

## The Amazing Son In Law Chapter 5401 -

charlie's heart was shocked by the old lady's words.

He subconsciously thought that the old lady hadn't been erased by his aura as he had guessed before.

This kind of thing has never happened in charlie's personal cognition.

So he subconsciously wondered if this old lady also possessed aura to some extent.

So, he tentatively asked, "Grandma, why do you ask that?"

Seeing that charlie seemed to be on guard, the old lady said frankly, "Young man, I'm just guessing.

" Forget it, she paused slightly, and continued, "When I was rescued from Mexico by those heroes, I found that not only me and my youngest son, but everyone in the car lost their memories. Everyone remembered how they were rescued. They tricked us into going there, and remember how those people tortured us, but they can't remember how we were rescued."

"Those heroes told us that they used some kind of tear gas or something, let us My memory is missing, and I believed it at first, but soon I realized another problem..."

Speaking of this, the old lady touched her right wrist subconsciously, and said seriously, "I have an ancestral bracelet , that thing looks like spatha, it may not even look worth five dollars, before I lost my memory, I was sure it was still in my hand, but when I woke up from the bus, it I'm gone..."

After that, the old lady hastily explained, "Young man, don't get me wrong, old lady didn't suspect that someone stole my things, but I suspected that it was me. During the time when I lost my memory, I gave that thing to someone else, after all, it looked worthless, and under the circumstances at that time, no one would steal it, the only possibility was that I took it off myself."

After a slight pause, the old lady looked at charlie and said seriously, "That thing is very important to me. It has been passed down by our family for more than a thousand years. If it weren't for the great kindness, my old lady would never take it out. Go, so I personally speculate that I should have given it to the benefactor myself during the period of amnesia, but I don't know what supernatural power the benefactor has to make so many of us completely lose his memory."

When charlie heard this, he was even more shocked.

She originally thought that when the old lady suddenly asked if she was their mother's savior, it was very likely that she had somehow immunized her aura.

But he never expected that the old lady in her eighties in front of him would have such a strong logical thinking.

She just combined the details before and after the loss of memory to argue that someone erased her memory.

Isaac Cameron on the side was also dumbfounded.

He naturally knew that charlie had great powers, but he didn't expect that an old lady in a big mountain could use limited clues to see through charlie.

charlie was full of thoughts at this moment.

He hadn't expected that the old lady had such thinking ability, and for him now, how to solve the problem in front of him was the key.

If you don't want to expose yourself, you can erase all the old lady's memories of Mexico, but this is obviously inhumane;

moreover, charlie feels that although the old lady has seen through him, she has absolutely no malice towards him, and there is no need for him to go too far cautious.

Now that the old lady has already driven the words here, she might as well open the skylight and speak brightly. Only in this way can she truly understand the identity and background of the old lady.

With this in mind, charlie no longer concealed it, and said solemnly, "Grandma, I brought the Chinese members of the group to hunt and kill the crazy Juarez to Mexico, and I accidentally discovered that they imprisoned so many innocent people there, so I went Someone took you all out and sent you home."

## **The Amazing Son In Law Chapter 5402 -**

When the old lady saw the bracelet, she was very pleasantly surprised and said excitedly, "It seems that my old lady guessed right...you are really the lifesaver of our mother and child!" As

she spoke, she tremblingly wanted to kowtow to charlie, and charlie But stopped her, and said seriously, "Grandma, you don't have to be like this. In Mexico that day, as long as you were a normal person, you would not just sit back and watch you people ignore you." The

old lady's eyes were blurred, and she choked up, "Thank you benefactor for saving your life! If it weren't for you, benefactor, the Jiang family would have lost its incense when it came to our mother and son..."

She said, looking up at the portrait on the wall, but what she was looking at was not the old man with the fairy wind and crane bones in the middle, but It was a child reading on one side, choked up and said, "Jiang's lineage, the recordable family tree has a history of 1,600 years from the Southern and Northern Dynasties to the present, and has gone through more than 1,000 years of wars and disasters. I don't know how to face the ancestors of the Jiang family..."

charlie took out the phoenix bone rattan bracelet that had been used for a tenth of it from his pocket, and said to the old lady, "Grandma, this is Your ancestral bracelet, if you don't know how to explain it to your ancestors, you can take it back at any time." The

old lady glanced at the bracelet made of phoenix bone rattan, and asked in surprise when she found that part of the bracelet was missing "This... this bracelet... benefactor, you... did you use it?"

charlie nodded, and said calmly, "I used a little to save people."

The eyes of the old lady were filled with awe, and she murmured, " Engong is really a person with great supernatural powers...Meng Laozu once told my ancestors that if someone can make this phoenix bone vine in the future, it must be someone who has great supernatural powers and has spiritual energy!"

charlie was even more shocked when he heard the words "the body has spiritual energy". He suppressed the shock in his heart and asked, "Grandma, how do you know this?" The

old lady pointed to three pictures In the center of the painting, the old man with the fairy wind and crane bones said seriously, "This one in the painting is the ancestor Meng, the great benefactor of our Jiang family. He has great supernatural powers and spiritual

energy just like the benefactor!" Charlie's pupils shrank suddenly, and he quickly asked, "Grandma, can you tell me the story of this old ancestor Meng in detail?" The

old lady looked at charlie, then at Isaac Cameron, and said with some doubts, "Grandpa, Forgive the old lady for being rude, but there are some things that I can only tell you, old lady..."

Upon hearing this, Isaac Cameron stood up immediately and said respectfully, "Grandma, please chat with my young master slowly, the younger generation will go outside Waiting for your son."

Isaac Cameron's words made the old lady a little surprised.

She didn't expect that the young man in his early thirties beside Charlie would have such vision.

He didn't want to mention family secrets in front of him. Not only was he not angry, but he also knew that he didn't even want his son to know what he said. He said that he would go outside to wait for his son. If he came back early, he would try to stop him.

So, the old lady cupped her hands in admiration, "Thank you for your hard work!"

Isaac Cameron also said respectfully, "Grandma, you are the one who worked hard. You talk to my young master first, and the juniors go out first!"

"Arrived outside the courtyard gate.

Only then did the old lady say to Charlie, "The people around my benefactor are really extraordinary!"

"Thank you, Grandma, for your compliment." Charlie smiled modestly, and immediately asked her, "Grandma, what is the name of this old ancestor Meng you are talking about?" "Who is it?"

## **The Amazing Son In Law Chapter 5403 -**

The old lady looked at the old man in the portrait, and murmured, "The ancestor's real name is Meng Sheng, his style name is Changming, and he was born in Chang'an. He was born in the first year of Linde in the Tang Dynasty, which is 664 AD. So he called himself Changsheng Jushi and changed his name to Meng Changsheng, Meng Laozu is the respectful name our Jiang family gave to him."

"Meng Changsheng..." Charlie muttered, never heard of this name, but he was not too surprised.

The painting itself seems to be very old, and the old lady's family has been passed down for 1,600 years. It is not so surprising that the person in this painting is an ancient person from the Tang Dynasty.

At this time, the old lady said again, "Meng Laozu was a Jinshi in high school when he was young, and he was an official in the court, but later he resigned from the official position because he got the opportunity to practice by chance, and came here with his wife and children to devote himself to practice, but his wife and children Not long after that, he died one after another due to contracting cold and cold, and he was the only one left to continue practicing

; Traveling down the mountain."

When charlie heard this, he was a little surprised and said, "In 755 A.D., the ancestor Meng was already in his nineties..."

"Yes." The old lady replied, "But according to my family The ancestor recalled that when he met Old Ancestor Meng in the 15th year of Tianbao in the Tang Dynasty, that is, in 756 A.D., Old Ancestor Meng was just like the one in the painting, not at all like an old man who was nearly a hundred years old."

charlie Looking at the painting again, I couldn't help but be amazed.

The old man in this painting is skinny but strong in spirit. In that era, the average life expectancy was no more than fifty years old, and the old man in his fifties should look older than the old man in his 70s and 80s now. .

Therefore, the person in this painting, in the background of that era, looks like he is in his forties, which is comparable to the spiritual old man in his sixties now.

But when the other party was in his nineties, he still looked like this, which proved that the other party had indeed mastered the spiritual energy!

Otherwise, even if he got one or two Rejuvenation Pills by accident, it would be difficult to live to such a great age in combination with the background of the times and average life expectancy.

At this time, charlie remembered the old lady's previous self-introduction, so he asked her, "Grandma, when we met in Mexico, you said that your ancestors practiced medicine for generations, and it was not until the Anshi Rebellion that the inheritance of medical skills was broken. Did it just happen?" When your ancestors met this ancestor Meng?"

"Yes." The old lady nodded and said, "In 756 AD, when the Anshi Rebellion was at its worst, Anlu Mountain occupied Chang'an and opened the first year of Shengwu. My ancestors He lived in Chang'an with his parents and grandfather. His grandfather and father were imperial physicians. They escaped before Anlu Mountain occupied Chang'an. All the family members of our ancestors were killed. At the critical moment, it was Ancestor Meng who slew his sword all the way to save our ancestors from the rebels. That year, my ancestors had just turned six years old."

charlie suddenly realized, "So your The ancestors survived, but the medical skills of the ancestors have been lost, right?"

"Yes." The old lady nodded slightly, and said, "At that time, all the medical books handed down by the ancestors were in the accompanying luggage. At least there is a box, but at the critical moment, the ancestor's father saw that Meng Laozu had killed all the way, so he stuffed a genealogy tree and two phoenix bone and vine bracelets into

the ancestor's arms, and then the ancestor's father burned all the medical books with fire oil , Since then, the medical skills of the Jiang family have been lost..."

charlie couldn't help sighing, "Countless classics were lost in this kind of turmoil. Your ancestors in the Tang Dynasty knew what a phoenix bone vine is, but now, the entire Huaxia even in the whole world, few people still know about this kind of thing. Our current traditional culture and Chinese medical skills are citing classics, but we don't know how many classics have long been buried in the long river of history..."

Speaking of this, charlie suddenly remembered something, Asked in surprise, "By the way, Grandma, you said there are two bracelets?"

## **The Amazing Son In Law Chapter 5404 -**

"Yes!" The old lady said firmly, "The two bracelets are made of phoenix bone rattan. They were originally a pair and were heirlooms of the Jiang family. After the ancestor was rescued by Meng Laozu, Meng Laozu recognized that the bracelet was made of phoenix bone rattan, so he asked the ancestor if he would like to give him one of the bracelets, and in return, he would like to accept the bracelet from the ancestor. As a disciple, the ancestor had no one to rely on at the time, so he naturally agreed without hesitation, and the ancestor Meng is indeed a gentleman, he only wanted one of the phoenix bone vines, and asked the ancestor to keep the other."

charlie asked again, "Then your ancestor also learned spiritual energy from this old ancestor Meng?"

"No." The old lady shook her head and said with emotion, "It is said that those who are gifted to master spiritual energy are hard to find among millions of people." Firstly, if one does not have this talent, one will not be able to step into the door of spiritual energy even if one spends a lifetime of hard work, not to mention my ancestors, even the wife and children of ancestor Meng do not have this talent..." The

old lady pointed at The picture on the wall of a child reading a book introduces, "My ancestors didn't have that talent, so they became a servant boy next to Old Ancestor Meng. He said he was a servant boy, but in fact he was more like the adopted son of Ancestor Meng. He kept him by his side and taught him to read and paint. These three paintings were all made by my ancestors when they were old, and the last one is his self-portrait when he was old."

charlie sighed with emotion, "It seems that this Meng The ancestor is indeed a man of gods, not only has great supernatural powers, knowledge, fine painting, but also compassion, which is really rare..."

"Yes." The old lady nodded slightly, and then said, "My ancestors followed the ancestors of Meng. I have lived around sixty Years, until 820 A.D., Yuanhe fifteen years of the Tang Dynasty..."

“Ancestor Meng at that time was nearly 160 years old, and our ancestors were also 71 years old. That year, Ancestor Meng told my ancestors However, if his cultivation still fails to break through, or if he cannot refine the elixir he wants, he may not be able to live to be two hundred years old, so he decided to find another more suitable cave and concentrate on retreat; “

“Master and servant When we parted, Ancestor Meng gave some money and a pill to our ancestors, and ordered our ancestors to enter the world to live. He promised my ancestors that when he finds the way of longevity, he will definitely come back to increase the chances of our ancestors; “

“My family Although the ancestors were reluctant to part with each other, they also knew that the relationship between the two masters and servants was over, so after the two said goodbye, the ancestors of my family entered the world and married a woman in Jiangyang Mansion not far from here to continue the incense; “

“After marriage Three years later, he brought his wife and children back here to settle down again, hoping to stay here to guard the mausoleum of Meng Laozu’s wife and children. At the same time, he also hoped to wait here until Meng Laozu came back. More than a thousand years...”

charlie was a little puzzled in his heart, and said, “Your ancestor was already seventy years old when he parted with Meng Laozu, and he was able to go down the mountain to get married and even continue the incense. It’s really unbelievable, could it be possible to rely on the elixir given by Old Ancestor Meng before leaving? “

“That’s right. “The old lady sighed, “Ancestor Meng gave my ancestors two pills, one was given by my ancestors when they were fifty years old, and the other was given when they parted. Xun said that these two elixirs are the most precious treasures in the world. Just taking one can make a person 20 years younger. Therefore, when the ancestors entered the world and got married, although they were already 70 years old, they looked like they were only 30 years old. age. charlie was shocked, and blurted out, “

Grandma, is the elixir that Ancestor Meng gave your ancestors called Huichun elixir?” ! “
