at will, could it be that person really has such a skill?"

"This..." Orion Exeor said, "I haven't seen the hexagram you mentioned. , so I can't confirm whether that person is really capable, but judging from my experience, it is really unlikely, and the probability of coincidence is higher."

charlie felt even more strange when he heard this.

That Lin Wan'er (Alani), the ring that Lin Wan'er (Alani) gave, and the hexagram that Lin Wan'er (Alani) posed all seemed a little out of place.

But if according to Orion Exeor's words, as a girl, it should be impossible for her to grasp the content of the "Jiu Xuan Tian Jing", which is not even recorded in the "Jiu Xuan Tian Jing".

Thinking of this, he couldn't help thinking to himself, "I don't know where Lin Wan'er (Alani) and her parents and grandfather came from? If there is a chance to see her again in the future, I must find a way to find out!"

As soon as he thought about it, he said to Orion Exeor, "Thank you, Mr .Exeor, I'll think about it myself."

When

charlie arrived at the palace, the sky was gradually brightening.

Bergen Airport, also started its own busy day.

Whether it is passenger or cargo, all work is going on in an orderly manner, and no one realizes that eight of their colleagues died here at this airport.

The eight stevedores were originally on night shifts, and they worked one day off and one day off. They worked from yesterday until the early hours of this morning, and they would rest until tomorrow afternoon to come back to work, so I won't see these eight people here, and no one will wake up. suspicion.

As for the family members of these eight people, these eight people had already greeted them when they were alive, claiming that they had some life and death to pick up and would go home later, so the family members did not notice any abnormality.

At this moment, on a farm on the southern outskirts of Bergen, many corpses lay in the house and have long since died.

There was a sign hanging outside the farm gate with a line in English on it. The real estate transaction is here.

There will not be many people passing by this kind of place. Once someone passes by and sees this sign, they will no longer have any interest in this farm.

If the mysterious organization no longer sends people to find out, then it will be possible to wait for exposure here, at least until the corpses are severely decomposed and the smell extends for hundreds of meters.

But it will take at least five to seven days.

So, this will buy Lin Wan'er (Alani) enough time to escape from northern Europe.

The seven cavalry guards, after the starry night, also rushed to the highest mountain in Osu City after sunrise.

It's a bit embarrassing to say that the highest peak in Osu City is not even 500 meters above sea level.

Abbas successfully collected these people and temporarily hid them in Osu City, waiting for charlie's next instructions.

As for charlie.

After he returned to the palace, he was extremely depressed.

After all, he put a Peiyuan Pill in for that ring, and it can't be said that he didn't even hear a ring, it can only be said that he only heard a few rings.

Although charlie is not a stingy person, but the Peiyuan Pill is really precious, so it is such a waste, the more I think about it, the more it hurts.

In order to wait for charlie to come back, Helena stayed up all night.

She couldn't help but think of the conversation with grandma all the time in her mind, and her mind was very confused.

She knew that for her current situation, the best outcome was to conceive charlie's child as soon as possible.

However, she also knew that charlie was not only married, but also had countless suitors around him, charlie didn't have any feelings for her at all.

In this situation, how can charlie be willing to have something happen with him?

Therefore, every time she thought of this, Helena wanted to give up this unrealistic idea several times.

However, when she thought about the current situation of herself and the entire Nordic royal family, she really couldn't think of a better solution..

Moreover, Helena knew very well that her grandma hadn't been honest with her before. Grandma kept saying that if she had no heirs, she might borrow a king or queen from other European royal families in the future.

But Helena knew in her heart that once she really had no heirs, after her death, the Nordic government and the Nordic people would definitely invite her cousin Olivia back to inherit the throne.

If Olivia has children, there is a high probability that her children will become kings or queens of Northern Europe in the future.

In that way, the throne returned to Olivia and her descendants.

This is absolutely what Helena would rather die than see.

With the help of charlie, she finally got the queen's seat from Olivia. If the throne is to be taken back by Olivia's descendants after her death, she would rather let the entire Nordic royal family completely withdraw from history. stage.

The chaotic thoughts and the tangled reality made Helena exhausted physically and mentally.

She even had some regrets, regretted coming back from Huaxia, regretted taking the throne of the queen.

If he had chosen to stay in Huaxia, he might have been closer to charlie, and he would not have to worry about the royal family.

When she is not the queen, she actually has an inextricable relationship with charlie. Helena has long realized that it is not the queen's seat that she is attached to. What she is really attached to is charlie standing in front of her The feeling of the sword making way for itself.

Just then, Helena heard the sound of an engine from far and near.

She quickly got up and went to the window, and when she saw the car driven by charlie driving back to the palace, she rushed out the door and walked downstairs quickly.

When she arrived downstairs, charlie just stopped the car.

Seeing charlie getting out of the car, Helena hurried forward and said respectfully, "Mr. Wade, why did you go out for so long... I've always been very worried..."

charlie smiled slightly and said, "The matter was a little more complicated than I imagined, but fortunately, it was resolved smoothly."

Helena breathed a sigh of relief, and quickly asked, "Mr. Wade, you haven't eaten for so long, must you be hungry? I'll ask the chef to prepare breakfast for you!"

charlie shook his head with a tired face, and said casually, "I don't have an appetite to eat, so please arrange a room for me and let me catch up on sleep first!"
