

The Amazing Son In Law (Charlie Wade)

Chapter 3007-3008

Charlie only knew that Zara didn't tell the complaint against Lord Banks at the live broadcast conference, and he must have reached some kind of agreement with Lord Banks.

However, he didn't know exactly what Zara got in exchange for Lord Banks.

Now that Zara had gotten the Banks Family's ocean transportation group, Charlie was immediately surprised.

He really didn't expect that Zara, a girl who was so powerful, would bite such a piece of meat from Lord Banks with a single mouth.

In other words, this is no longer as simple as a piece of meat under the feet, it is almost equivalent to cutting off a leg of Lord banks

However, Charlie was also a little surprised, and asked Ito: "Now that the Banks Family's business is completely blocked, is there any way Zara can revitalize this business?"

Nanako Ito hurriedly said: "To be honest, I don't know what Zara can do, but I think there are only two ways to go. One is to move all related businesses overseas, but this is for them. China's overseas resources have extremely high requirements, and the Banks Family has not been able to do it before. I think Zara is also unlikely."

Speaking of this, Ito Nanako said again: "The other way left is to seek cooperation. In my opinion, the best way is to break up and break up the entire Banks Family ocean transportation group, and then break it up. These resources are all scattered and integrated into the hands of other companies, that is, the Banks Family uses resources to invest in shares and retreat behind the scenes to avoid all blockades on the Banks Family."

At this time, Ziva Hank couldn't help saying: "Miss Ito's analysis is right, but I think that the second road will lose more to the Banks Family. It means that he originally drove a Wal-Mart by himself, but now he owns his own store. They can't sell all of them, so they can only transport all their goods to other supermarkets to seek cooperation with other supermarkets, such as Carrefour, RT-Mart and even Supermarket. In this way, these competitors will desperately lower prices. , the profit margins of the Banks Family crazily."

Charlie nodded lightly.

For the Banks Family and Zara, the first way is not able to go, and the second way is easy to walk, but there are indeed more sacrifices.

Nanako Ito hurriedly said at this time: "Charlie-k, I think you can contact Zara. You have a life-saving grace for her. Maybe she will agree to integrate all the resources in her hands with you. In that case, you will save money. Going to the long preparation, start-up and incubation stages."

When Ziva Hank, Jasmine and Doris Young heard this, they all showed shock. None of the women thought that Charlie would actually save Zara's life.

Ziva Hank couldn't help asking him: "Mr. Wade, have you saved Zara?"

Charlie nodded, stretched out two fingers, and said calmly: "I have rescued twice."

"My God..." Ziva Hank exclaimed, and he thought to himself: "Charlie just saved me once, and I feel as if I have been captured by him completely. All I think about is his Yingzi, that Zara was actually rescued twice by him...So, Zara's feelings for Charlie are probably much deeper than me!"

Jasmine said at this time: "Master Wade, since you have rescued Zara twice, you may wish to talk to her about cooperation. After all, she can only use resources to find others to cooperate with each other and cooperate with other companies. Of course it would be more appropriate to cooperate with you."

Charlie was also tempted.

Its own ocean transportation business has not really started yet, but the Banks Family's ocean transportation group has already had a very large scale. If it can integrate resources, its own business will surely start quickly.

However, the only troublesome thing is that once Zara cooperates with him, his identity will inevitably be exposed in Bank's family.
