

The Amazing Son In Law (Charlie Wade)

Chapter 3348-3349

in the more turbulent places in the Middle East, Africa, and South America. They all have their own. Traces, they have developed rapidly in recent years. There are 50,000 or 60,000 mercenaries registered under their command, and their comprehensive strength has now ranked among the top five mercenary organizations in the world!"

In this world, not every country or region is as peaceful as China. Wars are perennial in many areas, so mercenaries are blooming everywhere in such places.

Most of the mercenaries are desperadoes. They do not have any sense of justice. They only serve the money. Whoever gives the money will sell their lives. There are also some mercenaries who rely on certain countries to survive, such as the famous American Blackwater.

, They trained a large number of mercenaries to serve the US government. Almost all U.S. military operations in the Middle East are inseparable from the participation of black water mercenaries, and some governments are inconvenient to come forward to do. They will do it for you.

And this Wanlong Palace belongs to the first kind.

After listening to the introduction of the Wanlongdian, Hunter (Hamid) was very angry, and blurted out: "Hire ten thousand mercenaries for the Wanlongdian. At least tens of millions of dollars a day, right?"

The deputy commander hurriedly said: "Commander, the price of the Wanlong Palace is extremely high. Even the ordinary mercenaries under their command cost one to two thousand dollars a day, and the price for officers is even higher. Some of them cost more than tens of thousands of dollars a day. The King of the Four World Wars, whoever comes out, will cost hundreds of thousands of dollars a day..."

Hunter (Hamid) asked dumbfounded: "Really? Why is it so expensive?!"

The deputy commander explained: "The reason why the Wanlong Palace has risen in recent years is due to its super combat power. Their mercenaries are well trained, especially the core members. All of them are top soldiers, no matter if they are single Soldier combat capability, or overall coordinated combat capability, is the leader among mercenaries, but the only problem is that the price is high, and most people really can't afford it."

Hunter (Hamid) frowned and said: "According to this calculation. This ten thousand mercenaries cost more than 20 million US dollars a day?"

"Yes." The deputy commander wiped his sweat, and said nervously: "I also received news that this time there is one king of the Four Great Wars in the Wanlong Palace! It is said that this person is on the battlefield with one enemy and one hundred!"

Hunter (Hamid) couldn't help shivering, and blurted out: "I fucking don't understand, where does the government army get the money and hire so many mercenaries?"

The deputy commander explained: "The government army does not have so much money, but they are willing to set aside a piece of land for the Panlong Temple in Syria after the anti-government armed forces are suppressed, and prepare a base for the Panlong Temple. That's why the Panlong Temple is so active."

"Damn...it's over..." Hunter (Hamid) was completely ashamed and panicked.

He thought to himself: "If this information is true, there will probably be thousands of Ten Thousand Dragons' mercenaries in the army 30 kilometers away..."

"Now I have thousands of people in my hand, and the training level is far less than that of top-notch mercenaries, and there are almost 8,000 people on the other side, and there are so many armored vehicles and towed artillery, regardless of the number of soldiers and the level of training. In terms of weapons and equipment, my team doesn't have any advantage. If this team really fights, there is basically no chance of winning..."

Hunter (Hamid), who was extremely nervous, suddenly thought of Charlie, so he immediately took out his satellite phone and called Charlie!

At this time, Charlie took over Claire from the Moore Family Group, and was on the way to send her to the company.

Suddenly received a call from Hunter (Hamid), he was also very surprised, so he asked, "Brother, why did you call me suddenly?"

Hunter (Hamid) said with a trembling voice: "Brother charlie, brother, I am dead soon. If that Zayne died with me, don't blame me!"

Charlie felt a little in his heart, and hurriedly asked: "What happened?!"

Hunter (Hamid) sighed: "The government army has hired a group of well-trained mercenaries from overseas. They have destroyed many armed forces with more than mine in a short period of time. Now there is a force of more than 8,000 people from me. It's less than 30 kilometers, I'm afraid I won't be able to carry it this time!"
