

The Amazing Son In Law Chapter 5439 -

At this moment, Aurous Hill University.

Although Qiu Yingshan's family vehicles can enter and exit Aurous Hill University at will, Mia (Liu Manqiong) got off the car on the side of the road a few hundred meters earlier in order to keep a low profile.

When she came to the school gate, she wanted to take the initiative to explain her intentions to the security guards and ask them to allow her to enter, but unexpectedly, as soon as she arrived at the gate, a young woman greeted her and asked enthusiastically, "Are you Miss Mia (Liu Manqiong)?" ?"

Mia (Liu Manqiong) asked in surprise, "Who are you?" The

other party quickly introduced himself, "Hello Miss Mia, I am Khloe from the Human Resources Department of Aurous Hill University. I am afraid that you will not find a place when you come, so I will wait for you here in advance. "

Mia (Liu Manqiong) hurriedly said, "Thank you so much, and you have worked so hard to make a special trip..."

Khloe said with a smile, "No hard work, no hard work, you are the talent our director named to focus on, and she talked about you several times in front of us Yes, I'm very optimistic about your resume."

Then, she looked at the time and said, "There is still half an hour, why don't we go in, and I will show you around!"

Mia (Liu Manqiong) was a little flattered, and said, "Thank you Already !"

"You're welcome!"

Khloe drove the school's sightseeing battery car, took Mia (Liu Manqiong), and took a tour of the whole school.

Mia (Liu Manqiong) didn't have to wait for the entire school to transfer, but just entered the school, and immediately fell in love with this place.

Perhaps it was because of charlie's filter, she felt that everything within sight of Aurous Hill University was so pleasing. The huge campus looked very open, and the architecture was quite elegant. Even the trees, flowers and plants were beautiful. It looks extraordinarily lush.

In short, everything is good.

And Aurous Hill University's attitude towards her, as Sister Xian said, is definitely a thirst for talent.

In the past two years, Aurous Hill University has been paying great attention to the recruitment of Hong Kong Island and foreign lecturers and professors, and even spent a lot of thought on this, but with little success.

Many high-achieving students who graduated from Hong Kong Island or overseas top universities, if they are interested in teaching, can generally apply directly at this school more smoothly.

Moreover, the international ranking of Aurous Hill University is indeed much lower than that of Hong Kong Island University and other famous universities in the world. Take Hong Kong Island University, which Mia (Liu Manqiong) graduated from, as an example, QS ranks 21st in the world, while Aurous Hill University ranks 133rd in the world, the gap is not a little bit.

Therefore, for Aurous Hill University, doctoral students are easy to recruit, but it is not so easy to recruit doctoral students who graduated from the top 5 universities in Asia and the top 30 universities in the world.

What's more, Mia (Liu Manqiong)'s grades in Hong Kong University are excellent. From undergraduate to master's degree, almost all of them stand out with the best grades. In the eyes of several interviewers of Aurous Hill University, this is simply a treasure.

During the interview, the three interviewers were very satisfied with Mia (Liu Manqiong)'s resume background and actual performance in the interview. The director in charge of human resources had even begun to prepare a press release for Mia (Liu Manqiong) after joining the job. The most eye-catching stroke in the introduction plan.

Moreover, Mia (Liu Manqiong)'s appearance, figure, and temperament are all one in a million. The gimmicks such as beautiful class tutors and beautiful lecturers are too easy to hype on social media today. With countless fans, Mia (Liu Manqiong), a natural and unadorned top-notch beauty, will definitely spark more discussion and pursuit.

The Amazing Son In Law Chapter 5440 -

Because of everyone's extraordinary satisfaction with Mia (Liu Manqiong), the director of the Human Resources Department of Aurous Hill University was afraid that there would be any changes in this matter, so he wrote a line on a white paper during the interview, which read, "Too excellent!" , There must be a lot of schools staring at it, and I suggest that re-examination be waived and be confirmed as soon as possible!"

Although this lady is the person in charge of the human resources department, the decision to hire or not is in the hands of one of the vice principals.

The vice-principal saw the words on the paper, and wrote two words “Agree.”

Then, he pushed the paper in front of another interviewer, and the other interviewer quickly followed “Agree”. wrote a “+1”.

So, the three of them passed messages to each other by means of notes, and made an unprecedented decision.

At the end of the interview, the woman who was about forty years old stood up, smiled and said to Mia (Liu Manqiong), “Miss Liu, since your resume and qualifications are very suitable for our positioning of young talents, after the unanimous decision of the three of us, , now I can give you a clear answer, you are hired!”

Mia (Liu Manqiong) asked in surprise, “I don’t need to take the re-examination or written examination?”

The woman smiled and said, “No, although our normal recruitment process requires One-sided, two-sided and written test, but only one part is an essential link. Both the second-sided and written test can be adjusted according to the actual situation. The three of us feel that your situation in all aspects is very suitable for us. needs, and you live in Hong Kong Island now, we don’t need to make you go back and forth again and again. If you are sure that you are willing to stay in our school to teach, then please adjust your itinerary and stay in Aurous Hill for one more day. The three of us have completed the recruitment process today and prepared the signing materials, and we can formally sign the contract tomorrow morning.”

After that, she looked at Mia (Liu Manqiong) expectantly and asked, “What does Miss Liu think? Now we can also sign the contract.” Are you sure, or do you want to go back and think about it?”

Actually, these three interviewers were more nervous than Mia (Liu Manqiong).

Mainland almostAll the double-first-class universities are very interested in talents like Mia (Liu Manqiong), and almost all of them have similar young talent introduction plans. With Mia (Liu Manqiong)’s conditions, interviews for the position of ordinary lecturers, any university in the mainland, as long as it is fair and just There is absolutely no difficulty in competing.

They also don’t know why Mia (Liu Manqiong) chose to come to Aurous Hill to develop as a native of Hong Kong Island. They are worried that Mia (Liu Manqiong) has no special feelings for Aurous Hill. Tomorrow Mia (Liu Manqiong) will sign to another school.

Mia (Liu Manqiong) didn’t know what the three of them were thinking. She originally thought that the interview would be a one-stop process, but she didn’t expect to get the

offer from the other party in one step. This was naturally the most ideal result for her, so she said without thinking "I'm fine!" The

other three were also relieved, and the woman said, "Since everyone is fine, let's sign the contract here at nine o'clock tomorrow morning. I will prepare the contract in advance. Just bring the relevant documents, and you don't need to prepare copies, we can make copies everywhere."

"Okay!" Mia (Liu Manqiong) said with a smile, "Thank you for your approval, I will come here on time tomorrow morning."

What did the woman think of and said to her Said, "By the way, Ms. Liu, in view of your special situation, we can provide you with a teacher's apartment. I can show you around tomorrow, or you can choose a room first."

Mia (Liu Manqiong) originally wanted to say that she planned to buy a suite in Aurous Hill, It will not take up school resources.

But after thinking about it, housing prices in Aurous Hill are not cheap. I have just graduated and bought a house before I have a formal job. In the eyes of others, it may be too ostentatious. Why not accept the apartment arranged by the school, and then quietly Buy a suite.

Thinking of this, she said, "Thank you so much!"

The Amazing Son In Law Chapter 5441 -

Mia (Liu Manqiong), who was confirmed to be hired, walked away from Aurous Hill University by stepping and jogging all the way.

Everyone didn't expect that such a beautiful woman with an intellectual and cold face would be bouncing around on the side of the road like a child. The huge contrast was truly astonishing.

Mia (Liu Manqiong) left Aurous Hill University, walked a few hundred meters and turned a corner. Sister Xian and the driver of the Rolls-Royce were still waiting in the parking space on the side of the road.

Seeing Mia (Liu Manqiong), Sister Xian got out of the car immediately, and said with a respectful smile, "Miss Mia is so happy, it seems that you must be very satisfied with the results of today's interview."

Mia (Liu Manqiong) was very happy, and said with a smile, "Sister Xian, with your good words, I have passed their interview and received the employment notice, I will change the itinerary and sign a formal contract with them tomorrow morning, so that I can wait for the job with peace of mind."

“That’s really great!” Xian The elder sister was also very happy, and quickly said, “Miss Mia has won the flag today, and I have to celebrate everything I say. I will call my husband and tell him the good news.”

Then, she asked Mia (Liu Manqiong), “Miss Mia wants tonight?” What to eat? I will cook tonight myself!”

Mia (Liu Manqiong) said with a smile, “Thank you, sister Xian!”

After she finished speaking, she thought of something, and hurriedly said, “By the way, sister Xian, can you take me to see the room first? It’s what you had before The real estate of Tomson Yipin I mentioned, if it is suitable, I will buy the house today, and try to finish all the things that should be done this time.”

Sister Xian said without thinking, “No problem, then we will now Just go there first, and I’ll take you to the sales office.”

Aurous Hill’s Tangchen Yipin real estate was indeed very popular when it first opened, but more than a year has passed, and the real estate has not been completely liquidated. Although the villa was snapped up Sold out, but there are still a few houses for sale on the flat floor.

The reason is that the overall positioning and pricing of the real estate are relatively high, and it is a typical high-low distribution area.

This kind of high-low residential area mainly focuses on high-end villas. If possible, the developer is more willing to build it into a pure villa community, but in order to meet the requirements of the management department for the floor area ratio, they have to allocate part of the land for Build high-rise residential buildings.

The real rich basically bought those expensive villas ranging from tens of millions to more than one hundred million. The remaining flats of more than 10 million to more than 30 million, the positioning is a little embarrassing.

Those who can spend so much money to buy a house are not considered top rich, but at least they are middle class.

The arrogance of the middle class is actually very strong. In the minds of most of them, they are also the elite class of society, so naturally they would rather be chicken heads than phoenix tails.

When they buy a house, they are more willing to buy those communities that are purely flat and not positioned so high-end, and then buy a large-area building in it.

The last thing they want to buy is this kind of high-low residential area. Obviously, they already have tens of millions of net worth. If they buy this community, not only will they

not get any sense of accomplishment, but they will be overwhelmed by villa owners every day. .

If you live in a medium-sized community, driving a car worth more than one million yuan is basically considered top-notch, but in an ultra-high-end community like Tomson Yipin, it is no exaggeration to say that even working in a villa The aunts who go out to buy vegetables may not be able to compare. In the underground garage of the community, more than 3 million cars account for more than half, and the cars below 3 million are basically the kind that are produced in the eastern island country. An aristocratic nanny car with a price increase of hundreds of thousands.

In this environment, driving a Mercedes-Benz S, or a BMW 7 Series, I'm afraid I'm really embarrassed to say hello to my neighbors.

When Christopher's family came here to look at the house, Harold once said a very classic sentence. He felt that living in this community was to stand guard and block bullets for the rich people in the villa area inside.

Because of such awkward positioning, Tomson Yipin's villas were almost empty after opening, but these flats have been sold until now.

Fortunately, Mia (Liu Manqiong) didn't care about these things.

She just wanted to find a suitable house near the school to be her boudoir.

The Amazing Son In Law Chapter 5442 -

And her requirements for the house are that the transportation is convenient, the environment is good, the decoration is good, the real estate positioning is relatively high-end, and the cultural environment is not so noisy and low-quality, so that it is more worry-free to live as a girl.

When she was sitting in a Rolls Royce and arrived at the sales office of Tomson Yipin in just ten minutes, she had already decided in her heart that she would buy this complex.

Because the transportation from this community to the school is really convenient, and Tomson Yipin itself is already positioned as the best in the vicinity, so she knows without looking. There is no place for me to look at.

Although I have a lot of requirements for the house, the convenience of transportation is indeed a very, very important part.

When they arrived at the sales office, Sister Xian naturally accompanied her all the way.

Compared with the hot scene when the market just opened, it has been much deserted at this time.

When the sales lady saw a Rolls Royce parked by the side of the road, she was already in high spirits. When the two walked out of the Rolls Royce and came all the way to the sales office, the sales director going out in person, he enthusiastically opened the door for the two of them, and said respectfully, "Welcome to Tomson Yipin, do you want me to introduce the specifics of our project to you?"

Mia (Liu Manqiong) nodded, and then glanced at the sales office. The huge and exquisite sand table in the center pointed to the row of high-rise buildings near the river, and asked, "Is there any room in this building?" The

sales director immediately said, "Yes! This building is our normal building. The building king on the first floor has a very good view, and with our super large floor-to-ceiling viewing windows, you can have a panoramic view of the first-line river view!" Mia (Liu Manqiong)

asked her, "Can you introduce the apartment type?"

The largest one here, with a building area of 240 square meters, has two and a half balconies and an purely gifted equipment room, the total usable area of the balcony exceeds 80 square meters. Although the equipment room is called an equipment room, in fact, our large-scale equipment has a dedicated equipment well. The usable area of the equipment room is about 16 square meters, which is equal to It is just a bedroom for free, and we have closed the balcony when we finished the decoration, so it can be used as an indoor space. The sum of these two items is equivalent to giving you more than 50 or nearly 60 square meters of usable area. The usable area is more than 250 square meters. "

Mia (Liu Manqiong) said with some doubts, "two hundred and forty plus sixty, how can it be more than two hundred and fifty?" "The

sales director said in surprise, "Except for the shared area, our shared area is almost 20, which is considered to be very low in high-rise residential areas. "

" Common stall? "Mia (Liu Manqiong) was also very surprised. She has lived in a villa since she was a child, and has never bought a house or apartment by herself. In addition, she has been concentrating on her studies, so she really doesn't know much about these real estate concepts. Moreover, although the shared area is Hong Kong Island Shoushan's great invention, but Hong Kong Island has abolished this concept ten years ago.

Sister Xian pulled Mia (Liu Manqiong) aside and whispered for a while, before she understood that this concept was actually the first in Hong Kong Island.

However, more than two hundred and fifty square meters is completely enough for a girl like her, and even a little too big.

So she asked the salesman, "Is this the only type of apartment in Linjiang? Is there a smaller one?" "The

sales executive said truthfully, "The building king is this type of apartment. It is one elevator, one household, and the elevator enters the household. If you don't mind the view, you can take a look at the building behind it. There are 180 square meters in that building. house type. Mia (Liu Manqiong)

looked at the approximate location, shook her head and said, "Forget it, let's take a look at this building, is there still on the top floor?" "The

salesman nodded." Yes, there is another house on the top floor that was just cleared some time ago. He paid a deposit of one million yuan, but the loan was not approved, so he cleared it out. "

Mia (Liu Manqiong) said without hesitation, "Okay, that's the set." "
