

The Amazing Son In Law (Charlie Wade)

Chapter 3170-3171

Thinking that the two sides will have cooperation in the future, Charlie did not hide it. He walked out of the door and came to the yard, and replied with his voice: "Yes, your brother ran to the Emgrand Group today. On the surface, he saw Doris Young, but he was actually Want to find out who I am."

Zara banks also sent a voice to ask: "Then he suddenly became like this, is it because of you?"

Charlie admitted frankly: "Yes, he asked to investigate my wife's license plate number. This behavior made me very dissatisfied. Not only that, but he also wanted to dig out my true identity, since he had to find it himself. Don't be awkward, then I can only fulfill him."

Zara banks hurriedly pleaded: "Benevolence, my brother has no social experience. Sometimes he is easy to do wrong things. If he does something wrong, sister will apologize for him... "

"If you are still not satisfied, you can beat him and scold him, but let him kowtow all the way to the Jokhang Temple... This is too harsh..."

"This road is nearly 4,000 kilometers. With his body, he can't get to the place in three or four years..."

Charlie said coldly: "Some mistakes can be made, but some mistakes are not. He stretched out his hand to me and my family. For this alone, I have a reason to kill him; and don't forget, he He owes me a life, and these two things add up. I originally had no reason to keep him, but the reason I let him go is to give you face."

"Furthermore, I also allowed him to take his entourage and a doctor. In this way, he can eat and live well at other times except for kowtow every day. This is already very favorable to him. What are you dissatisfied with? ?"

Zara banks was asked by Charlie, and suddenly he didn't know how to answer.

At this time, Charlie said again: "In addition, you have to figure out a little bit. Your brother is not in your heart with your mother. He is like your father. He does not rely on feelings to stand in line, but on profit. If If you want to become the Banks Family Patriarch, he is a huge threat to you."

"I let them both disappear temporarily for a few years. Instead, they are 'protecting you out of the city and helping you get on the horse.' Without them here, you can better use your abilities to fight for the power of the Banks Family!"

"If you can inherit the Banks Family within three years and have great power, your dad and your brother will come back at that time, and they will be able to follow you. Then you will give them a little favor from the Banks Family's big plate. Enough for them to live a life of good food and good food, sit back and relax!"

“But if I leave the two of them here, they will only become your enemy, your stumbling block, and they may even attack you for profit.”

“I left your brother, you are always overwhelmed by his status as the eldest son and grandson, and your brothers and sisters will definitely turn back because of benefits in the future!

“But I let him leave for three years, and when your new king is crowned, he will come back again. He is no longer your brother, but your courtier! The courtier is in front of the emperor, and he wants to worship three times and nine times!”

After hearing Charlie’s reply, Zara banks fell into deep thought.

She knew that Charlie was right.

“In front of the seat of the heir of the Banks Family, everyone is an enemy!”

“Dad and his brothers and sisters are enemies.”

“My brother and I, as well as the brothers and sisters of several other uncles, are also enemies.”

“If Dad and brother were here, they wouldn’t be willing to let themselves be the head of the house.”

“In the end, maybe the three of them will turn back.”

“However, if I can hold the position of Patriarch first, then when they come back, everything has been settled. There are nearly 100 direct relatives of the Banks Family, but there is only one Patriarch. There is an insurmountable relationship between the other members and the Patriarch. Gap.”

“This is not just a chasm, it is also a moat. Without this moat, even a pro-daddy or a pro-brother might not be able to resist the temptation of huge benefits...”

Thinking of this, she understood Charlie’s hard work.

“Although the benefactor punished my brother, it may not be true for me, but this incident actually helped me clear the obstacles in essence.”

“Furthermore, with my acting style, I can’t fight against my father and brother because of my interests. My benefactor now distributes them separately. On the one hand, he avoids the difficulties that he may face in the future, and on the other hand, he also protects them. The personal safety of my father and brother can be described as killing two birds with one stone.”
