

The Amazing Son In Law Chapter 5409 -

The old lady Jiang didn't know that the pill that Charlie took out was the Rejuvenation Pill that the ancestors of the Jiang family told the descendants.

In the past thousand years, the Rejuvenation Pill has been an elixir to the Jiang family. It is a legend that only exists in the memories of the ancestors, and it is impossible for him to see the real thing in his life.

Therefore, even the old lady Jiang at this time did not think that this elixir would be the famous Rejuvenation Pill.

However, even though she really thought that this was just some kind of pill made by Charlie himself, she still said without thinking, "Grandpa, you are so kind to us, how can I..."

Charlie knew that she still wanted to keep the same old tune. He played again, so he said casually, "It's okay, but it's just a random pill, just like you use your own bacon to entertain guests."

. When the wife heard this, she was also afraid that she would keep refusing to make Charlie angry, so she said cautiously, "Then thank you benefactor!" After saying that, she took the Huichun Dan from Charlie's hand.

Charlie reminded, "Grandma, you might as well eat it and try it." The

old lady Jiang nodded slightly, and then put the Rejuvenation Pill into her mouth.

Originally, Mrs. Jiang wanted to swallow it with water as soon as she swallowed it, but she didn't expect that the elixir would turn into a different kind of medicinal power as soon as it was ingested, and quickly spread throughout the body.

Before she had time to be shocked, she felt as if her whole body was like a spring breeze, as if some kind of change was happening rapidly all over her body, which made her feel an unprecedented sense of comfort.

What she couldn't see was that most of her already white hair had turned black in an instant, and the wrinkles on her face had also lightened a lot, making her look much younger.

However, at this time, Mrs. Jiang had already realized through her own feelings that this elixir was very miraculous and extraordinary, so she couldn't hide her shock and asked Charlie, "Grandpa, why does the elixir you gave me feel so good?" "Magic?!"

charlie smiled slightly, and said calmly, "Because the elixir I gave you is the Rejuvenation Pill."

"Rejuvenation Pill?!" The old lady Jiang looked horrified, and murmured, "Grandpa...you...how could you have rejuvenation pills...and...how can I, a bad old woman, be worthy of this kind of elixir..."

charlie said lightly, "Grandma, you can look in the mirror, you Now the whole person looks twenty years younger."

Mrs. Jiang subconsciously found a broken mirror and looked at it, and her whole body was struck by lightning!

charlie said again at this time, "Take this Rejuvenation Pill, and the matter of helping your son take care of his grandson will be sure. The Rejuvenation Pill can help you prolong your life by twenty years. If your son pays close attention, maybe you can still see your grandson." Get married."

"This... this..." Mrs. Jiang was both happy and anxious, pacing on the same spot, muttering in her mouth, "What can I do... What can I do..."

charlie smiled and said, " Grandma, there is no need to worry about this anymore. The problem now is that you have suddenly become so much younger. If you still live here, the neighbors will be very surprised. If it gets out, it may bring you Trouble, so in my opinion, you pack up and go with us tonight. We will send you to Shudu and help you and your son settle down. You don't have any relatives or friends. When you arrive in Shudu, you will be everything Starting over, your son can run his own business and find his love there, and you can live with him with peace of mind, and even have the energy and physical strength to help and help him, which is beneficial and harmless."

charlie's words touched Old Madam Jiang completely. She burst into tears unknowingly. Because her body suddenly became much younger, she suddenly knelt down in front of charlie, kowtowed heavily, and said reverently, " Thank you benefactor for your great kindness, the old woman

will never forget it!" charlie helped her up, and joked, "Grandma, you don't need to thank me, you have already eaten my rejuvenation pill, and your phoenix bone vine bracelet, I don't need it." I won't return it to you."

Mrs. Jiang quickly waved her hand and said, "I gave the bracelet to my benefactor, even if you don't give me this Rejuvenation Pill, I will never let you return it..."

charlie smiled and said, "Then it's the best, I think it's almost time, you can start packing up quickly."

Then, Charlie asked again, "You'd better only bring what you need to bring, food and clothing. You don't have to take it with you, the car can't hold so many things, and I've already had people complete it in Sichuan." The

old lady Jiang nodded again and again, and said seriously, "I only take the tablet of the ancestors, and these three things. A painting with..."

After saying that, he immediately started packing.

Because the tablets and paintings belonged to the ancestors of the Jiang family and other ancestors, they were of great significance to the Jiang family, so Charlie didn't intervene.

Mrs. Jiang carefully put away all the memorial tablets and put them in her package, then put the three paintings away one by one and put them into scrolls.

However, she only put two of the paintings into the package, and she did not take the portrait of Mason painted by the ancestors of the Jiang family. Instead, she put both hands in front of Charlie, and said seriously, "Grandfather! , you are a person with great supernatural powers, if Old Ancestor Meng really finds the way to longevity, you may have a chance to meet him in the future, so I will give you this portrait of Old Ancestor Meng!"

Charlie was slightly startled, and declined without hesitation, "Grandma, this is a family heirloom left by your ancestors, how can I take it away? You should keep it well!"

Mrs. Jiang suddenly knelt. Kneeling down, holding the painting scroll in both hands, he said very persistently, "Grandfather, the old lady took Yao'er to leave here with you today. In my heart, I have already made a decision for me, my Yao'er, and his future generations." , gave up the opportunity to wait for the ancestor Meng; "

"After leaving here, from now on, the Meng family only needs to know that the ancestor had such a miraculous experience, and does not need to know that the ancestor Meng also made a promise with the ancestor;"

"What's more, after we leave here, even if

Ancestor Meng is still alive, even if he finds us, it is impossible to find us; Death, in case you meet him after so many years, with this painting, maybe you can achieve a friendship, if you don't accept this painting, my old woman won't get up!"

Charlie heard all these, I sighed in my heart, "The possibility that this old ancestor Meng is still alive is infinitely close to zero. Even if the "Nine Xuantian Jing" was written by him, I am afraid that he will not be able to live until today, fourteen or five hundred years. If you want to live for such a long time, you need far more than spiritual energy and pills."

However, Charlie saw that the old lady insisted, so he didn't say any more, took the scroll with both hands, and said solemnly, "In this case, then this painting, the younger generation will accept it, don't worry, the younger generation will take good care of it! Please get up quickly!"

Mrs. Jiang was finally relieved, and then she stood up.

At this time, the old lady Jiang's voice came from outside the door, "Hey, dear guest, why are you standing outside the door? I just hunted two pheasants, which are fat and fat. I will kill them and give them to you. The two of you are fried and eaten!"
