

The Amazing Son In Law (Charlie Wade)

Chapter 2979-2980

Although Charlie didn't know Felix or his acting style, he felt that cruelty and killing must be carved in the bones of people like Felix.

He usually doesn't kill people. It is by no means kind, but the conditions do not allow him. Once the conditions allow him, he will certainly not have any mercy.

According to Mai, the last time he saw Felix at Cemetery, Felix also lamented that the huge Fenghuangshan Cemetery had only one security guard, so that he could not eat enough of his natal gu worms.

This shows that once conditions permit, Felix cannot kill only one person, he must kill as many people as possible.

Today, Mai wanted to get a piece of the pie from his pocket, and he must have touched . He would definitely be murderous towards Mai, otherwise he would not invite Mai to meet at Phoenix Mountain.

At that time, as long as he sees himself as a taxi driver, he will never be merciful to himself.

Felix at this time, he kept driving behind Charlie's taxi.

He was thinking about killing Mai and his great-grandson Mike together tonight.

Unexpectedly, only Mai walked out of the hotel.

Seeing that he got on a rental car, Felix had already made up his mind to kill the taxi driver together, so that he could have a full meal of his natal Gu worms, otherwise he would only eat the bad old man Mai. It's not enough for natal Gu worms.

And he has made up his mind. When Mai arrives at Phoenix Mountain by car, he will not talk nonsense with him at all. First kill the driver, and then force Mai to give specific clues. After Mai explains clearly, he will Ended him too.

Felix didn't put the elderly Mai in his eyes. He knew that Mai had only learned Feng Shui mystery for a lifetime and was not proficient in killing. Besides, he was too old to be his opponent.

As for the taxi driver who stopped casually, he was even less worried.

Not to mention an ordinary driver, even a well-trained special soldier, or a master of internal boxing, has no chance of winning in front of his own Gu worm.

In his eyes, such an ordinary person is nothing more than the ration of his natal Gu worm.

When Charlie drove out of the city, he had already found a Volkswagen sedan that was always separated from him by a few cars and following him all the way.

He also guessed that the person sitting in that car should be Felix.

However, he did not make any response, as if he hadn't seen him, went straight to the Phoenix Mountain Cemetery.

At this time, Phoenix Mountain Cemetery, as Felix said on the phone, has long since disappeared. The previous case of the security guard being drained of brains has not been solved. The entire Phoenix Mountain Cemetery operation team is panicking, so it is also No longer send people to watch the night.

Felix saw Charlie's taxi enter the winding road of Phoenix Mountain Cemetery, so he turned off the lights and followed directly.

The taxi drove halfway up the mountain. Charlie parked the car at the entrance of the cemetery. Mai said to him nervously, "Master Wade, then I will get off first. Please be careful and don't leave.

Mai was extremely nervous, he was afraid that Charlie's lack of ability or the inability to take care of himself would cause his life to die here.

Charlie said calmly at this time: "You get out of the car first, Felix is behind, and you will be up soon. As long as you do what I tell you, I can keep you safe."

Mai gritted his teeth and nodded. Even if he didn't trust Charlie, he didn't have any other choice at this time, he could only bite the bullet and walked out of the taxi.

At this moment, Felix drove the Volkswagen car quickly up the mountain. Seeing that Mai had gotten out of the car, he kicked the accelerator and drove into the rear of Charlie's taxi.
