

The Amazing Son In Law (Charlie Wade)

2773

The biggest difference between Elms family's Qi Buqi San and Charlie's Sanxue Jiuxin Pill is that it is not actually the medicinal effect,

but the medicinal properties.

The so-called medicinal properties refer to the basic properties of the medicine.

Still use the analogy just now.

The Blood Rescue Pill is a heavy bomb used in the military.

And Buqi San is just an ordinary firecracker.

The difference is not only in the energy of the explosion, but also in its fundamental nature.

For example, a military bomb can blast through a one-meter-thick steel plate and blast through a 10-meter-thick concrete fortification.

However, the ordinary gunpowder used in ordinary firecrackers cannot blast through a one-meter-thick steel plate. The fundamental gap.

This is the case with Elms's Qi San.

One pair per month is like eating an extra meal of big fish and meat every month.

It can indeed increase nutritional intake and improve physical fitness to a certain extent, but by eating this kind of food,

wanting to eat a masterpiece is simply a dream .

In contrast, the blood-saving heart-saving pill given by Charlie is simply an unprecedented panacea!

Xion also felt the same way.

She has always been regarded as one of the top-quality descendants in the Banks family,

so she used to get at least 3 Fu Qi San and Xing Body Decoction every month, but these two medicines gave her the feeling that she was better than nothing.

Can't reach the point where people can make progress

by leaps and bounds.

However, the pill given by Charlie contained surging internal power, which not only instantly improved the meridians,

but also strengthened the entire body from the inside and outside.

Moreover, this internal force is not like a scourge of wild beasts running rampant in the body,

but very meticulously nourishing the whole body from the inside and outside repeatedly. It feels like every cell of the whole body is following the pill.

The efficacy of the medicine is improved.

What surprised her most was that the third meridian that she had not been able to break through, that is, the Chong Mai in the eight channels of the odd meridian,

also broke through silently at this moment!

This kind of breakthrough is not as majestic as thunder on the ground, but it is as smooth and natural as it happens,

as simple as piercing a layer of window paper!

Moreover, the Governor Vessel, which had been opened up, was about to break through 40% to 50%!

You know, for so many years in the Elms family,

only one person has opened up the three levels of meridians, and that person is Xion's grandfather, Wilfred (LORD Elms).

Although Wilfred (LORD Elms) opened up the three meridians,

his three meridians were not as smooth as Xion.

It can be said that with Charlie's pill, Xion's strength suddenly became the top one in the Elms family,

at least doubled on the previous basis!

How could she not be excited by such a huge opportunity!

And her mother Kairi Elms – Xion's Mom also benefited a lot!

The eight channels of her strange meridian are the same as those of Xion.

They only open up the second channel of Ren and Du. Among them, the Ren channel is through 50% and the Du channel is through 20%.

However, after taking this pill, the powerful medicinal effect made her Ren Vessel directly succeeded,

and the Governor Vessel also broke through to 40%.

It can be said that her current strength is on par with that of Xion before taking the medicine.

You know, before taking the medicine, Xion's meridians have been dredged through by Charlie with aura.

Renmai Dacheng not only improved her cultivation a lot, but more importantly, it laid a better and more stable for her future cultivation.

Foundation.

And now, Kairi Elms – Xion’s Mom also has the same excellent foundation.

After the two of them had almost absorbed the power of the medicine, Kairi Elms – Xion’s Mom took the lead to recover,

looking at Charlie with an almost god-like look, and knelt on her knees again, reverently and with great respect and said,

“Thank you, Master Wade for your gift. Given such a precious pill for me and Xion, your great kindness is unforgettable !”

Xion also knelt on the ground subconsciously, and said excitedly: “Master Wade, thank you for your pill...

This pill must be very expensive, right?”

Charlie smiled indifferently: “Of course Its expensive. This medicine has a price but no market.

No one has it except me.”

After speaking, Charlie asked her: “Xion, I think you have used the medicine to get through the pulse just now,

and your strength has almost doubled. Congratulations!”

Kairi Elms – Xion’s Mom was stunned when he heard this, and blurted out: “Xion, you...you have gotten through the pulse!?”

“Yes...” Xion choked with red eyes: “Mom, my pulse has been opened up...”

Kairi Elms – Xion’s Mom was so excited that he burst into tears:

“Since your grandfather opened the Chongmai 40 years ago,

there has not been a second person who can open the Chongmai for 40 years...Today you finally got through... ..”

Xion couldn’t help looking at Charlie.

At this time, the image of Charlie in her mind was no

one can match.
