

The Amazing Son In Law Chapter 5233 -

hunter (Hamid)'s gratitude to charlie has long been like a torrent of river water, and it is like a flood of the Yellow River and it is out of control.

If it weren't for charlie, he would have been taken away by Wanlongdian and the government army.

Not to mention that charlie also cured his leg that had been lame for decades, and gave him a lot of funds to strengthen his defense.

Now, with Wanlongdian mediating in the middle, it gave him a good opportunity for peaceful development.

But what he didn't expect was that even so, charlie still treated him without asking for anything, and was still very generous.

With the current specifications of Wanlongdian's underground fortifications, even if it is displayed on a small scale in its own base, it is difficult to implement without a cost of hundreds of millions of dollars.

For hunter (Hamid), this is something that he can't even think about.

And charlie agreed to help him build it for free without even thinking about it. This generosity moved hunter (Hamid) even more.

So, he held charlie's hand, and said firmly, "brother wade, Allah is above, in the Middle East, if you need me to do anything, just say a word, I will risk my life. I must go all out!"

charlie nodded and smiled, and said, "With your words, my brother, our efforts are worth it."

For charlie, hunter (Hamid) is a friend, but also a comrade-in-arms.

As long as hunter (Hamid) can firmly stand friendly with himself, he can continue to maintain the tripartite balance in Syria, which will be of great benefit to the stable development of the Dragon Palace.

Therefore, in order to prevent hunter (Hamid) from stretching his hips too much in this three-party balanced situation, he needs to be given the assistance he needs, and the assistance he does not even dare to think about must be given.

Therefore, he said to Abbas, "Abbas, after the completion of the first phase of our project, we will first design an upgrade plan for Commander Harbin's base, and then start the first phase of the project at Commander Harbin's base. All costs will be borne by Wanlongdian."

Abbas said without thinking, "Okay Mr. Wade, my subordinates understand."

charlie nodded slightly, and said to hunter (Hamid), "Brother, I can't stay here for too long this time, and I will go back in a few hours. There are still many things to deal with here, so I won't talk to you about the past, wait for me Next time we come over, let's find time to meet again."

hunter (Hamid) said with some reluctance, "brother wade, you come all the way and stay for a few hours? Anyway, leave a day and go to my brother's place for a walk. Look, inspect and inspect the work, our place has changed a lot now, thanks to you!"

charlie smiled and said, "I will definitely visit next time, and I really can't spare extra time this time."

Seeing this, hunter (Hamid) , then nodded and said, "Okay, since you are in a hurry, then I won't waste your time. You should be busy first, and we will get together next time."

Then, he pointed to his work clothes and said, "I'll go Change your clothes and go back first."

"Okay." charlie nodded, shook hands with him again, and said, "Then I won't see you off!"

hunter (Hamid) said very simply, "Okay, okay Yes, bro, go get busy and leave me alone." The

two waved goodbye, and charlie and Abbas walked into the main building in the core area of the base.

Walking into the building, charlie said to Abbas, "Abbas, arrange a conference room with the highest level of confidentiality, and call Inspector Li, Wusiqi, and the seven Xiaoqiguards you brought back. Bring them here together."

"Okay Mr. Wade!" Abbas immediately took charlie to a windowless conference room, and then asked Li Yalin and Wu Siqi to be invited over first.

Li Yalin did not expect charlie to come to Syria, and asked in surprise, "Master wade, why did you come here in person?"

charlie smiled slightly and said, "Inspector Li, I just came from Northern Europe, and I got a few people from a mysterious organization." Members come over, this time there are more people, and they are not dead men, they are one level higher than dead men."

"Not dead men?" Li Yalin asked in surprise, "What level is that? What are you responsible for in the organization?"

charlie explained, "Their internal name is Xiaoqiwei, and they are responsible for guarding the dead." After hearing this, Wu Siqi, who was

sitting in a wheelchair, said in surprise, "Xiaoqiguard? Is it the Xiaoqiguard who is in charge of guarding us?"

charlie shook his head and said, "According to Inspector Li's analysis, your station should be near Sri Lanka, but these knight guards are stationed in Cyprus, thousands of kilometers away, and the Persian Gulf and the entire Middle East are separated in between."

"Cyprus ?!" After hearing this, Li Yalin exclaimed, "Master wade, Cyprus is just to the west of Syria, and the closest coastline to Syria is less than 200 kilometers away."

"Yes." charlie nodded and said, "Theirs The resident is a copper mine located in the coastal area of Cyprus. It is said that there is also a copper smelter in Turkey. The ore produced by the copper mine is basically exported to the copper smelter in Turkey. A closed loop is formed inside, and the outside world is even more It's hard to get a glimpse of the secrets." Abbas said excitedly, "Mr. Wade, since

we are so close, why not make a plan, and all the members of the Wanlong Palace will mobilize and wipe out their station!"

The Amazing Son In Law Chapter 5234 -

After Lingshan was spared by charlie's extrajudicial grace, and was able to preserve his parents' bones, and even his own cultivation was a blessing in disguise, Abbas couldn't wait to make contributions to charlie.

As a person, he didn't have too many twists and turns in his stomach.

If you owe someone, you will think about giving it back.

If you owe someone a favor, you will also think about repaying it.

Originally, he thought that charlie would be lenient to himself and incorporated the entire Ten Thousand Dragon Palace, so he would squeeze the value of the Ten Thousand Dragon Palace as much as possible, and even make the entire Ten Thousand Dragon Palace have to work for it.

However, he never dreamed that after charlie incorporated Wanlongdian, not only did the members of Wanlongdian seldom take risks for him, but he even continued to send various resources and help to Wanlongdian.

Moreover, its handwriting is only big, completely beyond Abbas's imagination.

Among other things, the base in front of him is Abbas's biggest dream for many years.

However, although he has been in a war-torn country for many years, he has never found a chance to get the local officials to allow Wanlongdian to station in its territory.

But Charlie did it easily.

In addition, Charlie also helped Wanlongdian to open up armed escort and armed security, two clean businesses with high returns, low risks and completely legal.

Not only that, Charlie also continued to provide financial support to Wanlongdian. With the current scale alone, in the next ten or twenty years, Wanlongdian would not be able to run out of flowers.

Therefore, during this period of time, Abbas's desire to contribute to Charlie has become even more urgent.

He originally thought that the kindness he and Wanlongdian owed Charlie was immeasurable, but who would have thought that Charlie in Mexico poured everyone a cup of celebration wine, which actually improved everyone's cultivation base!

Ever since he came back from Mexico, Abbas really dreamed of charging into the battle for Charlie and killing the enemy before the battle.

So, after hearing from Charlie that he had mastered the exact address of a mysterious organization's residence, he couldn't wait to unplug this residence for Charlie!

But Charlie waved his hand at this time, and said seriously, "A copper mine with hundreds of cavalry guards is probably very strong in its own defense, not to mention the intricate underground fortifications. If you go in rashly, you will definitely be caught by the other party. In this case, it is almost impossible for us to wipe out the opponent without revealing any clues, and there are thousands of dead men and relatives of thousands of dead men inside. , is also a big hidden danger."

Wu Siqi on the side also nodded and said, "Mr. Wade is right, the dead man and his family members have to take the organization's antidote regularly, so even if they hate it for generations The organization is deep into the bones, but once the organization encounters trouble, they will still subconsciously go up and do their best;"

Said, Wu Siqi said again, "For the dead, the organization will give us the antidote only if we work hard for the organization, otherwise once the organization If we find out that we are not loyal enough, we will kill them first

Our relatives, let us see our relatives killed with our own eyes, and then publicly execute us as a punishment; Death is inevitable, and relatives are also inevitable. Only by

fighting for your life will you have a chance to survive. Even if you die, your family will be treated kindly. “

“So, if Lord Wandian intends to attack this garrison, these dead soldiers will definitely resist desperately at the first moment. Hearing this ,

Abbas realized how impulsive he was just now.

Embarrassed, he said to charlie very apologetically, “I’m sorry, Mr. Wade, but my subordinates were careless and generous. Please forgive me!” “

charlie said lightly, “Those who don’t know are not guilty. You were not there when 547 told me this, so it’s understandable that you don’t know the actual situation of these dead men. “

As he said, he said again, “Bring the seven Xiaoqi guards here, and let them give us a good introduction to the situation of the station. “

” The subordinates obey! “

Soon, seven Xiao cavalry guards were brought in.

These seven people have been very anxious since the journey, because they know that the poison in their bodies will take place in six days. The seven of them would die if they received the antidote.

However, charlie promised to detoxify them from the poison in their bodies, but before they saw charlie again, Abbas took them to Syria, so they felt even more uneasy.

Until the moment they walked into this conference room and saw charlie, the seven people finally seemed to see a savior.

Therefore, after seeing charlie, the leader said excitedly, “Mr. At this! “

charlie nodded slightly, pointed to a row of empty seats in front of him, and said with a smile, “Sit down first, I need to get to know you better in some situations. “

” No problem! “The man quickly agreed, but his expression was still a little uneasy.

He was afraid that charlie didn’t intend to detoxify them at all, but first squeezed out all the information they knew in the past few days, and then left them to fend for themselves.

charlie could also see the worry and apprehension in their expressions, so he smiled slightly, went up and patted their shoulders one by one, and then said, “Are you worried that I won’t detoxify you as promised?”

Seven people They looked at each other, but no one dared to answer.

The leader mustered up his courage and nodded, and only then did the others dare to follow him and nod lightly.

charlie smiled playfully, and said, "It's normal to be worried, but don't worry now, the poison in your body has been cured!"
