

The Amazing Son In Law (Charlie Wade)

Chapter 3424-3425)

If it is impossible to give the corpse to relatives at all, even if it is impossible to even have a stump or a broken arm, the compensation will be even higher, and another twenty months will be added to the previous basis.

The thousands of soldiers in the Ten Thousand Dragons Palace have all gone and never returned. If Hamid is eventually beaten down, the body is put in a coffin, and the relatives are decently handed over, the cost will be relatively low.

But if they cannot be beaten down, and the corpses cannot be snatched back, and these people cannot be settled in peace, the standard of pension is 100 months' salary per person.

Calculating this way, three billion dollars can't be beaten.

Wanlongdian's annual profit is only about tens of billions of dollars, and this battle may have directly lost one-third of it.

Moreover, Wanlongdian's market recognition is likely to decline rapidly because of this battle. Just like a company, mercenary organizations must also pay attention to their reputation and performance.

If the company has major mistakes and scandals, it will inevitably affect others. The customer's recognition of the company will then affect the company's actual revenue.

The extremely angry Abbas immediately spoke to the phone and gritted his teeth and said: "You immediately gather all the soldiers in the Wanlong Temple in Syria. No matter what method you use, within three days, you will take that one for me. Mead!"

"Okay!" Chen on the other end of the phone said without hesitation: "Please don't worry, the lord, if you can't complete the task, I will come to see you!"

Abbas said in an extremely cold voice: "Remember your words!"

Having said that, he hung up the phone angrily, his face extremely blue.

The young man next to him asked in shock: "Hall Lord, how can there be such a powerful armed force in Syria, should I fly over to support the Blue Eyed Wolf King?"

Abbas said coldly: "No, it's just some civilian armed forces. It's worth my Wanlong Palace dispatching two warlords at the same time! Let Chen solve it by himself. If it can't be solved, I can only ask!"

The young man nodded lightly, and said: "Everything is subject to the arrangements of the lord!"

At this moment, Lord Banks on the side was somewhat horrified.

The satellite phone was similar to a walkie-talkie when talking, so he heard the situation clearly.

When he heard that Abbas's subordinates had been defeated in Syria, more than 1,500 people died at once. The atmosphere is also scared and dare not breathe.

On the one hand, it was because the death toll was really scary, and there were no 1,500 nursing homes in the entire Banks family, but the Abbas killed so many people in one wave, which is really shocking.

On the other hand, it was also because this Abbas looked really angry, Lord Banks didn't dare to touch him at this time.

really.

Abbas, who was still expressing his ambitions at the wine table just now, directly threw the satellite phone at the dinner table and said coldly: "Don't eat any more, leave for Eastcliff immediately!"

Lord Banks didn't expect that Abbas said that he was leaving, so he quickly got up and said: "Oh, Abbas, you guys come back from abroad and are running all the way.

It's better to rest for a few days before talking. My villa has more than a dozen rooms empty. I will stay here for a few days and take a rest. Anyway, it's still early to Ching Ming Festival."

"No." Abbas waved his hand with a cold expression, and said indifferently: "My parents' death day will be in a few days. I have to prepare in advance. First I will pay my respects to them in the cemetery, and then I will serve them. Prepare the best coffin and prepare for the grandest grave-moving ceremony. After I level down the Wade Family, I can move my parents' coffin to Wanling Mountain!"

Lord Banks was originally polite and did not really want them to live. After all, although Abbas is very strong, he is the head of an overseas mercenary organization in the final analysis, and he is a well-known large businessman in the country. It is by no means a good thing for people to know that they are in close contact with such people.

Moreover, if the Wade Family is really flattened by him in the future, and he walks too close to him, other people will think that they are uniting him to deal with the Wade Family.

Once this kind of pot is put on the back, there will be no in this circle. People dare to touch it.

Therefore, when he heard what Abbas said, he hurriedly stood up and said seriously: the hatred of your parents is greater than the sky, if this is the case, then I will not keep you!"
