

The Amazing Son In Law Chapter 5279 -

The mining location of this copper mine is about 500 meters deep underground.

charlie asked Li Nianzong and the Jiedushi controlled by him to take the crowd together to take the lifting cage to the station of the dead.

All the way down, Li Nianzong introduced the specific situation of this copper mine to charlie.

After decades of continuous development, the interior of this copper mine has become extremely intricate.

It consists of three parts. The first is the normal mining part of the copper mine, including the roadway and the mining face; the second is the living part of the dead and their relatives; the third is all materials section with device storage.

Going down from the wellhead to the bottom is actually just down to the working face of the copper mine.

After going down, it can be seen that this is a very standard medium-sized copper mine, all the facilities and equipment are required for production, and there is no abnormality at all.

Under the leadership of Li Nianzong, charlie walked out of the cage, looked at the deep mine tunnel, and asked curiously, "Where do the dead men and their relatives usually live?"

Li Nianzong hurriedly said, "Mr. This plane is all the working face of the copper mine, the area where the dead men live, you have to enter from a secret tunnel in front, and take another lifting cage to go down another 100 meters." charlie nodded and asked him "Why

? No one is working here now?"

Li Nianzong hurriedly said, "Because today is the time to take the medicine, the dead should be driven away from the living area 600 meters back in advance as required, and let them wait there for the antidote to arrive and take the medicine together. "

Speaking, Li Nianzong said again, "Under normal circumstances, only the deceased working in the copper mine and their family members are eligible to come to this floor as miners. Others have always stayed in the lower floor. Only when you choose to go out on a mission, will you have the opportunity to come out."

charlie asked again, "How do you usually manage these dead men who are miners?"

Li Nianzong said, "There are three teams of miners. Each team has about 100 people. They work in three shifts. The specific management method is the same as the prison management in the United States. Every class will have Xiaoqi who is in charge of this class." The guards will count the number of people in advance,

and then bring them up to work in person. The guards above will also count the number of people on duty under their management on time. After the verification is correct, all the replaced group of people will be sent back, and the number of people will be counted again after reaching the lower floor. After confirmation, this group of miners will go back to rest, and the guards who are in charge of supervising them will also go back to rest."

Charlie Ask him, "Is there any extra remuneration for the dead men and their families who

act as miners ?" No extra reward will be given."

charlie nodded slightly.

At this time, Li Nianzong had brought him and others to a room that said power distribution room.

After entering the room, the first thing that came into view was the well-organized circuit equipment, but after Li Nianzong operated a group of distribution cabinets on the wall for a while, the whole wall suddenly opened slowly inward.

charlie can see from the side of the door frame that the door disguised as a wall is nearly one meter thick, and both sides are reinforced with very thick steel plates. Not to mention martial arts masters, even ordinary heavy firepower is not enough. Potentially blast this wall down.

The Amazing Son In Law Chapter 5280 -

And behind this wall, there is actually a huge machine room. This machine room is actually a heavy-duty elevator equipment and operation room. Below the machine room is a huge lifting cage.

Li Nianzong led the crowd onto the cage, activated the cage with his own iris, and then the cage led the crowd down to a depth of minus 600 meters.

While the cage was running downwards, Li Nianzong said to charlie, "Mr. Ye, all the safety equipment here is one-way. The secret door just now, and the lifting cage, can only be operated by us from the outside. In addition, after the cage reaches the bottom, there is a door that can be opened from the outside, and only we can open it from the outside."

charlie asked him, "Is this the only way for the dead man's garrison to the outside world?"

"That's right." Li Nianzong nodded and said, "The dead men can only enter and exit through a passage, but there are a lot of steel ventilation pipes in their garrison, but the thickest inner diameter of those pipes is only eleven centimeters, and people can't get out at all. , so they have no possibility of escaping at all, even if they can open the door at the bottom, it is impossible for them to climb up the 100-meter-high well. They can't get out at all, so since it has been in use for so many years, there has not been a single prison escape."

After speaking, Li Nianzong said again, "Of course, this is also related to the poison in their bodies, even if they work hard Ku escaped from here, and if he doesn't understand the medicine, he will definitely die within a week."

charlie nodded, feeling a little more admiring about the living environment of the dead.

Six hundred meters underground, without seeing the sun for many years, how hard is this kind of life?

As May 47 said, many children of dead men were born here, from birth toHe started working for the organization at the age of twenty, and during the twenty years in between, he didn't even have a chance to see the sun.

Thinking of this, how to solve the lives of these dead men and their families in the future has become a relatively difficult problem.

charlie naturally didn't want to let them live at a depth of 600 meters, but this copper mine was the size of several hundred people in the eyes of the outside world, so if these people were brought to the ground, the buildings on the ground would not be able to bear such a large number of people. many people.

At this time, the cage has come all the way to the bottom.

After walking out of the cage, there is a transitional area with an area of about 40 square meters. The so-called transitional area means that the back end is connected to the cage, and the front end is connected to the last gate where the dead are held.

Li Nianzong took out a key from his pocket, inserted the key into the lock hole, and then went through the pupil comparison, and then heard the door click, and then slowly opened it outward.

And when the iron door opened, charlie was startled by the scene in front of him and lost his mind.

What appeared in front of him was an underground plaza with at least tens of thousands of square meters. The ceiling of the plaza was at least fifteen meters high, and every ten meters was supported by a thick load-bearing column, and the lights on the top were illuminate the entire square as bright as day!

And the passage in front of charlie is not at the bottom of the square, but in the middle of the vertical plane of the square.

When he stepped out, in front of him was a circular platform protruding outwards, which was seven or eight meters from the ground and seven or eight meters from the top.

When he stepped onto the platform, there were already thousands of people standing neatly on the ground of the square seven or eight meters away from his feet.

At this time, thousands of people suddenly knelt on one knee and shouted respectfully, "Welcome to the special envoy!"

The Amazing Son In Law Chapter 5281 -

At this moment, the dead soldiers kneeling on the ground waiting for the special envoy, and their family members did not know that the man in the black robe in front of them was no longer the special envoy they thought.

According to the regulations, on the day when the antidote was distributed, all the dead men and their relatives had to line up in this hall of tens of thousands of square meters in advance and kneel down to welcome the special envoy.

Seeing so many people kneeling on the ground, charlie was shocked by the scene in front of him.

This underground world with an area of tens of thousands of square meters and a height of more than ten meters, combined with those huge support columns and the bright lighting on the top, makes this space have a sense of sight of a magnificent ancient palace, plus Thousands of people knelt in front of them in unison, and when they said the same sentence in unison, the echo made the entire underground space tremble.

Looking at these people, charlie couldn't help frowning, and asked loudly, "Did they force you to kneel, or did you take the initiative to kneel?"

In one sentence, all the dead soldiers were shocked when they asked.

This was the first time they heard the special envoy say something other than the established lines.

The so-called established lines are nothing more than asking everyone to thank the Lord for the antidote, and everyone should go all out to be loyal to the Lord, and so on.

Therefore, in their impression, the special envoy is more like a human flesh repeater. There are only two things to do every time it comes over. One is to supervise the (Bickford) guards to distribute medicine to the dead, and the other is to repeat that the dead will never believe it. , and don't care about nonsense at all.

And charlie suddenly said such a sentence, which really shocked them. They didn't understand what happened to this special envoy, he dared to say such a word, and even said "they".

who are they? Aren't they breaking the Qing Dynasty?

However, isn't the special envoy himself a person who broke the Qing Dynasty?

Then he should say "we", not "they"!

Just when everyone couldn't figure it out, charlie asked again, "Who is the commander among you? Stand up and speak!"

A middle-aged man in the middle of the first row stood up slowly, and said loudly, "My subordinate, 390, is the person in charge here."

charlie snorted and asked him, "Answer my question just now, it's them." Did you force you to kneel here to meet the special envoy, or did you take the initiative to kneel?"

Thirty-nine zero looked around, and said with a somewhat apprehensive expression, "Master special envoy, we kneel here to welcome you and the antidote bestowed by the British lord. It has always been a tradition, why did you suddenly ask such a question?"

charlie smiled and said, "Kicking football, right?"

Thirty Nine quickly bowed and said, "I dare not! The subordinates are not representing themselves, It's the three or four thousand men, women and children behind him, so naturally they don't dare to talk nonsense."

charlie nodded approvingly, it seems that Thirty-nine Zero is a bit smart, and when he is not sure about his background, he doesn't speak too slowly , and didn't show too much sincerity towards Po Qinghui (Benn), but instead defined charlie's problem as a "tradition". In this way, it can be regarded as offensive and defensive.

charlie didn't embarrass him too much, but slowly took off his black robe and showed his true colors to everyone.

This move left all the dead men and their families dumbfounded.

They have never seen the true face of any special envoy, because according to the regulations of the Qing Dynasty, the dead soldiers can only meet with specific Bickford guards, and other than that, they are not allowed to face to face with anyone else in this organization.

The reason is mainly because of the special identities of the dead soldiers. Once they go out, they are going to perform important tasks. It is necessary to prevent them from recognizing any member of the Qing Dynasty when they are performing tasks.

Therefore, every envoy who came here wore a black robe and covered his face with a black hat.

But this time, Charlie suddenly broke this long-standing rule, which made all the dead soldiers nervous involuntarily.

The Amazing Son In Law Chapter 5282 -

Charlie saw the shocking and flustered expressions of the crowd, so he said lightly, "To tell you the truth, I am not a special envoy of the Qing Dynasty. Me, fight side by side with me against the entire Po Qinghui (Benn), so I came here to ask you, would you like to fight side by side with me like them?!" As soon as Charlie said this, the whole audience suddenly became

enraged Uproar!

No one expected that things would be so unexpected!

While Sanjiu was shocked, he couldn't help but said, "Sir, if what you said is true, then none of us should survive today. Even if you get the antidote from the real envoy, it can only allow us to live for another week, even if we want to fight side by side with you, I am afraid that we will not be able to do what we want."

Sanjiu zero's words made all the dead soldiers who were in shock feel extremely depressed for a moment.

Everyone knows that what 3900 said is correct.

Once they don't have the antidote, they will soon die from the poison. Even if they want to fight the Po Qinghui (Benn) Society to the death, they probably won't be able to wait for the day when they can kill the enemy before the battle.

Charlie looked at Thirty-nine Zero and the dead men at this time, and asked curiously, "Would you rather be controlled by the Po Qinghui (Benn) Society for life and death, or would you fight with them to the death?" Thirty-nine Zero blurted out, "Of course we are willing to fight to the death."

” It’s just that how can we have such an opportunity? For hundreds of years, the dead have been firmly controlled by the organization. Let alone the hundreds of years of living in a place comparable to a prison, the poison in the body alone is doomed to make us impossible to resist, let alone resist the Qing Dynasty, we don’t even have the ability to resist Xiao Qiwei (Bertrand) and escape from here...”

Charlie smiled and asked loudly, “If I can completely detoxify your body, would you like to fight with them to the end?”

Thirty Nine Zero said without hesitation, “If Mister can really cure the poison in our body, Thirty Nine Zero is willing to follow Mr. and do his best for Mr.!”

Charlie nodded slightly, looking around, he asked again, “Where are the others? Are you willing?”

The crowd looked at each other for a while.

If what Charlie said was true, they would naturally be willing.

However, at this time, they couldn’t believe the “if” that Charlie said.

Because, for so many years, so many people have been trying to fight against the poison in the body, but no one has succeeded.

In the eyes of the dead, the poison is like an invisible shackle that cannot be broken free in a lifetime. It is like a gravitational force to oneself, and there is no ability to fight against it, let alone expect it to disappear completely.

Therefore, facing Charlie’s rhetoric at this time, everyone didn’t know how to answer for a while.

At this time, someone whispered below, “Could this be a scheme used by the organization to test our sincerity?”

As soon as the words came out, other people also echoed and began to discuss in a low voice below.

Even 3900 couldn’t help but tremble when he heard this.

He also couldn’t tell whether Charlie was an enemy or a friend.

Charlie took out an antidote at this time, looked at 390, and said calmly, “Since you are the first to express your opinion, then you can set an example for them.”

After that, he threw the antidote at 390 Zero, said loudly, "Take this antidote, and you will be able to completely remove the poison in your body. It's up to you to decide whether you are brave enough to try it!

" With one glance, he said without hesitation, "Mr. should be the first outsider to find here in hundreds of years. Based on this alone, I trust Mr. 390%!

" Put it in your mouth!
