

# The Amazing Son In Law ( Charlie Wade )

## Chapter 3328-3329

Jasmine sighed faintly, and murmured: "Who is not like this... I also want to know, who is Master Wade who has repeatedly saved me from distress and kept me dreaming..."

After that, her tone was firmer and she said: "Tomorrow I will try to ask for clues!"

...

The next day, early morning.

Charlie and Claire got up one after another, and went downstairs for breakfast after washing.

According to the procedures these days, Charlie will drive Claire to work after eating, but the work location may be uncertain. It may be to the company, or to the construction site of the Emgrand Group, . The old house shot fresh.

However, after Claire was busy talking to his mobile phone while eating, he said to Charlie excitedly: "Husband! Jasmine from the Moore Family asked me to go to the Moore Group to talk about project cooperation!"

Charlie was not surprised, because Jasmine had already expressed this very clearly yesterday.

In Charlie's view, Jasmine must have done this because she hoped that she would be able to repay her help by helping Claire start a business.

Therefore, Charlie didn't think much about it, so he asked her: "I will send you to the Moore Group after dinner that time, or go to other places?"

"Go to the Moore Group!" Claire said without hesitation: "Miss moore is now the chairman of the Moore Group.

In terms of project cooperation, she should be able to decide directly, so I have to hurry up and talk to her. To see if we can put the cooperation in place as soon as possible."

Elaine on the side couldn't help exclaiming: ", you have to cooperate with the Moore Group now? Good deed! This is too powerful!"

Claire hurriedly said, "Mom, I just went to have a chat with Miss Moore to see if there is any possibility of cooperation."

Elaine smiled and said: "The boss of a group of people such a big family actively invites you to talk about cooperation. Do you still have to think about it? It will definitely happen! In this way, your company will have to take another step."

Claire said: "This has to be known after talking to Miss Moore."

Elaine blurted out without hesitation: "Don't worry, it will definitely happen. Don't forget, Charlie has shown Feng Shui to the Moore Family. Didn't Jasmine come to our house to give gifts in person before? For Charlie face, how could she let you go for nothing?"

As soon as Elaine said this, Claire's mood suddenly became dim. She knew that Jasmine wanted to cooperate with her because of her husband's face. Even with the previous cooperation of the Emgrand Group, I am afraid that Doris Young's husband's face was also important.

Only for herself, this made her entrepreneurial enthusiasm more or less a blow.

Charlie saw that there was something wrong with Claire, and smiled and comforted: "My wife, in fact, many businesses are obtained only through the help of others.

However, whether you can do the business well and satisfy the other party, you still have to rely on yourself. Strength, I believe in this regard, my wife's abilities are top notch."

Claire smiled gratefully, and said seriously: "Thank you husband..."

After eating, Charlie drove Claire to the Moore Group.

And because he had an appointment with Zara and Ziva Hank to hold a meeting in the Emgrand Group, he drove away by himself and went to the Emgrand Group.

Claire received extremely high courtesy in the Moore Group.

As soon as she mentioned her name to the front desk, Jasmine received the news and came down from the office to greet him personally, which made Claire a little flattered.

Jasmine invited Claire to her office, and immediately took out the planning plans of several construction projects of the Moore Group, and said to Claire: "Miss. Wade, these projects are currently in preparation and are about to start.

The design plans for the civil construction phase of the project have all been out, but the subsequent decoration design plans are still in the bidding process. If Mis. Wade is interested, these projects can be handed over to your company."

Claire was shocked to speak, because the total investment in these projects that Jasmine took out even exceeded 15 billion.

According to the standards of the construction industry, the design cost of the overall architectural design generally accounts for about 3% of the total project cost, while the cost of interior decoration design generally relies on about 1.5% of the total project cost.

If according to this ratio, these projects only cost more than 200 million for interior decoration design.

If the construction is also obtained, the profit will more than double!
