

The Amazing Son In Law Chapter 5283 -

From the time Sanjiu could remember, his father used practical actions to let him understand that the fate of the dead is so difficult, but each generation is still alive and reproducing, with only one purpose, that is to look forward to their own His bloodline will finally be able to break the shackles of the Qinghui (Benn) completely one day in the future and truly win freedom.

There are several mountains in front of this goal, and the first mountain that needs to be crossed is the severe poison that occurs regularly in the body.

There is really no reason to talk about this kind of poison.

No matter how hard so many dead men and so many generations try, they are still unable to dissolve this weird poison.

Although 3900 has never forgotten his father's earnest teachings, he is also very clear in his heart that this is simply beyond what he can accomplish.

He has even pinned his hopes on his son, even the son of his future son.

Just like the mentality of the dead men of all ages: Although I can't break this shackle, my son and my future son must have a chance. As long as they can realize this wish in the future, then I can smile at Jiuquan.

And he never expected that after he swallowed the antidote given by charlie, he could feel a special force rapidly spreading into his body, and then merged with the poison in his body.

Immediately afterwards, the antidote and the poison disappeared without a trace, as if some kind of chemical reaction had occurred.

If the poison was originally an iron chain in Thirty Nine Zero's body that flesh and blood could not resist, then this antidote, like a strong acid that specifically dissolves iron chains but has no effect on flesh and blood, directly kills this chain. It melts cleanly!

At this time, all the dead men and their relatives were staring at 3900.

The huge scene was almost silent, and everyone held their breath, anxiously waiting for the feedback from 390.

Ten seconds later, Sanjiuling, who had been cast as if he had been cast in a body-holding spell, suddenly burst into two lines of hot tears from the corners of his tightly closed eyes.

In this hall where you can hear the sound of falling needles, you can even hear the sound of his tears dripping to the ground one by one.

At this time, 3900 suddenly opened his eyes, looked at charlie with tears in his eyes, did not say a word, but kowtowed deeply to him respectfully, and could not afford to kowtow for a long time.

At this moment, all the dead men and their relatives understood.

charlie's antidote must have detoxified Thirty Nine Zero's body, otherwise he would never have given such a gift of worship suddenly.

But at this moment, 3900 prostrated himself on the ground, his body trembling violently uncontrollably.

charlie looked at him and asked loudly: "Thirty Nine Zero, how do you feel?"

Thirty Nine Zero raised his head slowly, excited but more grateful and respectful: "Mr. ...has disappeared without a trace..."

As soon as these words came out, thousands of people around were shocked, and the excitement on everyone's face was beyond words.

Thirty-nine zero turned around and glanced at the dead men and their families on both sides and behind him, then turned to look at charlie, raised his fists with both hands above his head, and shouted loudly: "Sir! You are a person with great supernatural powers! We wait for the dead men I have been

enslaved by the Qing Dynasty for hundreds of years, and have not seen the sun for hundreds of years, and I would rather die than live, please help us escape from the sea of suffering, and I hope that for the rest of my life, only Mr.

The crowd immediately kowtowed and shouted: "I will be loyal to Mr. for the rest of my life, and Mr. will follow suit!"

The shouts of thousands of people made the whole underground feel a little trembling.

charlie could hear the extreme urgency and desire in their voices.

To get rid of the shackles of the Qing Dynasty, for each of them, it is their greatest wish, as well as that of their ancestors for hundreds of years.

Now, the wish of more than ten generations finally has the opportunity to come true.

Seeing everyone's firm and excited looks, Charlie couldn't help pouring cold water on him, saying: "To be loyal to me, you must be an enemy of the Poqing Society. Although you are controlled by the Poqing Society now, at least you can still fight against the Poqing Society." To live here, if you become an enemy of the Poqing Society, you may all face danger to your life, so, have you considered it?"

The Amazing Son In Law Chapter 5284 -

This time, thousands of people did not wait for Charlie to take the lead.

They shouted in unison: "Think about it!"

Charlie asked again: "You have thought about it, you want to be an enemy of the Poqing Society, right?"

Everyone shouted again: "Yes!"

Charlie nodded in satisfaction. Nodded, said lightly: "Before I came down, I had already reached a cooperation agreement with all the Xiaoqiguards. Before the Poqing Society was eradicated, they obeyed my orders and pledged their allegiance to me. After the Poqing Society was eradicated, they could completely get freedom! Since you are willing to be loyal to me, this cooperation is the same for you! The day when the Qing Dynasty will be uprooted, it will be the time for you dead men to regain their freedom!"

Hearing that you can regain your freedom, all dead men all excited tears like rain.

They originally thought that the condition for Charlie to detoxify them was that they had to be used by Charlie for the rest of their lives.

But even if this is the case, they will agree without hesitation, because in that case, although they will serve Charlie for the rest of their lives, but without the poison in their bodies, their descendants will not have to look at anyone again. His complexion completely became a free man.

It is natural for them to sacrifice this generation to seek freedom for future generations.

But what they didn't expect was that Charlie didn't intend to take this opportunity to control the rest of their lives.

This also means that not only their descendants can have freedom, but they will also be able to have freedom after the Qing Dynasty is destroyed!

And Charlie's behavior is also in sharp contrast with the actions of the Po Qing Society to control the dead for generations.

As a result, the crowd almost regarded charlie as a savior.

Seeing that everyone had sincerely pledged their allegiance, charlie asked people to distribute the prepared antidote.

At this time, more than 3,000 people were still kneeling on the ground, waiting devoutly for the antidote.

Everyone held their hands above their heads respectfully, and when the antidote was delivered to their hands, they took the pill with both hands.

However, none of them took the antidote immediately, but subconsciously waited for everyone to get the antidote one after another before taking it with the others around them.

The scene once again fell into a deathly silence.

Ten seconds later, many faint sobs were heard at the scene.

It was because someone was too excited to control his inner emotions, so he fell on the ground and tried his best to control his crying.

And soon some people couldn't control it anymore, and the whole person burst into tears.

What's more, the whole family hugged each other and cried loudly.

Someone even knelt on the ground and shouted: "Ancestors, ancestors, have you seen your spirit in heaven?! Finally, we no longer need to be controlled by the evil poison of the Poqing Society! You spirits in heaven must bless us and wipe out together with Mr. Break the Qinghui (Benn) and avenge the ancestors!"

These words immediately resonated with everyone, and everyone began to kneel on the ground, secretly vowing to their ancestors.

Seeing this scene, charlie couldn't help sighing in his heart: "These dead men are no longer ordinary people who bear the burden of humiliation. What they have endured is the humiliation and burden of two or three hundred years, which is the burden of more than ten generations! After promising them freedom today , I believe they will definitely become the most loyal troops when destroying the Qing Dynasty in the future!"

...

PS:

From real Auther

Everyone, I am really sorry, because I have been unlucky recently, and the symptoms are more serious. I burned in bed for a few days and completely fell I can't get out of bed, so I haven't been able to update for the past few days. The fever finally subsided today, but the cough is still very severe, and the sore throat is beyond description. I will try my best to recover my body and update, and I hope everyone can pay attention to protection!

The Amazing Son In Law Chapter 5285 -

After all the dead men were successfully detoxified and their mood gradually calmed down, charlie walked down the stone steps and came to the square.

Thousands of people looked at him, grateful and kowtowed to the seniors.

The leader, Thirty-Nine Zero, choked with sobs and said, "On behalf of all the dead and their relatives, I would like to thank you for your kindness!" The

others also knelt on the ground like him, and shouted respectfully, "Thank you for your kindness! "

charlie looked at the thousands of people kneeling on the ground, and said lightly: "Get up, from now on, you will no longer be slaves, and you don't have to kneel and worship anymore.

" Said to 390 who was kneeling respectfully at the front: "Show me the place where you live."

390 respectfully said: "Your subordinate obeys!"

After that, he stood up, pointed to the back of the square and said : "Sir, the area where dead men live is just behind the square, please follow me!"

charlie nodded, followed 390, and walked through the huge square.

While walking, 390 introduced to charlie that the square was basically a place for dead soldiers to train except when the antidote was distributed. Whether it was close combat or gun shooting, it was all carried out in this square.

After passing through the square, there is a corridor nearly five meters wide and thirty meters long, passing through the corridor is the living area of the dead.

The living area of the dead is more like an underground town, where the streets are planned horizontally and vertically, like cutting tofu, and are precisely divided into multiple square areas.

In each square area, there are eight rooms of more than ten square meters, as well as a public kitchen and public toilet.

The domestic water in the entire living area is taken from the groundwater in the copper mine, and then filtered and purified by the purification equipment before being transported here;

the domestic wastewater is directly treated together with the production sewage of the copper mine, and is often secretly discharged into the sea at night, so it has always been No abnormalities were found by the outside world.

The air in the entire underground space relies entirely on the ventilation equipment in the copper mine, which can ensure that the various indicators of the air still meet the standards at a depth of several hundred meters underground.

Here, there is one and only one kind of energy source, which is electricity, including the daily cooking of the deceased, which also uses electricity;

the ceilings of public areas are covered with full-spectrum lights, illuminating all public areas as bright as day.

Thirty-nine zero introduced to charlie: "In our place, we can't see the sun, moon and stars. It's dark and bright, and it's all simulated by lights. As long as the bell rings when we wake up, all the lights will be turned on at the same time. For us, this It entered the day time, and at night when the curfew time came, the lights rang, and all the lights outside were turned off, it entered the night time for us."

He sighed, and said: "Go out like me. Those who have been on missions at least know what the sun, moon and stars look like, but my wife, other women, and children who have no chance to go out to perform missions have never even seen the sun and the moon."

charlie Hearing this, I can't help but feel sympathy and regret for the fate of these dead men.

A person, from birth to death, may not have seen the sun. If it is said, no one will believe it.

Thinking of this, he couldn't help saying to 390: "My plan is to quietly take down this dead soldier's garrison and let everyone change their flags quietly. In this way, the Poqing Council will not notice any abnormalities in a short time. But this also means that the entire resident will remain largely unchanged."

After hearing what charlie said, 3900 quickly said, "Don't worry, sir, we have persisted for so many generations. I can continue!"

charlie nodded, and said seriously: "After all, there are thousands of people here, and only a few hundred people on the ground, it is impossible to transfer everyone to live on the ground, and the number of people will increase too much at once. It will also arouse suspicion and speculation from the outside world."

Speaking of this, charlie changed the subject and continued: "However, from today onwards, the passage between the dead and the ground will remain unimpeded, and you should coordinate internally to allow some people to go to the ground at multiple times every day." , to feel the real day and night, to feel the real sun, moon and stars."

The Amazing Son In Law Chapter 5286 -

Hearing this, 3900 was so excited that he quickly said gratefully: "Thank you, sir! Thank you, sir! I will be satisfied if I can let the children go out to see the real world and breathe fresh air!"

charlie He said with a smile: "Everyone can go out, but for the time being, we still have to endure hardships, so in general, everyone will continue to be patient and wronged for a while, but don't worry, in terms of daily necessities of life, I will let people improve the treatment of the dead as much as possible." , if the children need to receive normal education, I can also ask someone to coordinate for you the teaching materials and teaching aids suitable for the education of children of all ages. If you have any needs, you can also ask me. I will try my best to solve them. "

Thirty-nine Zero said gratefully: "Sir, it would be great if the children could receive real education. Right now, children's education is basically limited to literacy and the sporadic basic knowledge we have. But those of us, even if we have the opportunity to go out, we are all going to carry out the task, the time is short, and someone is watching secretly, so that we have no chance to get in touch with any systematic knowledge, even if we want to get a map of the world for us. The children can't even see it..."

charlie nodded, and said understandingly: "I will let people solve all these problems in the shortest possible time." After

that, charlie asked Thirty-Nine Zero again: "Yes Now, how do you solve your usual medical problems?"

390 explained: "We have a medical team consisting of ten people, and the members of this medical team are all selected from young girls by the Chaqing Society for training. Yes, but they mainly study obstetrics and gynecology to ensure the delivery of pregnant women and infant care in the entire resident."

charlie couldn't help but ask: "If someone has a serious illness, how do you usually deal with it?"

Thirty Nine Zero thought about it Thinking, opened the mouth and said: “We don’t seem to have encountered any serious diseases, because we take the antidote every week, our body will always be in a relatively healthy state, and this antidote will improve our physical fitness, let us Our strength is constantly increasing.”

charlie suddenly realized.

Although those dead soldiers in May 47th were not real warriors, they were not inferior to those who competed in physical fitness. Coupled with modern weapons and careful tactics, their real combat level was very high, even eight-star warriors Nor are they their opponents.

Thinking about it, the reason why their physical fitness is strong is because they take this antidote regularly.

At this time, Thirty-nine Zero said again: “Although the antidote can greatly improve our physical fitness, it seems to have a very large impact on our average life expectancy. Taking the antidote for a long time will cause our average life expectancy to not exceed sixty. At the age of 58, the oldest recorded dead man lived to be fifty-eight years old, and most of them died of no illness when they were in their fifties.”

charlie nodded: “That kind of medicine is not Relying on the power of medicine to improve your physical fitness, it only accelerates the burning of your own vitality, so that you can burst into greater potential. In the short term, your strength has indeed improved a lot, but it is actually overdrawing your follow-up life.”

Said Then, charlie asked him: “How old are you this year?”

Thirty-nine zero said respectfully: “Mr., this subordinate is forty-five this year.”

He couldn’t help but sighed softly, and said mockingly: “I guess The subordinates still have ten years to live, and I hope that within ten years, I can eradicate the Po Qinghui (Benn) (Benn) with my husband!”

charlie looked at him and said seriously: “Don’t worry, it won’t take so long to eradicate the Po Qinghui (Benn) (Benn), and , you will not only live to be fifty or sixty years old, now that the poison in your body has been detoxified, I will make your average life expectancy equal to that of normal people.”

Knowing that charlie was not just talking about it, 3900 said gratefully : “Thank you sir for the grace of regeneration!” After

finishing speaking, he knelt down on one knee to show his piety.

Seeing him kneeling on one knee, charlie smiled helplessly.

He had just said that he was not allowed to kneel down to salute, so he changed kneeling on both knees to kneeling on one knee.

charlie shook his head, helped him up with one hand, looked at the time, and said: "I think it will be dawn soon, go and get all the underage children ready to go up to appreciate the first time in their lives." Let's rise the next day!"
