

## The Amazing Son In Law Chapter 5316 -

ten minutes later.

The old man knocked on the door, and after getting Lin Wan'er (Alani)'s consent, he opened the door and walked in slowly.

And in his hand, there was a laptop.

He placed the computer in front of Lin Wan'er (Alani), and said, "Miss, I have already found all the information you asked me to check. There are 2,128 men in the whole country whose surname is Wade and whose name is Qingchen. Thirty There are eight hundred and seventy-nine people under the age of one; "

"There are five hundred and forty men with the surname Wade and one named Charlie in the whole country, and two hundred and thirteen people under the age of thirty;"

"The whole country There are only 20 males with the surname Wade and the dusty dust, and only seven men under the age of 30."

"Besides, I use Pinyin to name all thirty-year-olds whose surname is Wade and whose first name is pronounced as chén. " The information of the following men has also been retrieved, a total of 172 people;"

After finishing speaking, he said, "All the information about Charlie is here, please have a look."

"Okay." Lin Wan'er (Alani) nodded, put her fingers on the direction keys, and quickly browse the relevant information of each Charlie.

In the past few days, she has already remembered Charlie's appearance clearly by repeatedly watching the surveillance video. Therefore, the main way of comparison at the moment is to check the information she has seen through the ID photo, and Charlie she saw, whether they are the same person.

But the strange thing is that after browsing all the information of everyone, he didn't find the Charlie who saved him that night. Lin Wan'er (Alani)

frowned, and couldn't help asking the old man, "Is all Charlie's information here?"

"Yes." The old man nodded, "Everything that can be found is here."

Lied to me?"

Thinking of this, she couldn't help shaking her head, "It shouldn't be... He must have been fully sure that he could erase my memory at that time. In this case, there is no need for him to lie, right? Xiang Poqing will attack, it is impossible not to dare to reveal his real name to me under such circumstances..."

Seeing that Lin Wan'er (Alani) frowned and said nothing, the old man couldn't help asking, "Miss, is there any question? If you have any other clues, you can also tell me. One more clue will give me a better grasp."

Lin Wan'er (Alani) shook her head dejectedly, muttered, "There are no other clues, I only know that his name is Charlie." The

old man smacked his lips, "Everyone named Charlie, the information is here. If he didn't lie, could he be an overseas Chinese? Although his name is Charlie and he is also Chinese, but his nationality is in another country?"

Lin Wan'er (Alani) said, "He said he is Chinese, but this situation does not rule out what you said. After all, many overseas Chinese also have a strong sense of identity with their motherland. I will also say that I am a Chinese, but if that is the case, I will only be able to find a needle in a haystack in more than 200 countries around the world..."

Speaking of this, Lin Wan'er (Alani) suddenly raised her head unwillingly, and asked the old man "Is there any There is no possibility that his identity has been encrypted in the system?"

## **The Amazing Son In Law Chapter 5317 -**

"Encrypted?" The old man frowned and thought about it, and said, "There are indeed cases of encryption, and the relevant information of people with special identities will be encrypted, but for Ensure that these encrypted information cannot be found out, the system itself cannot directly retrieve the encrypted content."

Lin Wan'er (Alani) asked him, "What is the general encryption logic?" The

old man said, "As far as I know, there are two types of encryption logic, one Yes, his identity information was completely erased from the system, and the information was stored in another isolated system that would not have any connection to the Internet, that is to say, his real information only existed in the latter In the system, no one outside can find any clues,"

As he spoke, the old man said, "The other is more complicated, because this person himself has a set of real identity information, but this information has been encrypted in the system. To some extent, it has become a one-way identity."

Lin Wan'er (Alani) asked, "What does one-way mean?"

The old man explained, "One-way means that his ID card, his passport, driver's license, even household registration booklet, marriage certificate and other ID documents are all real, and the ID number is also real, but if anyone in the system wants to confuse I can't find his information. For example, if I want to check who is named Charlie in the whole country, his information will not appear in the results returned by the system. I want to check all the names of Charlie in the whole country. Even if we pull out the information of hundreds of millions of men across the country, there will not be him in it;"

"If you want to inquire about his information, there are two conditions First of all, you must know his name and his accurate ID number. Only when these two information are completely correct can you find out his information

; Search, because like you, if you really need to use this system to find someone in the vast crowd, you can't know his ID number, if you know his ID number, it means you have mastered it His real information, so you don't need to use this system to spread the net."

Lin Wan'er (Alani) sighed, "Speaking of which, this encryption method is still very clever, and people who don't know him well can't find him in the system." Seeing him, it is impossible for people who know him to come to the system to check His information, even if someone who knew him came to check, input his name and ID number, the results would be real, and nothing could be found. "

"Yes. "The old man nodded and said, "Some people with very special identities will use this method to hide, so that a person can truly hide in the city. People with ulterior motives cannot verify. "

Speaking, the old man said again," such a person, using his own identity, not only does not have to worry about being found out by others, but also his life will not be affected in any way. "

Because apart from what I just said, his information can only be found out by his name and ID number. All his IDs are actually one-way inquiry channels;"

"For example, if a policeman checks his ID card on the road, As long as the police use the device to read his ID card, all his information can be queried in the system, so that the police will not find any abnormalities; "

"If he wants to fly, as long as he buys the ticket with If he has the correct name and ID card, he can check in smoothly with the ID card;"

"If he wants to go abroad, then use his name and passport number to book a ticket, and then he will be able to exit the customs smoothly with his passport; "

"However, if anyone wants to check him through the information registered on the plane, it will be impossible to find out. If you want to search for someone named charlie who has flown in China, but you only know his Name, then his information will not be displayed. "

Lin Wan'er (Alani)'s two willow-like eyebrows were slightly clustered in the middle, her expression was dignified and worried.

After a moment of hesitation, she asked the old man, "Whether the person I'm looking for is the first type or the second type, with your status and connections , Can you find out these hidden information?

Hearing Lin Wan'er (Alani)'s question, the old man pursed his lips and sighed, "Miss, there is actually a very troublesome underlying logic behind this matter." Lin Wan'er (Alani)

said, "Speak."

The second type is that the number of people who are hidden is actually not small, some special talents, military experts, intelligence personnel, secret service personnel, their identities are all encrypted, and there are tens of thousands of people in the whole country.”

Speaking of this, the old man The topic changed, and he said, “But the trouble is that although these two kinds of hidden people have a database, most of the people who can access this database do not have the highest authority of this database.

” That is to say, if I used these two methods to hide the information of two people, then even if I have the authority to this database, I can only access the information of these two people, and I have no right to access the information of other people. Not only do I have no right to read it, but I don’t even know how many people there are in it;”

“Conversely, even if you have the relevant authority to this database, you can’t find out who I am hiding in this database. The two of us are insulated from each other;”

“Moreover, there are multiple branches here, each with different levels and permissions. For example, the intelligence department, its top leader, has the right to read all the hidden information of the intelligence department , but has no right to access the situation of other departments.” Lin Wan’er (Alani)

thought for a while, and asked, “There must be someone who has access to the entire database?”

I can count them all, and it is absolutely impossible for these people to leak information to anyone who does not have permission, so I can’t get through this way at the moment.”

“I understand.” Lin Wan’er (Alani) nodded, knowing that the access permission from the database It is already impossible to start.

So, after she pondered for a long time, she suddenly remembered something and asked, “By the way, if a person’s identity information is not concealed from birth, can his information before being concealed be found?”

The old man replied, “If it is the first type, all the information is hidden, so that this person seems to have never appeared in this world, then the information of his birth will also be erased;”

“If it is the second type, it depends on How does the person who hides his information operate? Some people may erase all of them for certain purposes; but if some people want to create the illusion that this person’s whereabouts are unknown, they will not erase the previous information. Because this information has to be released to the public to respond to inquiries from interested people.”

“For example, when a person graduates from university at the age of 22, for some reason, he needs to disappear from the world, then his file information before the age of 22 will not be erased. Only a missing person or dead label will be added to his file, and the information will not be encrypted. Even an ordinary police officer with the lowest authority can easily find out the status of his disappearance in the population system. File information.”

Lin Wan'er (Alani)'s eyes lit up, and she blurted out, "Does the information you gave me just now include the missing and dead charlie?" The

old man replied, "Includes the missing ones, but does not include the confirmed dead ones."

Lin Wan'er (Alani) suddenly thought that she did see a lot of children's messages just now.

It's just that when I saw the pictures of children, I just skipped them and didn't look carefully at the specific information of these children.

However, this will ignore a situation, that is, if the photo of the child is not the actual state of the child, but the child disappeared when he was young, and his file information is still in his small Time, there is no update, this situation, I will ignore it just now.

So, she quickly said to the old man, "I'll review the information of the missing person first, and if you still can't find it, you can help me get the information of the relevant person who has died." The

old man nodded, "No problem!"

He looked at the computer again, return the information to the first person, and then start screening one by one.

Soon, a black and white photo appeared in front of her eyes, causing her pupils to shrink suddenly.

The boy in this black-and-white photo looks about six or seven years old. The boy looks handsome, and his facial features and charm make Lin Wan'er (Alani) feel a little familiar.

Later, she looked at the boy's message and muttered, "charlie, from Eastcliff, the son of bruce Wade and Lydia (Ava) ( Charlie's mom )..."

"This charlie, who studied in Eastcliff No. 2 Experimental Primary School 21 years ago, Twenty years ago, I transferred to Aurous Hill No. 1 Primary School, and then disappeared, and the file information has never been updated..."

The old man heard her muttering, and couldn't help but said, "bruce Wade, Lydia (Ava) ( Charlie's mom )? This couple, twenty Many years ago, in Eastcliff, it could be said to be a powerful force!"

Lin Wan'er (Alani) asked him, "Have you heard of it?"

Lin Wan'er (Alani) asked him, "Have you heard of it?"

## **The Amazing Son In Law Chapter 5319 -**

"Not only have you heard of it." The old man said seriously, "I have some friendship with the Wade family. The old house of the Wade family is far away from me. It's not too far away, you can walk there in half an hour. The Wade family is one of the top three families in China. bruce Wade was the most outstanding back of the Wade family back then. His wife Lydia (Ava) ( Charlie's mom ) was an investor in almost the entire Silicon Valley. By

the way , the An family behind Lydia (Ava) ( Charlie's mom ) ranks second in the United States.”

“I see!” Lin Wan'er (Alani) nodded and sighed, “No wonder the name Lydia (Ava) ( Charlie's mom ) is so familiar, I seem to have read a biography about her.” As

she spoke, Lin Wan'er (Alani) Looking at the black and white bareheaded photo of charlie taken before he entered the first grade of elementary school, he said seriously, “I think this kid is somewhat similar to the charlie I am looking for. Combined with his name, he is also called charlie. I guess there is a high probability that he is Him.”

“Improbable, right?” The old man subconsciously said, “Twenty years ago, Bruce Wade and Lydia (Ava) ( Charlie's mom ) encountered an accident in Aurous Hill, and both husband and wife died. Eight-year-old charlie disappeared. The Wade family is still the An family. They have been looking for the whereabouts of this child for so many years, but there has been no news. The strength of these two families is very strong, especially the An family. He's still alive.”

Lin Wan'er (Alani) said seriously, “If according to what you just said, this charlie's identity is hidden in the second way, wouldn't it be possible for no one to find out? So what if he's a wealthy country? Not at all. It's possible to get information from the very, very few.”

After listening to Lin Wan'er's analysis, the old man couldn't help but nodded and said, “Miss, you are right, there is indeed such a possibility!”

Lin Wan'er suddenly thought of something, pointed to the string of Eastcliff local ID number of eight-year-old charlie, and said, “By the way, didn't you say that if it is the second encryption method, the encrypted information can be found with the name and ID number at the same time? Then help me look up charlie's name, add this ID number, and see Can you find any results.”

“Okay!” The old man was also a little excited, and immediately opened a background on the laptop, and entered charlie's name and original ID number in it.

Afterwards, the two checked the results with full expectation, only to find that the information given by the system was still the missing file of charlie who was eight years old.

Lin Wan'er (Alani) frowned, “Why can't we find out? Could it be that someone gave him a new identity?”

After finishing speaking, she couldn't help asking herself and replied, “This is probably the case!”

Lin Wan'er (Alani) guessed right, Stephen Thompson After arranging charlie into the orphanage, he gave charlie a new identity. Although the new identity was still called charlie, it was no longer the same charlie from the Wade family in Eastcliff, but a man without father and mother. , charlie who was adopted by the Aurous Hill Welfare Institute.

His household registration was placed on the collective household registration of the Aurous Hill Welfare Institute, and this was the case for all children adopted by the orphanage.

Therefore, he naturally has a new ID number, one that belongs to Aurous Hill.

In this way, no matter whether it is the Wade family or the An family, no one can find him again, the only one who can find him is Stephen Thompson.

Regarding this matter, the old man said, "If someone changed his identity, the previous set of information would definitely not be found out. You must know his new identity's name and ID number to find out."

Lin Wan'er (Alani) frowned . . . , Said, "If someone helps him settle in another place, get a foreign account and identity information in another place, then his actual encrypted identity is not the identity before disappearance, but the new identity after disappearance."

Said . . . At this point, Lin Wan'er (Alani) said again, "I understand... Twenty years ago, after charlie disappeared, someone hid his whereabouts, gave him a new identity, and hid the file information of his new identity, so, The former charlie disappeared when he was eight years old, and a new 'charlie', or 'charlie' with another name, appeared in a new place. Other than that person, no one else can find him." The

old man hesitated for a moment, and then said, "Miss, I'm not 100% sure yet, the charlie you are looking for is this charlie! What if this person goes missing?" charlie, who is only somewhat similar to the person you are looking for, wouldn't he be misled by this kind of speculation? After all, children's facial features have not yet developed, and it is normal to have a certain similarity with someone. But it is very likely that after puberty, it will develop in a completely different direction."

Lin Wan'er (Alani) nodded, and said seriously, "You are right, although my instinct tells me that the charlie I am looking for should be This charlie who disappeared 20 years ago! But you can't trust your intuition too much for this kind of thing, just relying on the resemblance of childhood photos to confirm the truth is a bit hasty."

Thinking of this, she blinked her eyes, thinking of something . . . , smiled and said, "By the way, can you help me retrieve the file information of bruce Wade and Lydia (Ava) ( Charlie's mom ) ?" Some official files left in China after marrying bruce Wade."

"It's okay." Lin Wan'er (Alani) said, "I just need a photo of the two of them."

"That's okay." The old man quickly retrieved bruce Wade in the system and Lydia (Ava) ( Charlie's mom )'s information.

When Lin Wan'er (Alani) saw the handsome black and white ID photo in bruce Wade's file, her frowning brows instantly relaxed!

She couldn't help clapping her hands excitedly and said with a smile, "Haha, my instinct was right! It really is him! The charlie I'm looking for is almost exactly the same as this bruce Wade!"

...

s Today is 2022 On the last day, I wish you all a Happy New Year in advance!

## The Amazing Son In Law Chapter 5320 -

“Miss, the charlie you saw looks exactly like bruce Wade?!” The old man had an incredulous look on his face at this moment. Lin Wan’er nodded slightly, and said lightly, “I can’t say that they are 100% similar, but at least 90%.” Such a similarity, combined with the fact that the person’s name is also charlie, there will definitely not be any problems...”

Speaking of this, he couldn’t help muttering, “Then this...then this means...the son of bruce and Lydia (Ava) is still alive. Alive?!”

Lin Wan’er swept away the previous haze, and said with a smile, “Not only is he alive, but he is also alive! He is very strong. Carrot, without any ability to resist, is really impressive.”

“Really?!” The old man was even more dumbfounded, and said excitedly, “Okay! That’s great! The excellence of bruce Wade and Lydia (Ava) , at that age I have never seen it before! When these two died young, I often feel sorry for them. I never thought that their sons are not only alive, but also so outstanding. Nothing can make people feel better than this. I am so relieved! The son of the dragon and the phoenix is indeed not a mortal thing!”

Speaking of this, the old man couldn’t help sighing, “This... this is really incredible... The child that the two families have been looking for for so many years has not been found. It’s hard to understand why the foundation can have such strength...”

Lin Wan’er smiled and said, “He must have had his encounter, and it should be a very wonderful encounter.” The

old man smiled happily, “I’m really curious, what is he How did you do it?”

Lin Wan’er nodded, and said frankly, “I’m also very curious...even some gossip...” As

she spoke, she couldn’t help muttering, “By the way, he can chase Po Qinghui ( Benn ) all the way to Northern Europe, Not only does it mean that he has grasped some clues about the Poqing Society, but he also has a deep hatred with the Poqing Society!”

As soon as the words fell, Lin Wan’er stood up suddenly, clenched her fists, danced with excitement and said, “I know! The death of his parents is most likely related to the Poqing Society! He wants to report to the Poqing Society to kill his father and mother.” Revenge! Just like me, I want to find them to avenge the killing of my father!” The

old man subconsciously said, “Did bruce Wade and Cheng Qi die at the hands of the Poqing Society back then?! If charlie wanted to be an enemy of the Poqing Society, why?”

Don't recognize his grandfather and grandfather? Both of them are extremely powerful, and they will definitely help him a lot..."

Lin Wan'er shook her head, and said seriously, "If you only have money, no matter how much money you have, it will be difficult for you to deal with the Po Qinghui ( Benn ). It's meaningless! Even the Rothschild family is not enough to look at in front of the Poqing meeting. The Poqing meeting has always been the most afraid of exposing itself, so it has always acted very low-key, otherwise, they would be able to make Rothschild overnight. Everyone in the German family has disappeared, so what if they have tens of trillions of dollars in assets? If you have money, you have to spend your life!" The

old man grimaced, nodded and said, "You are right... money is not Strength comes first."

Lin Wan'er smiled slightly, looked at the old man and said, "By the way, you must never tell anyone about this, especially the people of the Wade family!" The

old man couldn't help but said, "Miss, can you Can't you let me reveal something to Lord Wade from the Wade family? I have a good relationship with him, and he has been looking for this child for twenty years..."

Lin Wan'er shook her head, "I don't want it for now, charlie is in a special situation, and now he is with the broken child. There will be a conflict in the Qing Dynasty, if the people of the Wade family know about it and go looking for it with great fanfare, they might get angry, and you don't want to see the Wade family being ruined, and they will be targeted, right?"

"That's true..." The old man felt a little melancholy She sighed softly, and said, "Don't worry, Miss, I will keep my mouth shut!"

Lin Wan'er nodded slightly, and said, "charlie disappeared in Aurous Hill. In this case, there are two possibilities. One is that after he disappeared, he was killed." The person changed to a new identity, and was concealed by the second method you just mentioned; the other is that he was taken overseas directly after his disappearance, and has been living overseas under his name."

The old man said, "If the first possibility is possible, then you may still be able to find him in the country. If the second possibility, it may be difficult to find him in the country.

" I'm already halfway there with my real identity!" After

that, Lin Wan'er said, "I'll look for it in China first, and if I can't find it, I'll go overseas." The

old man hurriedly asked, "Miss, are you planning to go to China?" Where can I find him?"

Lin Wan'er smiled and said, "Naturally go to Aurous Hill, that is the place where he disappeared 20 years ago, all clues must start from there!" The

old man said subconsciously, "Miss, the Wade family and the An family were also They started looking for it in Aurous Hill, and after turning Aurous Hill upside down, they searched all over the world for many years, but they still couldn't find it. You are going to Aurous Hill to look for it after twenty years, will it be in vain?"

Lin Wan'er Seriously said, "Since the Wade family and the An family started from Aurous Hill and searched all over the world but couldn't find it, then in my opinion, Aurous Hill is the most likely place.

" Let's see if we can figure out his whereabouts?"

"Can't figure it out." Lin Wan'er shook her head and said, "I've tried it, and the hexagram shows flowers in the mist, so it's hard to discern his trace, but there is a reminder in the hexagram that a dragon has entered the sea. I think it should be that after charlie experienced a special encounter, he directly raised his fate to Longge in the true sense. There are countless kinds of fate in the world, and only Longge is respected. If a person has already achieved Longge, I can't figure it out anyway."
