CHAPTER 2650 Part 1

After the plane entered Syrian airspace, Anthony used a tablet to open a map of northwestern Syria and said to Charlie: "Master, it is cloudy today. Although the visibility is not high, it is still easy to be spotted by the other party during the day. The scheduled landing place is here." As

he said, he pointed at a location on the screen, and his fingertips drew a red circle on it, and then another arrow pointed to a valley: "And here is yours The destination, your drop point is about five kilometers away from your destination. After you land on foot, it is safer."

Charlie waved his hand: "It was originally a mountainous area. across two hills, do not know how long it takes, there is no better way? "

Lane.

. "This," Anthony hurried look to Vasily

Vasily some embarrassing opening: "Master Wade, if you are too close to the impact point parachuting them, it is likely you have not landed, they had your eye on, so This is also for your safety."

Charlie said lightly: "It's okay, I have a way to

prevent them from discovering me. Anthony had no choice but to take out an engineering plastic box from under the seat. After opening it, there were two dark ones inside. Pistols, a bunch of bullets, a tactical dagger made of stainless steel, and a few grenades, said to Charlie: "Master, you should bring all these weapons and equipment in case you need them.

Charlie shook his head and said: "I don't know how to use a gun."

Anthony exclaimed: "You don't know how to use a gun?! How can you defend yourself when you go this time?"

Charlie smiled and said, "I dare to go alone. Naturally, there is a way of self-defense, but it is not just using a gun.

Charlie knew clearly in his heart that one individual would sneak into the quarters of thousands of native soldiers, and it would be impossible to solve the problem with a gun. This kind of thing can only be wise.

If you want to rescue Ziva Hank alive, you can only go in quietly and come out quietly, and you must not go to war.

Otherwise, it is very likely that you will be stunned and even take your own life into it.

Therefore, guns and grenades are absolutely unusable. Once they are used, they will immediately become targets in the eyes of thousands of soldiers.

Anthony couldn't help being worried when he saw Charlie didn't wear any weapons.

This time, LORD Wade asked him to help Charlie. He didn't ask for merit, but he wanted nothing. But seeing Charlie going to do this kind of life-long thing, he was shocked and trembled. If Charlie never returned this time, He must be punished by the old man.

So, he hurriedly handed Charlie another piece of paper and said to Charlie: "Master, there are some words written in English and Arabic on it. If you are discovered by them, you should give this piece of paper to them immediately. As long as they see this piece of paper, they will definitely not embarrass you!"

Charlie asked with great interest: "What is written on it that is so capable? After speaking, he opened the piece of paper.

Arabian Charlie does not understand the language, but he has learned English as a second mother tongue since he was a child, so he can see this passage clearly at a glance.

The meaning of this passage is actually very simple, just a paragraph of content, which probably means: "I It's the son of the Chinese Wade Family. Don't kill me. As long as you make sure that I'm intact, my family can give you fifty million dollars!

Charlie couldn't help but sneered after reading it. In my opinion, things are really useless." After that, he tore the paper to pieces.

Just when Anthony was stunned, Charlie took the tablet computer in Anthony's hand again, drew a red circle on a mountain about 20 kilometers away from the destination, and said to him: "From the beginning of my parachuting, Six hours later, you arrange for a helicopter to pick me up here!"
