

## The Amazing Son In Law Chapter 5277 -

Hearing charlie say the word “hands-on”, Ma Chenfei ( Ula ) was startled. One thought in his mind was “do it? What do you do? Mr. Special Envoy, don’t you want twenty of us to do more than two hundred of

them? This is obviously an impossible task!”

Xiao Qiwei ( Bertrand ), who was also holding a towel in his hand, was also at a loss. He didn’t know what charlie meant by “hands off”.

But at this moment, the knight guards around him suddenly moved!

Li Nianzong, the leader of the left banner, and another banner leader challenged Ma Chenfei ( Ula ) in an instant. Before Ma Chenfei ( Ula ) could react, both arms were tightly grasped by the two.

He was startled, and blurted out, “What do you two want to do?! In front of the special envoy, do you still want to rebel?!”

Li Nianzong said coldly, “Ma Chenfei ( Ula ), do you really think that today is the zodiac for your prosperity ? Is it auspicious day?”

Ma Chenfei ( Ula ) was controlled by the two, and he couldn’t break free at all, and those Xiaoqi guards ( Bickford guards ) who followed him and held towels in their left hands were subdued by other people around them in an instant.

After all, the gap in numbers between the two sides was too great, and Ma Chenfei ( Ula ) and his men had no room to resist at all.

Seeing that his entire army was wiped out in an instant, Ma Chenfei ( Ula ) didn’t realize that something was wrong with the special envoy. He thought it was because these cavalry guards thought that the poison in their bodies had been cured, and they planned to rebel directly under the leadership of Li Nianzong.

So, he looked at charlie with a face full of fear, and blurted out, “Master Special Envoy, tell them the truth! Tell them, what they are taking is not an antidote at all! They dare to betray the organization, and sooner or later they will be cleared by the organization.”  
Yes! Tell them quickly!”

charlie smiled slightly, and said calmly, “Ma Chenfei ( Ula ), in fact, I am not a special envoy at all. The medicine I gave you is the antidote that can completely remove the poison in your body, and I Originally, I really planned to give you all a chance to fight for freedom, but I didn’t expect that you would choose to betray your ancestors and your comrades in arms! Since you chose this path, the consequences will also be yours. take responsibility!”

Hearing charlie's words, Ma Chenfei ( Ula ) was struck by lightning. He subconsciously blurted out, "You...you are not a special envoy?! Then you... who are you?! Why did you come here pretending to be a special envoy? !"

charlie looked at him, then looked at the more than two hundred guards below, and said with a smile, "Let me introduce myself, my name is charlie. From today on, I will temporarily become the supreme commander here. I would like to fight against the Poqing Society to the end with the Bickford who compromised with the Poqing Society!"

Everyone in the audience was extremely excited, and they all raised their arms and shouted "Fight to the end! Fight to the end!"

charlie nodded, and stretched out his hand to signal everyone to temporarily Quiet, then raised his right hand and snapped his fingers.

At this time, Abbas walked up with the seven cavalry guards who had surrendered to charlie in Northern Europe.

When the Bickford in the audience saw these seven people, they couldn't help exclaiming!

They thought that all the 8 people who were sent out to perform the mission last time had all died, but they didn't expect that 7 people survived.

Therefore, when they met suddenly, they were naturally shocked beyond words.

charlie pointed at the seven people, and said in a loud voice, "These seven people used to be your comrades, and they decided to pledge their allegiance to me in Northern Europe some time ago, and now I bring them back to let them return to the Bickford , and go to fight with them." You fight side by side together!"

The seven people were also extremely excited at this time.

Being able to come back is something that was unimaginable before.

What's more, right now charlie has completely controlled the situation here.

Not only will they be able to return, they will even be able to reunite with their loved ones here!

This is definitely the best result for them.

At this time, charlie said again, "I announce that from today onwards, all the cavalry guards will be reorganized. Li Nianzong will be the commander of the cavalry guards.

The commander of the right banner will remain unchanged. The commander of the left banner and the commander of the middle banner will be nominated by Li Nianzong. Then you will vote among the five to choose the one with the highest number of votes!”

“In addition, Bickford will form a cabinet starting today. The maximum number of cabinet members is eleven. Except for the commander, the left, middle, and right flag leaders, there are seven other people, and all members will vote by secret ballot. It is recommended that all the internal affairs of the Xiaoqiguards ( Bickford guards ) will be formulated by the cabinet in principle in the future, and proposals that can get at least six votes from the eleven members can be implemented within the Xiaoqiguards ( Bickford guards )!” Everyone did not expect that charlie actually wanted to let their internal

affairs Self-government, my heart is naturally excited.

And charlie pointed at Abbas, and said lightly, “This is Abbas, the master of Wanlong Palace. He will take charge of the affairs here on my behalf in the future. Although I fully respect your internal autonomy, according to my agreement with Li Nianzong, Before the Poqing Society is eradicated, you must obey my command and fight against the Poqing Society with me, so all the internal rules you make must be reported to Abbas for instructions, and Abbas also has a veto vote But don’t worry, as long as it doesn’t affect our cooperation and position, Abbas will not abuse the veto power.” Naturally,

everyone has no opinion on this, after all, they are now charlie’s subordinates, and the military discipline is strict , The military order is like a mountain, and any affairs of the subordinates are strictly enforced. In other words, they must be approved by their superiors, not to mention that charlie has given them considerable autonomy, which has fully demonstrated respect for them.

Immediately, charlie continued, “Right now, the first thing that needs to be decided internally by you is how to deal with these traitors.” Immediately, someone

shouted “Kill them traitors!”

Immediately someone echoed, “Yes! Kill them!”

Soon, many people excitedly shouted slogans, wanting to kill all these traitors.

charlie said very seriously, “This matter is not suitable for making a decision when the crowd is excited. I will give you three days to form a cabinet first, and then I will give you three days to discuss how to deal with these people. I hope you can calm down.” Come down, discuss and decide how to punish these people, if your decision is to execute them, or some of them, I will respect your opinions.” In charlie’s view,

if If we don’t stop these enthusiastic cavalry guards, I’m afraid none of the twenty people will survive.

However, if they were really asked to kill all these twenty people, charlie felt that it was somewhat overkill.

Therefore, let them calm down and discuss this issue carefully. At that time, I will not interfere with their judgment. If they finally decide to execute all these people, then I will respect their opinions.

After hearing charlie's words, Li Nianzong said respectfully, "Don't worry, Mr. Wade, the subordinate understands!"

Others also said loudly

, "The subordinate understands !" Detain them and keep them under strict supervision, take me to the bottom of the copper mine, and meet the dead here!"
