

The Amazing Son In Law Chapter 5291 -

charlie's words made Duan Liye feel a little short-circuited.

However, after a few seconds, he figured out the content of charlie's hint.

In fact, charlie just wanted to give him a hint, a trigger condition.

When Duan Liye was not here, charlie didn't need him to be used by him, nor did he need him to keep thinking that he was his master.

What charlie needs is that when Duan Liye is not here, he is still himself. He doesn't remember that he has any master, nor does he remember that he was given psychological hints, so as to ensure that he has no influence in front of other people.

And once he got off the boat and in the copper mines, the real strong cues kicked in.

In this way, it can be ensured that Duan Liye will become a tool man as soon as he arrives here, and when he leaves here, he can return to normal and be himself.

The only difference is that in the deepest part of his subconscious, charlie gave him a hidden hint, firmly believing that there is nothing abnormal here.

This order is extremely simple, and it doesn't require Duan Liye to think about it, nor does he need to deal with any other variables for it. Therefore, the impact of this deep psychological suggestion on Duan Liye will also be reduced to a limit.

What's more, charlie also specifically hinted that he should follow his true colors, so that it would be more difficult for others to see the clues.

However, apart from Duan Liye, charlie also controlled his male favorite on the boat last night.

Right now, the same psychological hint needs to be given to that male favorite.

So, he said to Duan Liye, "Go to the boat and bring your male pet over. I have something to tell him."

"Okay." Duan Liye nodded without thinking, and then immediately opened the door and went out.

Just after Duan Liye left, charlie called Abbas, Li Nianzong, 390, 547, and Abbas's master Qiu Zhiyuan to the office.

After everyone came in, charlie said, "Everyone, I have already solved Duan Liye's problem. In the future, as long as he is still a special envoy, he can temporarily avoid

the supervision of the Qing Dynasty. I'm afraid the base will be in danger, and everyone will have to evacuate from Cyprus immediately before the Poqing Council can mobilize enough people to attack."

Li Nianzong asked respectfully, "Sir, all of us add up to more than 4,000. If you really need to evacuate, where can you evacuate?"

Charlie smiled slightly and said in relief, "Don't worry about this, the Wanlong Temple is on the other side of Syria, and is building a base that can accommodate 100,000 people. If it is really necessary, we will let him transfer everyone to Syria."

Abbas said at this time, "Don't worry, everyone, Wanlongdian will move from Syria, and the response speed will be much faster than Poqing will maneuver from other places, and it will be done by Poqing. Judging from the current global maneuverability, the number of dead soldiers they can mobilize around the world in a single day cannot exceed 2,000, and if they really do it, they can't be the opponent of Wanlongdian."

Abbas It is safe to say this.

The strength of the Qing Dynasty is indeed very strong, and its influence spreads all over the world.

However, if we really want to concentrate our efforts on doing big things, they are definitely not as good as Wanlongdian in this regard.

Even if it is a country whose military strength ranks above the middle in the world, it is impossible to deploy tens of thousands of people around the world in a short period of time, and there are tens of thousands of soldiers under the command of Wanlongdian, and most of them are concentrated around Syria.

Therefore, in the Middle East, Wanlongdian really doesn't have to be afraid of breaking the Qinghui.

Abbas's words made Li Nianzong, 390 and others breathe a sigh of relief. After all, they all have families and have just seen the dawn of changing their destiny. Under such circumstances, they naturally want to see more hope, see a greater success rate.

If there is Wanlong Temple behind it as support, then everyone can completely rest assured and stick to it here.

Charlie said at this time, "Everyone must be clear about one thing. No matter how well we can hide it now, this base will be exposed sooner or later, but the exposure is not terrible. As long as we are fully prepared, we will definitely be able to avoid it." Necessary casualties."

As he said, Charlie said again, "Listen well, once something happens to Duan Liye, we will immediately evacuate everyone, but before evacuating, you must completely destroy this base for me. I want the Poqing Society to see my hard work go to waste with my own eyes!"

The value of this copper mine is not high, but the value of the underground project under the copper mine, which is specially designed for dead soldiers, is immeasurable.

The construction cost of the entire underground project alone is estimated to start at one billion US dollars, and when various hardware equipment is included, the cost is even more astronomical.

The most important thing is that it takes a lot of time to quietly build such an underground project, and it may not be completed in ten or eight years. This is the most distressing thing for the Po Qinghui (Benn).

The Amazing Son In Law Chapter 5292 -

Li Nianzong said, "Sir, with your permission, we can lay a blasting point underground in advance. Once needed, we only need to fill the blasting point with high explosives to blow up the entire underground fortification. Once the underground is destroyed, there will be a huge subsidence area on the ground, and the entire copper mine has almost no rescue value."

390 also immediately agreed and said, "That's right, sir, the daily mining of copper mines is to use blasting and excavation, and Jiedushi is in charge there. With a large amount of emulsion explosives, as long as enough explosives are pre-buried on the key support positions, the entire underground can be blown up!"

Charlie nodded slightly, and said, "In that case, then make preparations in advance. After that, he turned to look at Abbas and his master Qiu Zhiyuan, and ordered, "

Abbas, your master will be the Jiedushi here from now on, responsible for coordinating the operation of the entire copper mine and the control of explosives." And to deal with crisis situations, you organize a team from Wanlongdian and set up a special force, which will be managed by your master, who will be fully responsible for the daily security of the entire copper mine. Once you find out, the special envoy who will come here one day It's no longer Duan Liye, and you will immediately implement the evacuation plan."

Abbas and Qiu Zhiyuan said in unison, "Your subordinates obey!"

And Qiu Zhiyuan asked more, "Mr. Wade, as you said, once the special envoy is no longer Duan Liye, are we going to kill the new special envoy?"

” When we found that the special envoy had changed, we put him in the copper mine, once he entered the copper mine, the special forces immediately attacked him, and we must kill him and his followers in the shortest possible time!”

charlie said again Said, “Everyone listen to my next order!”

The crowd immediately cheered up and waited for charlie’s next words.

charlie looked at Qiu Zhiyuan, and asked loudly with a firm expression, “Once the killing is successful, Qiu Zhiyuan must immediately convey the message to Abbas within 30 seconds without any delay. Can you do it?”

Qiu Zhiyuan Clasp his fists with both hands, he bowed and said, “Mr. Wade, don’t worry, the subordinate will delay for a second, come and see you!”

“Okay!” , Be sure to send a ship to Cyprus within half an hour, the ship must be large enough to take everyone back to Syria, and must have enough concealment means to prevent any clues from being traced by the other party, can you do it?”

Abbas immediately said in a

loud voice, “Don’t worry, sir, this subordinate will definitely complete all the arrangements you have made!” Immediately and in the shortest possible time, synchronize the information to the knight guards and dead soldiers, and at the same time dispatch specialThe team began to bury the explosives at the blasting points that had been laid in advance, and made preparations for the blasting. Can you do it?

Qiu Zhiyuan bowed again and said, “Return to Mr. Wade, this subordinate can do it! ” “

” Good! “charlie looked at Li Nianzong, the Xiaoqiguards (Bickford guards), and ordered, “Li Nianzong, once you receive the news, immediately notify all the family members of the Xiaoqiguards (Bickford guards) to prepare to evacuate. At the same time, you personally lead the elite soldiers of the Xiaoqiguards (Bickford guards) to dispatch quietly. Control all the people and ensure that they cannot transmit any information to the outside world in a short period of time. Can you do it?”

Li Nianzong replied firmly without hesitation, ” Don’t worry, sir, your subordinates will fulfill their mission!” “

charlie nodded, looked at the dead man 390 again, and ordered, “390, once you receive the news, immediately organize all the dead men and their families to prepare for evacuation. In the case of ensuring speed and efficiency, be methodical and never panic! And we must ensure that the elderly, children, and women evacuate first. If others dare to preempt, they will be killed. Can you do it?”

390 said respectfully, "Don't worry, Mr. 390 guarantees with the head, and will never disclose anything!" Charlie nodded slightly in satisfaction, and said, "

At that time, as long as you can kill the new special envoy and control the people on the freighter in the shortest possible time, theoretically at least half a day, that is, twelve hours can be bought for the evacuation. This is also the time it takes for the freighter to unload and reload; "

Ba Qing will be too confident in their poison and antidote, this is also our opportunity, as long as we grasp these twelve hours, we will be able to evacuate without a trace Without a trace;"

"After everyone has withdrawn, the special forces left behind will be responsible for blowing up the entire copper mine! "

"At that time, the huge explosion will definitely attract the attention of the local people in Cyprus first. Once they intervene, it will become very difficult for the Qing government to follow up and investigate." "

Besides, this kind of explosion will completely destroy the entire underground, and at the same time form a subsidence on the ground. It is impossible for them to investigate deeply in the underground hundreds of meters deep;"

"So as long as we don't leave any clues when we withdraw, these thousands of people will seem to have evaporated in the eyes of the Po Qinghui (Benn). They can't think of how these people did it, let alone how they did it. I understand how these people broke through the shackles of the antidote."

"At that time, I'm afraid Po Qinghui (Benn) will be the first to be scared to death, and it must be a huge blow to them!"

Speaking of this, Charlie slightly After a pause, he said with a smile, "The above is our plan to overthrow the nest!"
