

The Amazing Son In Law (Charlie Wade)

Chapter 3482)

As soon as the phone was connected, Abbas asked Chen straightforwardly: "Is there any good news for me?"

Chen said very nervously: "Hall Master...Today that Hunter (Hamid) found a middleman to come over and express his desire for peace talks..."

"Peace talks?" Abbas suddenly angrily said: "He and his soldiers are responsible for the more than 2,500 soldiers sacrificed in my Wanlong Temple. Apart from annihilating them all, I will not accept anything else. the result of!"

Chen plucked up the courage and said: "Hall Lord, the problem now is that we can't eat that Hunter (Hamid) at all. The only way is to stay here forever. It won't be a problem if we continue to do so! Our daily economic losses are all It's very serious, and it's really not worth the gain if this continues..."

Abbas sternly said: "As long as you completely surround them and don't leave any chance to escape, they will definitely be messed up before long. Even if they are not messed up, they will not be able to last too long! A group of old hats from the mountains in the Middle East. How is it possible to fight a protracted war with us at this time?"

Chen sighed with a sigh: "Hall Master...but the key problem is that Hunter (Hamid) has already stored a huge amount of strategic materials. I dare not say anything else. With their current amount of materials, 10,000 people can support it. There must be no problem in 2021 but we can't stay here with him for a whole year, and now the government forces are going to be arrogant..."

Having said that, Chen reported his current situation to Abbas in detail.

Hearing these things, Abbas was outraged.

He cursed almost desperately: "Chen! I have not suffered such a big loss or lost such a big person in the Wanlong Temple so many years since I was established, let alone put myself into such a passive situation! You really broke a lot! Item record!"

Chen was also aggrieved at this time, and said in pain: "Hall Master, I admit that I did underestimate the enemy before. I did not expect to meet a decent opponent in Syria. I am willing to accept your punishment at any time. But now the key issue is. Yes, this Hunter (Hamid) surrounded himself in an iron bucket and prepared a lot of food and supplies. Our 15,000 people are simply in a dilemma!"

"If the government forces withdraw and only our people surround Hunter (Hamid) here, the situation will be even more embarrassing. The government forces will only pay for the mercenaries who work for them. After we came, we not only suffered defeat, but also violated. Given their wishes, they will probably turn their faces with us because of this, and the gain will not be worth the loss..."

Wan broke his military spirit and wanted to go to Syria in person and smash that Hunter (Hamid) into pieces, because he knew that as long as this Hunter (Hamid) dies, his arms will be completely disintegrated, and all problems will be solved by that time.

However, looking at the cheap coffins piled up in front of him, he couldn't help but warn himself not to be distracted at this critical moment.

He secretly thought in his heart: "Although I have great confidence that I can kill the Hunter (Hamid) without knowing it, it's been a few days since Qingming, and the time is really too tight! Even if I start from China now Going to Syria, the time spent on the road is at least more than 30 hours!"

"In case I was delayed due to some unforeseen factors, I won't be able to go to Yeling Mountain in person on Qingming Day!"

Thinking of this, Abbas gritted his teeth and said: "Let's do it, don't make trouble with the government army for the time being. Since they want to negotiate with Hunter (Hamid), then you should also participate in the specific details of the peace talks. I can delay the pace and progress of their peace talks, but if the government army has made a decision, you must immediately show an uncompromising attitude and let our soldiers stay there until I finish the important tasks here. Go ahead and solve it!"

Chen could only agree, and said, "Then I will meet Hunter (Hamid)'s people in the afternoon to see what their attitude is."
