She really couldn't understand why Charlie had such a powerful strength and ability.

For the first time, he just gave himself a pulse, but he didn't expect to help himself completely open up the whole Ren pulse.

This time, he just gave himself a pill, but he didn't expect to help himself get through the third meridian.

For the average person, these two huge breakthroughs are rare in a lifetime.

Many people have spent their entire lives cultivating hard and practicing hard, but they have not been able to completely open up the Ren pulse.

And more people tried their best to practice martial arts, but they failed to get through the three meridians to death.

But in a short period of time, he encountered two great opportunities one after another.

Moreover, the two huge breakthroughs were all easily accomplished with the help of Charlie in a flash.

It also means that Charlie can make a huge breakthrough for martial arts practitioners of his own level while talking and laughing.

From this point of view, Charlie's strength may be at least a hundred times or a thousand times his own!

Kairi Elms – Xion's Mom was very excited.

The surprise she received today is too much. Not only is her daughter still alive, she has also made a huge breakthrough in her cultivation.

Is there anything more exciting than this?

Moreover, he was also touched by his daughter's light,

and he completely opened up the Ren Vessel in one leap

, and his strength suddenly doubled. It was simply a god-given opportunity.

It was this young man in his twenties who gave him this series of surprises and opportunities.

So, she looked at Charlie and said sincerely: "Master Wade, the whole Elms family, would like to see you as the head of your horse!

Everything will follow your dispatch!"

Charlie smiled indifferently, and said: "I am also now at the time of employment.

If the Elms family is willing to fully cooperate with me, then I can provide the Elms family with five medicinal pills each year for an additional 100 million yuan!"

Kairi Elms – Xion's Mom was immediately ecstatic when he heard the words "Five Pills".

She thought about her family, so she immediately thought:

"One pill can double the strength of a person. With five pill every year, at least why can Elms family cultivate five first-line masters,

or train two super first-line masters? Master!"

"If the pill will continue to be allocated to these outstanding talents in the second year, it will definitely increase their strength further!"

"If every year in the future, Xion can get a pill from it, then after four or five years, she may be able to get through the fourth meridian,

and her strength will rise to a level again!"

"You know, the whole Elms family has so many years of history, and there is only one master who can get through the four meridians!

And with Charlie's medicine, if Xion is very likely to become the second in the Elms family's hundreds of years of martial arts history. people!"

"If you give the Elms family ten years, Xion can even get through five meridians! And in the whole Elms family,

there may be several more masters who can get through three or even four meridians!"

"In that case, the strength of the Elms family will be greatly improved! It may even become the number one martial arts family in the country!"

"Ten years sounds like a long time, but in the long history of the Elms family for hundreds of years, it's just a blink of an eye!"
