

The Amazing Son In Law Chapter 5249 -

As the old man was given psychological hints by Charlie, Charlie went straight to the point and asked, "What is your surname, and what is your status in the organization?" Special envoy."

"The Governor's Mansion of the Right Army?" Charlie frowned, and asked him, "What kind of institution is this Governor's Mansion of the Right Army?"

Duan Liye replied respectfully, "The British Lord followed the system of the Ming Dynasty and established the Governor's Mansion of the Five Armies. They are the Central Military Governor's Mansion, the Left Military Governor's Mansion, the Right Military Governor's Mansion, the Former Military Governor's Mansion and the Rear Military Governor's Mansion. After hundreds of years of development, each of the current military governor's mansions is responsible for the specific affairs organized in a continent. According to the traditional Chinese habit of sitting north to south, Asia is the center, Europe is on the right, America is on the left, Oceania is on the front, and Africa is also on the left, but because the strategic significance is not very important, it is listed as the last."

Charlie. He was shocked when he heard this, he had expected that this mysterious organization would be a powerful behemoth, but after listening to Duan Liye's introduction, he realized that the power of this organization has truly covered the whole world.

Covering the whole world is a capability that is currently not available to all the top chaebols.

The Rothschild family has been cultivating for so many years, but they have only solidified their foundation in Europe and North America. As for the other continents, they have at most penetrated some capital, and it is difficult to expand their real influence to other continents.

As for the Saudi royal family, let alone, their power is basically concentrated in the Middle East, and they can't even affect East Asia.

Anjia, which ranks third, has a relatively smaller sphere of influence, almost all of which are concentrated in the United States.

Thinking of this, he looked at Duan Liye and asked the question that had been in his mind for a long time, "What is the name of your organization?"

Duan Liye said, "The organization is called the Poqing Society."

"The Poqing Society?" Chen couldn't help frowning, "Is it similar to what Heaven and Earth will say in martial arts?"

“Yes.” Duan Liye nodded and said, “But the history of the Poqing Society is more than ten years earlier than the Tiandihui. The Poqinghui was established in 1644 when the Qing army entered the customs. The real Tiandihui was around 1660. It was established by the general Chen Yonghua of the Ming Dynasty under the instruction of Zheng Chenggong, and this Chen Yonghua was the prototype character of Chen Jinnan in the later martial arts.”

charlie asked curiously, “Since the Qing Dynasty was broken earlier than the Tiandihui, why did I never have you ever heard of this name?”

Duan Liye explained, “That’s because the Qing Dynasty was just an inconspicuous non-governmental organization in the first 20 years of its establishment, and the Qing army was powerful back then. The Qinghui did not develop and grow, but was on the verge of collapse several times. After the Southern Ming Dynasty was destroyed by the Qing Dynasty, the members of the Poqinghui fled all the way to Southeast Asia to develop secretly. It took four hundred years of development to achieve its current scale. Ever since I went to Nanyang, I have never raised the banner of anti-Qing and restoring the Ming Dynasty.” As he

said, Duan Liye said, “It is said that even the previous British Lords felt that the name of the Qing Dynasty was not worthy of the name, so even the previous British Lords The Lord himself seldom mentions this name, and only some relatively core personnel know about this period of history in today’s Poqinghui.”

From May 47, charlie knew that this organization had at least two or three hundred years Now that he knows that this organization has been established for more than 400 years, he is not very surprised, so he asked, “Is the governor’s office of your right army located in Turkey?”

The Amazing Son In Law Chapter 5250 -

“No.” Duan Liye shook his head and said, “For To be on the safe side, the Governor’s Mansion of the Right Army is rotated in various European countries, and the country is changed every three years, and now the Governor’s Mansion has been rotated to Italy.”

charlie asked again, “Do you know where it is in Italy?”

” I don’t know.” Duan Liye shook his head and said, “Although I am the special envoy of the Governor’s Office of the Right Army in Turkey, since I left the Huben Camp, I have been on standby in Turkey for so many years.”

charlie asked him, “What is the Huben Camp? “

Duan Liye explained, “The Huben Camp is a place within the organization that specializes in cultivating high-level warriors. Only warriors who have opened up all eight meridians have the opportunity to enter the Huben Camp for further studies.”

charlie nodded, and said lightly, "Give me an in-depth introduction to this Huben camp."

Duan Liye said, "The Huben camp rates each person based on their strength and aptitude. There are four levels in total. If you can stay in Huben Camp for ten years at D level, you will have to leave Huben Camp after ten years to accept other appointments. If you can reach C level, you can stay in Huben camp for 20 years. If I stay for 30 years, if I can reach Grade A, I can stay for 40 years or even longer. At that time, I was designated as Grade A or C, and I stayed in Huben camp for a full 20 years."

charlie asked, "Join Huben? What are the benefits to you?"

Duan Liye explained, "There are many benefits to joining the Huben Camp. The first is to join the Huben Camp. Even if you are a relatively core member of the organization, your status is considered to be above average. There are Huajing masters as the instructors to teach in person, you can get the complete martial arts skills, and the medicinal materials that can improve your cultivation and strengthen your body."

"Although some people have opened up all eight meridians, they will never reach the Mingjing Dzogchen in their entire life. There is no chance to step into the dark realm, but as long as you join the Huben camp, even if you are only rated as a C-level, you can still achieve a breakthrough within ten years and become a master of the dark realm. I have stayed in the Huben camp for 20 years. , Breaking through from an eight-star warrior all the way to the third level of darkness, this is something I couldn't imagine before, the reason why a warrior like me is willing to join the organization is because of this opportunity."

charlie didn't expect that this There are even experts in the realm of transformation within the organization, and he still doesn't know how strong the masters of transformation are.

Surprised, he asked Duan Liye again, "Listen to you, did you join the Poqing Society halfway through?"

"Talent is extraordinary, more than 30 years ago, my master offended a master of the Po Qing Society, the other party killed my master and Xingshi to question him, beheaded my master and all the brothers, and because of my better talent, I also I gave up resisting at the first time, so I was appreciated by the other party, so the other party recruited me into the Po Qinghui;"

charlie asked again, "Then what is the poison in your body?"

Duan Liye said, "Anyone who wants to join the Qing Dynasty must take the poison voluntarily. When I first joined, I took the same poison as the dead men and the knight guards. I had to take the antidote once a week. After twenty years, when I left Huben Camp, the organization gave me a new poison, which is more toxic, but the attack time is also extended to once every six months, which is relatively more free."

charlie points Nodding his head, he asked, "As you said, Huben Camp is a training base for advanced warriors."

Duan Liye said, "Yes, that's right."

charlie asked coldly, "Where is Camp Huben?"

The Amazing Son In Law Chapter 5251 -

Hearing charlie's question, Duan Liye shook his head and said, "I don't know where the Huben Camp is. When I went to the Huben Camp, I was taken there in a coma, and I was taken in a coma when I left." Come out, moreover, the resident of the Huben camp is no different from the garrison of the dead. They are all underground buildings, and they can even be called an underground city. And we students of the Huben camp all live at the bottom of this underground city. I have been in camp for twenty years, and I have never seen the sun or the moon."

charlie asked in a little horror, "I can understand that the dead have no choice for twenty years without seeing the sun. It was found that there was a dark life there, wouldn't it be possible to resist or run away?"

"Why?" Duan Liye blurted out without thinking, "The 20 years in the Huben Camp, every minute and every second is almost a flick of a finger. During the twenty years there, I broke through from an eight-star warrior to the Great Perfection of the Bright Realm, and then from the Great Perfection of the Bright Realm to the First Heaven of the Dark Realm, followed by the Second Heaven and the Third Heaven. Fifteen years, the twenty years in Huben Camp are the most fulfilling twenty years of life!"

charlie never expected that Duan Liye looked only in his early sixties, but he was actually eighty-five years old.

However, Duan Liye is a master of the dark realm after all, and the natural lifespan of masters of the dark realm is more than 120 to 30 years old, so it is reasonable for him to look younger than his actual age.

At this time, Duan Liye mentioned the Huben Camp, and said with regret on his face, "I am still regretting that my cultivation speed in the Huben Camp did not meet the promotion standard of the Huben Camp. In a few years, if I can break through to the fourth level of darkness, then I can stay for another ten years, or even longer..."

charlie suddenly realized at this time.

Not everyone is as lucky as they are, able to quickly master the aura, and directly gain a stronger strength that surpasses warriors.

And the vast majority of warriors, in order to achieve the improvement of their cultivation base, have been practicing non-stop for decades.

For such people, the excellent training opportunity of Huben Camp is tailor-made for them. Not only can it provide them with various resources, but more importantly, it can allow them to practice without distraction for decades. Not even disturbed by day and night.

For those martial idiots whose minds are mostly on cultivation, to have such an opportunity, not only will they not hate and repel them, but it will not be exchanged for a thousand dollars.

Thinking of this, Charlie suddenly remembered Li Yalin's method of using earthquakes to locate the May 47 garrison, so he asked Duan Liye, "Have you experienced an earthquake or tsunami during the 20 years you were in Huben Camp?"

"Earthquake? Tsunami?" Duan Liye shook his head, "I have no impression... In Huben Camp, we spent most of our time practicing and paid little attention to the things around us, so we didn't have any relevant memories."

Hearing this, Charlie couldn't help but be somewhat disappointed.

He naturally knew that Duan Liye had been psychologically hinted by him, and there was absolutely no way he could hide anything.

But Duan Liye has no impression of the earthquake and tsunami. It may be that his place has never experienced an earthquake or tsunami, but it may also be that he has experienced it but he does not remember it.

After all, he is different from May Four Seven.
