

The Amazing Son In Law (Charlie Wade)

Chapter 3212-3213

Hearing that the fondant dolls weren't for eating, Charlie was a little relieved, otherwise it would really feel strange if he or Stefanie Sun's dolls were eaten in his stomach.

Next to him, Stefanie Sun looked at Charlie affectionately, and said softly: "Charlie, I still sing a happy birthday song to you like I did when I was a kid!

You can make a birthday wish when I sing, and wait until I finish singing you. You can blow out the candles."

Charlie nodded lightly, smiled and said, "Okay!"

Stefanie Sun adjusted her breathing slightly, and then sang affectionately,

"Happy birthday to you~Happy birthday to you~~~Happy birthday~Happy~~I wish you~Birth~Day~Quick~~~Happy... "

At this moment, Charlie put his hands together, closed his eyes, and silently made a small wish.

Now he has no material desires. His greatest desire is to find out the truth about the death of his parents and avenge them,

but if this desire is put on such a warm birthday, it is more or less uncomfortable.

Therefore, he silently made a wish in his heart, hoping that all his family and friends would be safe and healthy.

That's enough.

After making the wish, Stefanie Sun's birthday song was finished, and Charlie burst into action and blew out the 27 candles on the five-layer cake one by one.

Stefanie Sun, Orrin Sun, Angie and his wife clapped together.

Angie smiled and said: "Charlie, Auntie, I wish you today and the present every year, and all your wishes can be realized!"

Orrin Sun also nodded and said, "Charlie, uncle wish you all the best, peace and success in your life!"

Charlie was moved and thanked him repeatedly. Stefanie Sun on the side leaned to Charlie's ear and quietly pointed at herself in the fondant doll.

With a volume that only Charlie could hear, he said, " Charlie, I wish you Marry this as*hole home as soon as possible!"

Charlie smiled knowingly, without comment.

He had understood Stefanie Sun's thoughts a long time ago, but there were many things that he couldn't explain clearly, so he just pretended to be stupid.

At this time, Angie handed over a knife for cutting the cake and said: "Charlie, you are the birthday star.

You cut the cake first. Everyone will be happy after eating two bites, and then we will officially start the meal!"

"Okay Aunt !" Charlie quickly agreed, and then used a knife to cut off a few pieces of the bottom layer of cake,

put them on a small plate, and handed them to the three of them

one by one.

Afterwards, Orrin Sun took him, sat back at the dinner table, and began to enjoy the wine.

He took the initiative to pick up the wine glass and said to Charlie: "Charlie, I have said too much thank you, my uncle won't be a dog here,

I will offer you a glass of wine on behalf of our family of three!"

Charlie did not decline, picked up the wine glass, and said seriously: "Thank you, Uncle !"

The two immediately drank the liquor in the glass.

Orrin Sun said again: "Charlie, your parents left early. Based on my relationship with your father, after he left, I should take care of you, nurture and educate you, and treat you as my own, but For so many years,

I have not been able to find you. In your 27-year-old life, you have been missing for nearly 20 years, and there are so many regrets...

Speaking of this, Orrin Sun sighed and said seriously: "In the future, my uncle only hopes to spend more birthdays with you in his lifetime!"

Charlie was moved in his heart and said with a smile: "Uncle , how can you just have a few birthdays,

at least it will take dozens of times before it makes sense, right?"

Orrin Sun laughed and said heartily: "Yes! I've had dozens of times!"

Between pushing the cups and changing the cups, Charlie and Orrin Sun had each drunk a catty of white wine, but both of them were only slightly drunk.

Even Angie, who was originally incompetent, did not show any discomfort after drinking a bottle of red wine alone.

On the contrary, because of the effect of alcohol, she felt very happy as a whole. Under the effect of alcohol,
