

The Amazing Son In Law (Charlie Wade)

Chapter 3332-3333

Jasmine explained: "That's it. At first, I believed a liar from Hong Kong accidentally turned my family's Feng Shui into a trapped dragon, and almost had a big deal. Thanks to Master Wade's suggestions..."

With that said, Jasmine will be deceived by the fake Hong Kong Master Exeor because of bad luck. Then Charlie saw through the surnamed Exeor, and finally Charlie helped him get rid of the trapped dragon formation, and told Claire exactly.

Claire was dumbfounded. She originally thought that her husband's so-called Feng Shui style was more or less deceptive.

But now after listening to Jasmine's introduction, she understands. It turns out that Charlie's set of things is not just a silly head, but it really has practical effects.

Therefore, she couldn't help sighing: "I used to worry that my husband would show others the essence of Feng Shui. I feel more relieved."

Jasmine smiled and said very seriously: "Master Wade is very different from those swindlers. Master Wade has real talent and learning, which is why everyone respects him so much."

Speaking of this, Jasmine's eyes flashed with a gleam of light, and she smiled and said, "By the way, Mrs. Wade. I've always been curious about the background and pedigree of Master Wade. How can he be so young and proficient in so many unpredictable What about the skills?"

Claire replied earnestly: "I'm telling you Miss Moore, my husband, as far as I know, doesn't have any inheritance. Moreover, he lost his parents and became an orphan very early, and he grew up in Aurous Hill Welfare Institute since he was a child. Yes, I don't think the orphanage will teach him this. As for where he learned these skills, I don't know."

Jasmine immediately asked, "Mrs. Wade, you said that Master Wade lost his parents very early. Then his skills may have been passed on to him by his parents before he lost his parents. If it is Tian Zongzhi Talent, it's not impossible to learn at a young age."

Claire didn't know the meaning of Jasmine's words, and said stupidly: "But Charlie had just turned eight when he entered the orphanage. Even if an eight-year-old child is talented, it is impossible to learn any advanced skills. Right."

"Eight?!" Jasmine was shocked, and blurted out: "Master Wade... really entered the orphanage when he was eight years old?"

"Yes." Claire nodded firmly and said: "He has told me many times about this before. According to him, his parents had an accident when he was eight years old, and he had no other relatives in the world, so Adopted by the orphanage until adulthood."

Jasmine recalled the various details analyzed by Ito Nanako last night, exclaiming in her heart: "Now, the time Master Wade entered the orphanage is almost exactly the same as the time when Stefanie Sun began to search for Prince Charming, then this is even more proof that Wade The master is Stefanie Sun's Prince Charming!"

"This also proves that Master Wade is not from Aurous Hill at all, but from Eastcliff!"

"More importantly, Stefanie Sun is not just a star. Many people know that her family background is very strong, and she is the top five Sun family in China! And she is the only daughter of Orrin Sun, chairman of the Sun Group!"

"Master Wade's ability to make a marriage contract with sun like stefni since she was a child can only prove that Master Wade himself is also a famous person!"

"Looking at the country, there are not many big families that can match the Sun family, and within the scope of Eastcliff, there are even fewer such big families, only the Banks Family and the Wade Family..."

Thinking of this, Jasmine's heart trembled, and the questions deep in her heart gradually became clear: "Wade Family?! Master Wade?! Could it be..."
