

# The Amazing Son In Law ( Charlie Wade )

## Chapter 3096-3097

At this time, Charlie also curiously asked Don Albertdao: "How to say?"

Don Albert smiled and said: "I have a fishery company in County, which is about 200 kilometers away from Aurous Hill. My younger brothers have been in charge of it. I just called and asked. They happened to have two fishing boats. To work in the South China Sea, the several boats in my fishing company's hands are all medium-sized fishing boats. This type of vessel has limited tonnage, so you can't go too far. Generally, you work near the South China Sea. The time for a marine operation is counted back and forth. Go, about a month or so. They are loading supplies now and will set sail on time at 8 o'clock tomorrow morning."

Charlie estimated that with the resources in Zara's hands, one month later, the ocean transportation business that he and her joint venture should be able to run, and then transfer Rishab to the freighter.

But if he can't run within a month, just ask him to follow the fishing boat a few more times.

So he nodded: "Okay, choose this one!"

When Rishab heard this, his eyes suddenly went dark.

"It will set sail early tomorrow morning?! This is too sudden, right?"

As soon as he thought of this, he heard Charlie say: "It's a bit late to set sail tomorrow morning. Since it's your company, then tell your brothers, work hard to speed up, and strive to install before 8 o'clock this evening. Good supplies, and then set off early. It doesn't matter if the road can be slower. The important thing is to let Master Rishab board the ship early."

Rishab's desire to die is gone.

Don Albert smiled and said, "It's okay, Master Wade, let me call!"

Charlie nodded in satisfaction, and said to Isaac Cameron: "Old isaac, then you arrange a helicopter and send people over directly, and you can send people aboard directly when you land, don't delay."

Isaac Cameron said immediately: "Good young master!"

Afterwards, Isaac Cameron immediately asked Don Albert for the address. After Don Albert communicated with his subordinates over there, he directly let several of his subordinates take a helicopter, and sent the crying Rishab to Feng County along the coast.

After Rishab was taken away, Charlie looked at Don Albert and asked with a smile: "Don Albert, why do you have a fishery company in your hand? I haven't heard you say it before!"

Don Albert said hurriedly, "Hmm, Master Wade, you don't know that we are the people who take part in the game. Basically, we can do everything. I haven't studied much, and I don't know too much about business, so I like it. Investing is such a simple and direct transaction."

After talking, he explained: "Most of my trades are using some resources on the road, opening up a channel, registering a company, and then arranging a few brothers to start directly. The same is true for the fishing company. I have friends and friends over there. The local maritime department has a good relationship, so I registered a company, leased five or six fishing boats, and sent a few younger brothers to manage it. Basically, I can make a net profit of one or two million yuan a year. I open a few more businesses and earn income I can come up some too."

For Don Albert, he doesn't have a business that can grow bigger and stronger.

After all, there is no core competitiveness, so I can only earn one or two million here, and one or two million there. After accumulating less and more, not only can he feed more people, but he also earns more profits. The little bit of rolling gets bigger and bigger.

Charlie nodded his head with understanding, and also intends to make five handfuls of business, so he smiled and said: "If you are interested, after the ocean shipping business starts, the supporting supplies procurement business will be handed over to You

do it."

"As far as I know, every ocean-going cargo tanker must prepare a large amount of various materials before setting off. Rather than handing out this business to outsiders, it is better to hand it over to someone who is familiar and trusted."

When Don Albert heard this, the whole person was already very excited, but still a little worried and said: "Master Wade, I'm afraid that I am not capable enough to hold you back..."

Charlie waved his hand and said, "As long as you work hard, you won't be holding back. Then you go to Haicheng to register a company, complete the relevant qualifications, and arrange for a highly capable and reliable subordinate to stare at it, etc. My business is running, and your conservative estimate can make tens of millions a year."
