

The Amazing Son In Law (Charlie Wade)

Chapter 2907

Driving from Xion's room, Charlie went directly to Isaac Cameron's office.

Seeing him coming in, Isaac Cameron hurriedly asked: "Master, have you finished talking with Miss Xion?"

"It's over." Charlie nodded and said: "Isaac, call Don Albert and ask him to come over as soon as possible. I have something to tell you both!"

Hearing that Charlie had important things to do with him, Don Albert immediately put down his work and came to Shangri-La as quickly as possible.

In Isaac Cameron's office, Don Albert entered the door and saw Charlie, so he hurried forward and asked respectfully: "Master Wade, what can you do with me?"

Charlie waved at him and said with a smile: "Come to Don Albert, sit down and say."

After speaking, he greeted Isaac Cameron again: "Isaac, sit down too."

Isaac Cameron and Don Albert sat next to Charlie opposite.

Immediately, Charlie said: "I have reached a cooperation with the Elms family. Starting today, the Elms family will send ten top masters to Aurous Hill, ready to be dispatched by me."

Isaac Cameron said happily: "Master, this is a good thing! With the Elms family masters, it can be regarded as a supplement to Don Albert and me. Although we have a lot of manpower

available under our hands, our strength is indeed better than martial arts. People are much inferior. Sometimes, not only will they not be able to help you, but they will even drag you back.”

At this time, what Isaac Cameron thought of was that time with Charlie, going to the Forbidden Mountain Tunnel to rescue Zara and her mother Deana.

That time, in order to grab time, Charlie jumped down when the helicopter was more than a dozen meters away from the tunnel entrance, but how could his men have this ability?

Even if the emergency rope drop was implemented immediately, because the overall process of rope throwing, inspection, hooking, and decline was indispensable, it was nearly a minute slower than Charlie. By the time they chased in, Charlie had already dealt with the crisis. Solved it.

In addition, there was also the time when he went to Syria to rescue Miss Hank two days ago. Charlie parachuted in a way that exceeded the limit of ordinary people, and was able to sneak into Hamid's heavily guarded base quietly. And that time, he and himself None of his staff can walk with Charlie and provide direct assistance to Charlie.

The reason why such things can't keep up with the rhythm happen repeatedly is that the difference in strength is too large.

And Don Albert couldn't help sighing at this moment: “Master Wade, before me, Mr. Isaac, and Liam accompanied you to the Changbai Mountain to attack the Eight Heavenly Kings, I realized that there is a real gap between our group of people and your strength. It's too big. It's a critical moment. Let's not say to help you. If you don't hinder you, it's a high incense. There is indeed some mud that can't support the wall. If you

take Elms's family and stay by your side, you will be able to do well. To improve this embarrassing situation."

Charlie waved his hand and said with a smile: "I am talking about cooperation with the Elms family, and it is not really necessary for the Elms family to do anything for me.

Charlie said, and said: "Actually, my plan is to distribute the ten people of the Elms family to the two of you, so that they can make up for your shortcomings, and at the same time can help you cultivate a group of subordinates and improve their overall strength. "

As soon as Isaac Cameron heard this, he became excited and blurted out: "Master, if this is the case, that would be great! Although my staff have undergone the same high-intensity military training as special forces, they still can't make a breakthrough. The upper limit of ordinary people, their own strength is indeed a lot worse than those of martial arts."

Charlie nodded, and said: "The melee strength of martial artists, especially the strength of physical combat, is indeed far superior to special forces. However, once the special forces are blessed with thermal weapons,
