

# The Amazing Son In Law ( Charlie Wade)

## Chapter 3029-3030

Lord Banks said depressedly: "It may not be really safe to return to Eastcliff. After all, his strength is really unpredictable. He could abduct James silently under Master Hett's nose. God knows if he will not. Will you repeat the old tricks and tie me up?"

Speaking of this, Lord Banks said again: "It may not be safe to go anywhere now. Even if I escape to the South China Sea, he will find a three-hour plane."

At this time, Master Hett who hadn't spoken for a long while said: "Master, or else you should go to the Maldives to avoid the wind and relax for a few days by the way! Southaven have not really warmed up these days. The weather in the Maldives is good, and It is far away and a separate island, so we can also arrange security work!"

He said, "In an archipelago country like Maldives, the local government has sold everything that can be sold and rented everything that can be rented, except for the capital island and several large islands. For the islands that are sold, the local government will not even send a police force, not to mention the local army, and basically let us toss with ourselves, and the operation space will be larger."

"If you are willing to go there, I can ask my younger brother to help, hire some mercenaries from the Middle East and the West. The Blackwater Company in the United States has a large number of mercenaries that have undergone rigorous training. At that time, it will directly hire several hundred from the Blackwater Company. Soldiers with guns and live ammunition guard the island so that no fly can get in. Your safety can also be greatly guaranteed."

Although Banks's family has not been able to do business all over the world, their own homes are spread all over the world.

Basically all developed countries have real estate in the Banks Family, so the Banks Family has a home wherever they go.

The Banks Family has long bought several islands in the Maldives, some of which have been developed into high-end luxury island hotels, and another island has been developed but not put into commercial use, but reserved for the Banks Family's own vacation needs. .

At this time, the weather in Southaven during the first lunar month is still a bit cold and humid, but the Maldives, which is on the edge of the equator, is very comfortable even now, and it is indeed very suitable for short- and medium-term vacations.

Moreover, as Master Hett said, in an island country like Maldives, the government has no energy to control so many islands that walk around. Basically, whoever sells it to him is left to toss, even if there are some places that are not allowed by local laws, just make a point. Money can also be accommodating, and the operation space is huge.

Therefore, once you go to Maldives, you can definitely build a very powerful defense system in a short time. It is no exaggeration to say that once the high-end mercenaries are deployed

from the Blackwater Company in the way Master Hett said, the defense of the island The ability will be so strong that it may not even be able to penetrate the local army.

However, although Master Hett was very considerate of security, he ignored Lord Banks's character and his situation in the family.

Unless he will definitely die if he doesn't leave, he is absolutely unwilling to leave.

Going abroad to avoid the limelight is the last escape route for Lord Banks, and he will only consider it as a last resort.

Because he knew very well that once he left Huaxia, the Banks Family would no longer be in his own hands, and even the entire Banks Family might be torn apart.

Moreover, this trip may never come back.

Even if the mysterious man stopped chasing himself, once his children profited from it, he would never let himself come back.

When the time comes, I will suffer from the enemy!

Thinking of this, Lord Banks gritted his teeth and said to Banks ( Butler ) and Master Hett: "I can't leave China without a last resort!"

Banks ( Butler ) asked nervously, "Master, that guy is so strong, how do we deal with it next?"

Lord Banks thought for a moment and said seriously: "Now, only Zara can save me!"
