

The Amazing Son In Law (Charlie Wade)

Chapter 2913-2914

Charlie didn't expect that Lord Elms (Wilfred) would face up to each other, two or three sentences, and simply want to take out the inner boxing technique of Elms Jia press box.

Moreover, based on his understanding of Xion, Xion would definitely not immediately reveal in advance that he might give the Elms family a complete internal boxing technique just because he gave her a mobile phone.

Therefore, it can be seen that Lord Elms (Wilfred) is not only grateful, but he can indeed make a choice.

This is very rare.

From the feudal society to today, China has lost countless folk skills. The reason for the loss is that many people who have mastered the skills cherish themselves. Even if they bring this skill into the grave, they are unwilling to pass it on to outsiders.

To a certain extent, this has indeed caused heavy losses to traditional folk culture and skills in the course of thousands of years of development.

It's like the inner family boxing technique that the ancestors of the Elms family got by chance. If its previous owner could open it up, it wouldn't end up being a fragmented scroll.

Therefore, based on the old man's attitude, Charlie's first impression of him was very good.

Therefore, Charlie arched his hand at him and said seriously: "I can rest assured about this matter with what Mr. Elms said. I

hope that Mr. Elms can train more middle and advanced players for me in the future. There are also some retired special forces who are good at thermal weapons. They have strong professional skills in thermal weapons, lurking, and tracking. If you are interested in the Elms family, you can also learn more. Combining tradition and modernity can achieve better Strong combat effectiveness.”

Hearing this, he said with excitement: “That’s really great! We actually had this idea a long time ago, and we mentioned it to the Banks family at the time, but the Banks family owner was very afraid that we would have too much. Mastering automatic weapons and modern scientific equipment has never been allowed to us, so we have never found a suitable opportunity.”

The control of modern weapons is extremely strict.

Although the bodyguards of the banks family and the Wade family have retired top special forces, the weapons and equipment are indeed very sensitive. Without extremely powerful abilities, it is impossible to solve them.

Although the Elms family is a top martial arts clan, they can’t do modern weapon training for family members with fanfare. Without external support, it is really difficult to achieve.

But Charlie is good to say here. After all, Isaac Cameron himself has a certain amount of energy and can solve the problem of modern weapons to a certain extent. Take a step back and say that even if he can’t solve it, he doesn’t have a new friend hunter Hamid in Syria. ?

If it doesn’t work, I will send the person directly to him for closed training for a period of time. Maybe there is a chance to participate in the actual combat exercise, which will definitely do more with less.

Thinking of this, Charlie said to Old Man Elms: "I will let Isaac arrange this matter and implement it as soon as possible."

After that, he turned around and said to Isaac Cameron: "Isaac, strive to build a land in the suburbs of Aurous Hill, and we will build a closed training base."

Isaac Cameron immediately said: "Good master, I will start to choose the site tomorrow!"

Charlie nodded, and said to Old Man Elms, "Old man, let's come in and take a look at the house first. If you are unsatisfied, you can bring it up."

Lord Elms (Wilfred) hurriedly said, "Master Wade is too polite. Even if it is a rough house, we are quite satisfied with such a big villa!"

Charlie smiled and said: "That's more than just, go, come in and have a look!"

Charlie asked Isaac Cameron to buy this villa, although it was second-hand, but after all, it was also used by wealthy people before. Therefore, whether it is decoration or furniture and home appliances, it is very elegant. Compared with Elms's old house in Mocheng, it is naturally Much more luxurious.

Lord Elms (Wilfred) thanked Charlie with great gratitude and prepared to give his family a room.

Charlie said to Kairi Elms – Xion's Mom at this time: "By the way, Ms. Elms, I think the people who came this time are all men except you. It is not very convenient for you to live here. Isaac happens to be in charge of the entire Shangri-La Hotel, or else Let Isaac arrange a room for you in the hotel?"

When Kairi Elms – Xion's Mom heard this, he immediately understood that Charlie wanted to arrange for himself to live with his daughter Xion.
