

The Amazing Son In Law (Charlie Wade)

Chapter 3486)

In fact, the real purpose of Charlie's trip was not to meet the head of the government army at all.

What he really wanted to meet was the supreme commander of the Wanlong Temple in Syria, Chen, who was known as the Blue-eyed Wolf King.

Wanting to be surrounded by more than 30,000 people and bring Zayne back to China, Charlie's only choice was to capture the thieves first.

Moreover, it happened to be able to take this opportunity to touch the actual combat effectiveness of the Wanlong Palace and see what level their Four Great War Kings can achieve.

As for shivam, Charlie also saw that he was a warrior, and he had opened up two meridians, almost at the level of a two-star warrior.

Therefore, he inferred from this that the middle and high-level people in Wanlongdian should be mostly martial artists.

And he scared shivam because he was unhappy at seeing this guy.

And he also knew very well that Wanlong Palace must now be most afraid of Hunter (Hamid)'s private negotiation with the government forces, so Charlie was sure he could hold him.

Sure enough, at this moment shivam was afraid that Charlie would really turn his face with him, so he almost knelt on the ground to beg him.

Seeing shivam's humble expression, Charlie's mood improved a little, and he said lightly: "Since you know your mistakes and correct them, then I will give you a chance, let's go!"

shivam breathed a sigh of relief and hurriedly said: "Thank you brother, thank you brother!"

After that, he said again: "By the way, brother, before we set off, we have to conduct a routine search of you, and I hope you can understand."

Charlie glared at him and asked in a cold voice, "What's the matter? When I asked for help just now, I still talked to me as 'you', 'you', and now it becomes 'you' if the purpose is successful? It's too fast, right?"

shivam's head was as big as a fight, and he quickly apologized: "Oh, I'm really sorry, I was negligent, please don't be like me!"

Charlie said coldly: "Say it again!"

shivam wanted to tear Charlie to pieces directly, but he could only bite the bullet and said respectfully: "According to the usual practice, we have to conduct a routine search on you, and I hope you will be considerate and don't mind!"

Charlie questioned: "Why? I went into the tiger's den by myself, are you still afraid of any threat to me?"

shivam said honestly: "After all, you are going to meet our highest commander in Syria, so we must make sure that we are foolproof. Please forgive me!"

Charlie snorted disdainfully, then raised his arms and said lightly: "Okay, search!"
