

The Amazing Son In Law (Charlie Wade)

Chapter 3094-3095

When Mukesh (Rishab's Father) heard this, he was so embarrassed that he got goose bumps all over his body on the other side of the phone.

Immediately, he quickly denied: "Master Wade, you have misunderstood. Your aunt and I are really just old classmates and good friends. There is absolutely nothing improper..."

Cynthia Wade hasn't divorced his original partner yet. Mukesh (Rishab's Father) naturally dare not expose the relationship between the two. Otherwise, it will be spread out. Not only will he and Cynthia Wade be discredited, the Wade family will definitely force Cynthia Wade to cut off all contacts with him for the sake of face.

Even if Cynthia Wade really loves herself and insists on marrying herself, the Wade family cannot agree, because they can't afford to lose that person.

In that way, he and Cynthia Wade would never want to come together in an open manner in their entire lives.

If you insist, I'm afraid Cynthia Wade will offend the Lord Wade, maybe you won't get the last bit of inheritance.

Therefore, Mukesh (Rishab's Father) knew very well in his heart that he had to keep this secret, at least after the Lord Wade drove the crane west, and Cynthia Wade and his original partner formally divorced before they could make it public.

Seeing him hurriedly deny it, Charlie had already confirmed his relationship with Cynthia Wade. For Charlie, he had developed the ability to analyze things logically. If something looks abnormal, there must be something deep in it. The conditions for the establishment of Tibet, such as Cynthia Wade, who was detained by Charlie in Aurous Hill at the beginning, she was not reluctant to say anything, and clamored in the rental house all day long, so that Don Albert had to pay and let her. All the neighbors living around her moved out temporarily.

With her dissatisfied personality, how could she be willing to put aside her face and intercede for the son of an old classmate?

She didn't even go out and intercede for herself.

Therefore, on the surface, Cynthia Wade's behavior this time was very abnormal, and it seemed that it was extremely inconsistent with Cynthia Wade's personality.

But the more this happens, the more representative Mukesh (Rishab's Father) holds a high status in Cynthia Wade's mind and is very important to her.

A woman who is nearly fifty years old has been separated from her husband for several years, and at the same time he takes the other man very seriously. No matter how you solve this question, the final result is three words: "extramarital affairs."

However, Charlie didn't say much, but smiled indifferently: "It seems that I think too much."

After speaking, he checked the time and said, "Okay, no more. I'll have someone arrange a fishing boat for offshore operations in a while, let the son go on board to experience it, and wait for the ocean freighter on my side to be ready. , He can come back and board the ship."

Mukesh (Rishab's Father) felt distressed for a while, but he could only sigh: "Then please take care..."

At this time, Rishab was completely ashes deep in his heart.

He couldn't imagine that he was still a top star in the music industry a few hours ago, and after a few hours, he would become a prisoner of Charlie.

Moreover, according to Charlie's statement, he couldn't even stay in Aurous Hill for a few days, and he was about to send it to a fishing boat to experience life. The conditions of the fishing boat were definitely much worse than that of a large freighter.

Apart from other things, the fishing boats are small in tonnage, and they must be swaying more severely in the sea. In addition, there must be fishy smell everywhere, and the conditions must be as difficult as difficult.

However, he was alone and helpless in Aurous Hill at this time, and he really did not dare to yell at Charlie any more, but he could only shed tears and bear it silently.

As a local snake, Don Albert quickly found suitable fishing boat resources for Rishab.

After Don Albert made a phone call, he ran back to Charlie eagerly and said, "Master Wade, don't tell me, this Rishab is really lucky."

As soon as Rishab heard this, a good expectation suddenly appeared in his heart, and he thought: "Could it be that they can't find suitable fishing boat resources, so I don't have to go on a fishing boat to experience life?"
