

The Amazing Son In Law (Charlie Wade)

Chapter 3396-3397

Lord Banks kindly invited Abbas and his people to sit at the banquet. While holding Abbas's hand and letting him sit next to him, he did not forget to continue to build relations with Abbas, exclaiming: , if your father knows your accomplishments today, the spirit of him will be extremely pleased..."

Abbas thought of his deceased father, and he was naturally very emotional, and said seriously: "I am coming back this time, in addition to avenging my parents, I also hope to be able to tell them my experience over the years before their graves for comfort. Their spirit in the sky."

"Yes, it should!" Lord Banks nodded repeatedly, and asked: "By the way, break the army and seek revenge from the Wade Family. What are your specific plans?"

Abbas opened his mouth and said: "I have asked my subordinates to use another identity to buy back our Wanjia old house. In the afternoon, I will set off for Eastcliff. I will go back to the old house for a few days and wait for my Wanjia. The three warlords of the Dragon Palace ended their task at hand and came to join me."

As he said, Abbas's eyes burst into a strong murderous, and he said coldly: "By then, the four kings of the Wanlong Palace will gather in Eastcliff, and other Wanlong Temple masters will also rush to Eastcliff from all over the world. On the day of Qingming Festival , I will take them, as well as the sixteen generals of the Wanlong Palace, and hundreds of elites to kill Yeling Mountain!"

Lord Banks heard this, blood was already boiling in the shriveled arteries, and hurriedly asked: "Abbas, where are your three warlords at this moment?"

Abbas said calmly: "One is in Palestine, the other is in Yemen, and the other is in Syria."

Lord Banks nodded lightly, thinking to himself, it was indeed a place where war was chaotic all the time.

Therefore, he complimented: "These places are constantly fighting, and your subordinates have been practicing in this place all year round, and the actual combat level must be very good! Compared with that famous Heishui company, I am afraid it is not much more!"

Abbas said without humility: "In terms of actual combat level, my Wanlong Temple is not inferior to a company like Blackwater in the United States. It is only natural that it ranks first among large-scale mercenary organizations."

Speaking of this, Abbas said with disdain: "The reason why a company like Heishui can be famous all over the world is based on the human sea tactics and the support of the White House. It won't be long before I will be able to surpass them. Become the number one mercenary!"

Lord Banks laughed and blurted out: "I believe you must be fine!"

Abbas nodded, and said with an arrogant expression: "The American Blackwater Company was hired by Syria some time ago to eliminate domestic opposition forces. However, it took a year for the Blackwater Company to have no effect. My Wanlong Palace just talked to Syria. After only one month

of cooperation, the momentum will be broken and several cities will be lost! I believe that within half a month, the opponent will be completely wiped out and a complete victory will be achieved!"

"At that time, Wanlongdian will slap Heishui Company in the face in front of mercenary organizations around the world!"

Having said that, the Wanpo Army blurted out with ambition: "After the victory, we will build a mercenary base covering an area of more than 100 square kilometers in Syria. By that time, the Wanlong Palace will stand tall in the world. Top of the mercenary!"

Lord Banks was stunned, and blurted out: "One hundred square kilometers?! How could they give such a large area of land to the Wanlong Temple?"

Abbas said indifferently: "This is the condition I reached with them. I helped them to wipe out the opposition forces. They provided me with the land and all the conveniences I needed. The land use rights of 100 square kilometers are really not in developed areas. Possibly, but in places where birds don't shit, ten times is not a big deal, and for them, long-term cooperation with Wanlongdian will help them maintain stability and everyone will get what they need. Mutual help and win-win!"
