“Billions?!”

As soon as the check was taken out, Yoel on the side was startled.

This amount is indeed a bit scary.

Can match the previous two-year salary of the entire Elms family.

Moreover, the Elms family is now at the time when it is most short of money.

The billions of dollars makes Yoel excited and intolerable.

Lord Elms (Wilfred) was also frightened by this amount.

Lord Banks gave one billion in cash with a wave of his hand,

which he did not expect.

However, he also knew very well in his heart,

how could the Banks Family’s money be so easy to take?

You can think of it with your toenails,
the money is by no means free.

So instead of picking up the check, he asked
instead,

“Bank’s Butler, I wonder why Lord Banks asked
you to bring this check?”

Bank’s Butler said seriously: “Lord Elms
(Wilfred), the master said,

he feels guilty for the Elms family,

and hopes to compensate the Elms family. In
addition,

he also hopes to have the opportunity to
continue to maintain the previous cooperative
relationship with the Elms family.

Therefore, his old man specifically confessed to
me and asked me to convey to you that if the
Elms family is willing to

resume cooperation with the Banks Family,
then the annual salary will be directly increased
to 2 billion.

If the Elms family is not willing, it does not
matter. This one billion,

just Quan should be his compensation to the Elms family!”

Lord Elms (Wilfred) was suddenly a little surprised.

He expected that the Banks Family would definitely hope to continue to cooperate with the Elms family,

but he didn't expect that the price of Banks's father would almost quadruple the previous basis.

Two billion cash a year, what is this concept?

Calculated at a price-earnings ratio of 20 times, a listed company with a market capitalization of 40 billion has a profit of 2 billion year-round.

In the domestic stock market, most companies have a P/E ratio of more than 50 times.

In other words, in many group companies with a market value of 100 billion yuan,

tens of thousands of people are busy with their lives, and their profits in one year are only 2 billion.

And as long as the Elms family returns to the Banks Family's embrace,

they will immediately receive an annual salary of 2 billion.

This is simply a golden brick from the sky!

For a moment, Lord Elms (Wilfred) was dumbfounded,

and Yoel on the side was already excited and unbearable!

He felt that this was an excellent opportunity that the Elms family dared not dream of.

As long as he seized this opportunity, the Elms family would surely be able

to soar into the sky.

With this generous income, the future Elms family may be able to become the number one martial arts family in the country!

And he is destined to become the next Patriarch of the nation's No. 1 martial arts family!

Since then, both myself and Elms family can soar into the sky!

Lord Elms (Wilfred) was also more or less excited.

Although he knew that his daughter Kairi Elms – Xion's Mom went to Aurous Hill to

meet the Wade Family Young Master,
