

The Amazing Son in Law Chapter (Charlie Wade)

CHAPTER 2613

When Hank said these words, Charlie knew in his heart that he had no possibility to persuade him to cooperate with himself.

Moreover, he also understands a truth, that a gentleman is not too difficult for others.

He did not make any further efforts, and said very seriously: "Professor Hank, I understand what you mean, I'm sorry, I was too reckless."

Hank hurriedly waved his hand and said, "Don't blame you, it's my own knot. Now that I have promised my deceased wife, I must abide by my promise and not be unbelievable on this kind of issue, so don't blame me in the past.

Charlie hurriedly said: "How come, Professor Hank, I understand you 100% decision.

Hank pleased smile, then think of what, on the leaves said: "Charlie, in fact, if you want the leaves home and family in front of the Soviet Union, to ensure the absolute advantage, did not need to bother to personally engage in ocean shipping,"

Charlie Curiously asked: "Professor Hank, what do you mean?"

Hank seriously said, "I think you can go to the United States to find your grandfather. With him as your backing, you don't have to worry about the Banks family or the Wade family, because even The Banks family and Wade family are tied together, and they are not your grandfather's opponent.

Charlie was dumbfounded, and blurted out: Professor Hank, my grandpa really has such a strong strength?

Hank seriously said: "Strong? More than being strong! There are three big wealthy families in the world, each of which is rich and powerful, one is the Rothschild family in Europe, the other is the Saudi royal family in the Middle East, and the other is the Chinese in the United States

. Settle home!" Hank said, "You know How much wealth did your mother create for the settlement?

Charlie shook his head and sighed with shame: "You said Professor Hank, I don't know much about the grandfather's family. One is that I was too young back then, my mother. Although I have taken me to my grandpa's house several times, I don't know much about the grandpa's house. Another thing is that, in my impression, the relationship between my mother and my grandpa is not very good.

Yes. Hank nodded and said: "Back when your mother and your dad came together, and wanted to return to China with him and marry into the Wade family, your grandfather was very dissatisfied because your grandfather didn't look at the Wade family at all. The Wade family does not deserve to be his in-laws. As he

said, Hank said earnestly: "Actually, your grandfather was not wrong. The Wade family was indeed the same thing back then. Although it was very good in China, it was really impossible to get on the stage if it looked internationally."

Charlie asked curiously: "Then what kind of industry does my grandfather's family do?"

Hank said with emotion: "Your grandfather's house, you do almost everything. You should have a certain amount of business in the industry you can think of. They are extremely low-key. They have thousands of companies around the world, but on the surface, these companies have nothing to do with him, and he and his family rarely show up on their own. This is the same as the Rothschild family.

"The current industry of the Rothschild family is not too much to outsiders, but the key is that the Rothschild family has more than one bank and holds many shares in disguised form in many banks."

"Owning a bank ." It is tantamount to controlling finance, and almost all companies now need to finance and go public through banks."

"So, a large family like this will naturally invest in many start-up companies through a large number of venture capital funds, stock funds, and. Listed companies, among the top 500 companies in Europe and the United States that you can see now, almost all have shares in the Rothschild family, but their shareholding structure is very secretive and ingenious, and outsiders can't see it.

Having said this, Hank said with a look of admiration: "The operating route of Anjia is similar to that of the Rothschild family. So, what exactly your grandpa has; maybe he doesn't know how much money, so I don't know how much. .

"However, I know that the venture capital fund established by your mother in Silicon Valley that year, the size of the entire fund pool exceeded 10 billion U.S. dollars 30 years ago.

Other funds want to raise so much capital, but I don't know how many rich people they need , Even investing in retail investors to raise funds, but all the funds your mother used back then came from Anjia!

Moreover, over the years of development of Silicon Valley, I believe most people have heard of it. A large number of Fortune 500 companies were born here, and a large number of top IT tycoons were also born here. "

Google, Apple, Yahoo, Cisco, Oracle, Tesla, and other top high-tech companies have all stepped out of Silicon Valley. "

They have come to this day, and their market value has increased thousands of tens of thousands of times, and the incremental space is extremely huge!

"Any stockholder, if he bought Apple shares 20 years ago, his current income would be more than three hundred. Four hundred times.

"But did you know that your mother invested in Apple with the venture capital fund she set up before you were born!"
