

The Amazing Son In Law Chapter 5289 -

At this moment, all the children's eyes were attracted by the rising golden thing!

As the arc of the rising sun became wider and wider, the golden light dyed the entire sky and the entire sea golden.

The sky is full of rays of light, and the sea is sparkling!

The rising sun distorted the light of the skyline, making it look more dreamy.

The children, as well as the parents who took care of the young children, were stunned.

Even though the light was becoming more and more dazzling, no one was willing to blink their eyelids.

The mothers of those young children, as well as those children who are still entering adolescence, subconsciously hugged their best friends tightly. They or they were in groups, and they couldn't control the tears.

The scene in front of them now, even if they racked their brains underground for another twenty years, they would still be unable to come up with a reason.

Soon, that round of golden sun has completely rushed out of the sea level, and the world as far as the eye can see has been bathed in the newborn sunlight.

For hundreds of millions of ordinary people living in this time zone, this is just an ordinary and ordinary day.

But for these more than 700 children, this moment is a new beginning of their lives!

charlie looked at the hundreds of immature faces illuminated by the sun in front of him, and said to Li Nianzong, 390, and Abbas and others beside him, "Before today, their life was a long night; after today, their lives will be endless." Then you will have the real light!"

After saying that, he suddenly made a decision, and said sharply, "From today onwards, don't let these children practice martial arts anymore! If anyone really wants to learn, it won't be too late until they reach the age of eighteen. !"

Thirty Nine Zero subconsciously said, "Sir, if you wait until you are eighteen to start martial arts, it will be too late..."

"Late?" Night! I don't let them practice martial arts, because I don't want them to pay too much for their childhood!"

“Besides, if our generation can eradicate the Poqing Society, why do these children need to practice martial arts?”

“Compared to practicing martial arts, they should go out of here and settle with their parents in a peaceful and stable country. Study hard, go to an excellent university, study a major you are interested in, and then find a job that allows them to start a family and start a business, and then create their own value in society!”

“This is what they want , the best choice!”

Thirty-nine zero realized that his thinking was still stuck in the previous mode.

Before charlie appeared, the only thing a dead man could do was to improve his abilities as much as possible, and become a knight guard as much as possible. After becoming a knight guard, he would have a few more children to ensure that there would be a “scholar” among his offspring. In this way, we can get rid of the life of fighting and killing.

However, the situation has changed now.

Their children don't need them to work hard to make one-third of these children become “scholars”.

As long as they can join charlie in eradicating the Poqing Society, all their children can become real scholars!

Thinking of this, 3900 cried and said, “Thank you sir for your great kindness and great kindness. All the dead will never forget it!”

charlie patted him on the shoulder, and then said to Abbas, “Abbas, From Wanlong Hall, find a few female warriors with relatively high education, and ask them to come here regularly to give lectures to their children. Let them quickly understand the world, history and current movies.”

After that, charlie said again, “By the way, there is also the Internet, let's put a network cable in, prepare some computers, and let the children know what the Internet is, but the Internet is temporarily We can't let the children do it by themselves, after all, we have to beware that they will find out if they accidentally leak the information.”

Abbas said without hesitation, “Don't worry, Mr. Wade, I will make all the arrangements!”

charlie nodded lightly, and said to 3900, “In another 20 minutes, take the children down first, and then come to the meeting room, and let's have a meeting together.”

3900 immediately said respectfully, “ Good sir!”

charlie didn't say any more, but brought Abbas and others to the meeting room first.

Right now, the sky has brightened, and the supplies transported by the ship to the copper mine last night have already been quietly transported before dawn, and the copper ore is currently being loaded at the pier. Once the loading is completed, Duan Liye, who is the special envoy, will arrive. It's time to head back.

charlie needs to smooth out all the links and solve all the hidden problems before that. Only in this way can he ensure that Duan Liye will not be exposed when he arrives in Turkey.

As for how to keep Duan Liye from revealing his clues, charlie also had a new idea of his own.

In the past, the reason why he didn't use psychological hints very often was because psychological hints had a very serious drawback. Once the target person was in a state of being controlled, his behavior and reaction would appear a bit slow, which could be seen by a discerning person at a glance. Which is wrong.

The Amazing Son In Law Chapter 5290 -

When Elaine was the happiest before, charlie didn't use psychological hints to her, it was for this reason.

Once given psychological hints, Elaine will definitely be able to calm down, but her person will also become very different from usual, and then his wife Claire will definitely find something unusual.

Duan Liye's situation was the same.

Even more tricky.

The main reason is that these middle and high-level members in the Qing Dynasty are not weak. The masters of the dark realm already see all directions and listen to all directions. If Duan Liye shows too many abnormalities, once he arrives in Turkey, he will. When his superior returns, he will definitely be seen.

Therefore, charlie planned to play tricks.

So, he called Duan Liye to him and asked, "Duan Liye, let me ask you, besides you and your assistant, are there any people from Turkey who come here?"

"No more." Duan Liye shook his head, and said respectfully, "I am a permanent special envoy, mainly responsible for this line, so every time I am responsible for delivering medicine and supplies, other people will not come with me."

charlie asked again, "Isn't there anyone with a higher rank than you who came here to check the situation?"

Duan Liye shook his head and said, "In order to avoid exposing the top management, the organization's consistent attitude is to contact with one person and one line, and will not send out Other executives participated."

"That's good." charlie felt more at ease, and asked him, "As long as you tell your superiors that everything is normal here, they won't be too suspicious, right?"

Duan Liye nodded and said "Normally, that's the case, but I still need to combine some of the surveillance videos here. Before I leave, I will take the surveillance hard disk back to them and let them copy the video from the hard disk for analysis."

charlie asked him, "What is the reason?" Who will analyze it?"

Duan Liye said, "There should be a dedicated security team in charge."

charlie turned to ask Abbas, "Abbas, can surveillance video be tampered with?"

Abbas nodded and said, "It's too simple, my team can modify the surveillance video frame by frame, and make sure that the other party does not see any clues."

"Okay." charlie nodded slightly, and turned to Li Nianzong, "Copy out the surveillance video before this morning. Let him take it away, and the monitoring at the back, after the people who broke the army have dealt with it, Duan Liye will let him take it away next time he comes."

LiNian Zong hurriedly said, "Good sir!"

charlie asked Duan Liye again, "If you tell your superior that everything is normal here, and the surveillance video shows nothing abnormal, will your superior ask you for more details?"

"No." Duan Liye shook his head and said, "He also has very little communication with me. He hardly sees each other. If I say that there is nothing abnormal, he will report the truth to the higher authorities."

Duan Liye further explained, "Inside the Clearing Society, due to the high toxicity in the body and the need for antidote for everyone, the organization has never had any deviations in its control over us, so the organization has always focused on preventing the outside world from prying into the secrets of the Clearing Society, but I don't worry too much about traitors appearing in the Poqing Society. After all, everyone's life is in the hands of the Poqing Society. No one will go against the Poqing Society. Not only are their own lives in the hands of the organization, but so are the lives of their family members."

charlie nodded, it seemed that Po Qing would be very confident in their antidote, and he didn't think anyone would be able to crack this antidote.

Thinking of this, there was only one last thing left for him to do, which was to give Duan Liye a new "psychological suggestion".

This new "psychological suggestion" is more complex, powerful and skillful.

This will be his trump card to solve the last problem.

Thinking of this, he called Duan Liye to the office, and when there were only two people in the office, he sent more aura into his body.

Afterwards, charlie stared closely at Duan Liye, and said coldly, "Duan Liye, remember! From now on, as long as you get off the boat and enter the scope of this copper mine, you will remember me and remember me." Remember that I am your only master, and then you will stay here honestly, and after my people make all preparations, you will return to the freighter as if nothing happened, do you understand?"

Duan Liye nodded without hesitation. "Subordinates understand!"

charlie changed the subject, and said again, "However, once you get on the boat, you will temporarily forget me as a person, and that I am your only master, and forget the psychological hint I gave you just now, and your Subconsciously, you only need to firmly believe in one thing, that is, you have completed all the work in the copper mine, and firmly believe that everything inside the copper mine is smooth and there is no abnormality!"

"Except for this point, everything else, you follow your If you want to be your special envoy, you should be your special envoy, if you should practice your martial arts, you should practice your martial arts, if you should play with your male favourite, you should play with your male favourite. You, Duan Liye, should be what you are! Do you understand?"
