

The Amazing Son In Law (Charlie Wade)

Chapter 3338-3339

Jasmine actually knows very little about the Wade Family.

These big families have always paid special attention to protecting their privacy. Therefore, except for the local families who have some understanding of their situation, the non-local families only vaguely know a general idea, and deeper details are not known at all.

Moreover, in the era when Bruse died, information dissemination was still very backward. There were only two ways for ordinary people to understand news, one was television and the other was newspaper.

At that time, the TV rarely rebroadcast news, and there was no Internet video platform to help them keep the video files, so this also means that if a piece of news is first exposed when you miss it, you are likely to be in the future. Never have a chance to see it again.

Because of this, Jasmine didn't know how many members of the Wade Family were and what their names were, let alone any of them who had disappeared twenty years ago.

So she opened her mouth and said to Ito Nanako: "I have basically never heard of the situation inside the Wade Family. I don't know exactly who among the middle-aged children of their generation is missing. Or I'll find someone to help. Check it out?"

Nanako Ito hurriedly said, "No need for Sister !"

Jasmine asked puzzledly: "Don't you want to know more secrets and details?"

Nanako Ito smiled slightly and said seriously: "Since Charlie has not said these things, it proves that he does not want us or others to know these things. We are all people who have been favored by him. We can't just because we want to satisfy our own curiosity. Go and spy on his secrets rashly."

Jasmine was stunned, then sighed and said quietly, "You are right... We really shouldn't dig too deeply in this matter..."

After that, Jasmine said with some unwilling emotions: "Hey, in fact, I think that although we can respond to so many clues, we have not found a conclusive evidence to prove that our speculation is true. It is said that there are eight, nine, eight, or nine, but there are still other possibilities of one to two percent. What I want is actually the nailed nail."

Nanako Ito gave a hum, and said empathetically: "I understand what you mean... By the way, Sister, I heard people say that the Wade Family will hold a very grand ceremony for ancestor worship this year in Qingming. You can pay attention to that. Let's see if Charlie has gone to Eastcliff. If he happens to go to Eastcliff at that time, then this matter will be completely nailed down."

"The ancestor worship ceremony?" Jasmine asked in surprise: "How do you know?"

Nanako Ito said: "People from the Wade Family came to meet my father and talked about these things. It is said that they bought a mountain for their own Feng Shui and built it into the Wade Family's

ancestral grave. The ancestor ceremony is held every twelve years, so it is very grand, and this year's ancestor ceremony is to be held on that mountain."

"I understand." Jasmine said hurriedly, "Then I will pay attention to the trajectory of Master Wade and see if he will leave Aurous Hill and go to Eastclif."

...

The ancestor worship ceremony held by Wade in twenty days did affect many people.

Not only the Wade Family, but also Wade Family branches across the country and around the world, all started early to prepare for this ancestor worship ceremony.

Even Charlie had a faint expectation for this ancestor worship ceremony, because he had decided long ago that he would get Zayne back from Syria at this ancestor worship ceremony and let him kneel in front of his parents' grave. Confession, to comfort the spirit of the parents.

Although Zayne was not the murderer who directly killed his parents, it was also a very important beginning for Charlie.

He thought that from Zayne onwards, he would treat those who had been enemies with their parents one by one. F*ck it out and let them pay for their past behavior!
