

The Amazing Son In Law (Charlie Wade)

Chapter 2903-2904

sound! So, No matter how long I have left, it will be given to me by Charlie, so I am willing to spend this time on Charlie!”

When Charlie heard Xion’s words, deep in his heart, he was moved and helpless.

He originally wanted to continue to persuade this stubborn girl, but the look in this girl’s eyes seemed to be something he could not persuade at all.

So Charlie gave up this idea.

Just like what I said earlier, there is still a long, long time in the future, and there is absolutely no need to pursue Xion to be able to achieve it in one step now.

There will be a lot of time in the future, and the day will be long, even if her mind is as solid as a rock, it will definitely change with time.

Thinking of this, he simply turned off the topic and said: “By the way, Xion, I have asked isaac to buy a riverside villa urgently. The villa is a second-hand detached house with eight rooms and three. In the basement of Baiduoping, when your grandpa and the others come, they will live there, and they can practice quietly without being affected.”

Xion hurriedly said: “Young Master Wade, you don’t have to spend so much money. The Elms family used to serve the Banks Family. They lived in the Banks Family. They were divided by gender and lived in the upper and lower bunks like

the school dormitory. You don't need to buy it at all. A villa is too expensive..."

Charlie smiled and said: "I bought the villa and loaned it to your grandpa. You must not have any psychological pressure. Moreover, I bought the house as an investment, mainly for the appreciation of the value."

Xion said again: "However, after Grandpa and the others came, they must be at your disposal 24 hours a day, and even be around you 24 hours a day. You arrange for them to live in the villa. In case you have something to do, They must not be able to arrive in time."

Charlie smiled slightly: "These are all trivial things. In fact, I am used to being alone. Generally, I don't bring people around. Even Don Albert and Isaac Cameron are not by my side 24 hours a day. They usually do. They have their own affairs, they have their own lives, and they won't revolve around me 24 hours a day. The same goes for your grandpa and them."

Xion asked hurriedly: "Young Master Wade, if you don't let Grandpa and the others follow you, what are their main tasks after they come?"

Charlie opened his mouth and said: "I have thought about this. When the time comes, these practitioners of your Elms family can be divided into several people to help Don Albert and Isaac Cameron."

"Even though there are many younger brothers in Don Albert, they are all unfamiliar and wild. It's okay to fight hard with others on the street. If you really meet a master, all of them will be given for nothing."

"So at that time, your family, on the one hand, you will help Don Albert do some things outside of his ability, and on the

other hand, you will also help Don Albert train his little brothers a little.”

“As for Isaac Cameron, although the people under his hands are well-trained, they are still a bit worse than you martial artists, so you have to help them improve their overall strength.”

Xion hurriedly said: “These must be fine! Grandpa and they must be able to do very well!”

With that said, Xion looked at Charlie a little embarrassedly, and asked faintly: “Young Master Wade, I don’t know you... I don’t know what your arrangement is for me...”

Charlie smiled and said: “You are now in a special situation, so just continue to stay in Shangri-La, and try not to have any contact with anyone except me and your mother.”
