

The Amazing Son In Law (Charlie Wade)

Chapter 3483)

“Okay.” Abbas urged: “In any case, we must hold down Hunter (Hamid) and the government army, and don’t let them reach any agreement in private. If the government army can’t wait to withdraw, you tell them, I Abbas uses his own reputation to guarantee that no matter how much Hunter (Hamid) has strategic reserves, I will eliminate him before the end of April. I believe they will still hear about my strength!”

...

After Chen agreed to the peace talks, the middleman quickly fed back the news to Hunter (Hamid).

The time for the peace talks is set at three o’clock this afternoon. As for the place of the peace talks, it is set at the station where Chen and the government army commander are stationed.

But the other party did not inform the specific location coordinates of the station, but gave Hunter (Hamid) the coordinates of a transit point, and asked Hunter (Hamid)’s pilots to send the negotiator to the transit point, and then their helicopter will take the negotiator. To the place of negotiation.

Charlie was very clear about the other party’s motive for doing this. They must have leaked the position information of the leadership. He was afraid that Hunter (Hamid) would directly fire a round of gunfire at that coordinate, so he had no objection to it.

Hunter (Hamid) also put forward three requirements of his own to the other party:

First, at the negotiating table, in addition to their own negotiators, the Wanlong Temple and the government must send their top commanders, otherwise the talks will be avoided;

Second, one’s own negotiator takes off from his base in a helicopter, and the helicopter will disassemble all weapons and ammunition, and the other party must clearly agree that all soldiers shall not fire on the helicopter;

Third, no matter what the two parties talked about, they must not harm their negotiators.

His three requests were reasonable, so he quickly got a definite answer from the other party.

At 2:30, Charlie put on a camouflage uniform, put on a disposable mask, and prepared to take Hunter (Hamid)’s helicopter to the transfer point agreed upon with the other party.

Hunter (Hamid) was very worried about Charlie’s safety, for fear that Charlie would encounter accidents after going deep into the tiger’s den.

But Charlie had made up his mind. He knew that he could not persuade him, so he could only send him to the helicopter himself, and said sincerely: “My brother, take care, I am here waiting for you to come back!”

Charlie nodded and said calmly: “After I leave, I will tie up Zayne, and when I come back, I will take him on the plane and leave.”

Hunter (Hamid) said hurriedly: "Good brother, don't worry, I will go now!"

As he said, Hunter (Hamid) asked him again: "Brother, that blue-eyed wolf king, what will you do with him after you control him?"

Charlie said without hesitation: "I will take him away when the time comes, but it may leave you a little trouble. Wanlongdian will definitely put this bill on your head."

Hunter (Hamid) said indifferently: "I have already carried two thousand and five hundred lives in the Wanlong Palace. It doesn't matter if I have one more!"
