

# The Amazing Son In Law ( Charlie Wade )

## Chapter 3487 )

shivam immediately winked at the two soldiers beside him.

The two men immediately took out a metal detector and swept around Charlie constantly. They wanted to make sure that Charlie did not have guns, daggers, or explosives, and even that he did not have a GPS tracker.

Charlie knew that the other party would search his body a long time ago, so he didn't even bring his mobile phone with him, so the other party carefully searched it several times and found that there was nothing abnormal, so he was relieved.

Immediately, shivam said to Charlie: "By the way, can you take off the mask?"

Charlie refused mercilessly: "No!"

shivam said embarrassingly: "You can't negotiate with our commander wearing a mask, right?"

Charlie asked back: "What? Can't it? If it doesn't work, forget it, don't talk about it."

Shivam took the clothes and hurriedly said: "Yes, you can wear it if you want..."

The main reason why Charlie chose to wear a mask was that he hadn't figured out the situation in Wanlong Palace. At this time, if he showed his true face and was caught by the other party's monitor or recorder, he might be able to find his true identity easily. After all, face recognition technology is now extremely developed, so be cautious at this time.

After all, Charlie didn't have the ability to fight against a mercenary organization of tens of thousands of people.

Seeing that he couldn't handle Charlie, shivam was squeezed tightly by Charlie, so he no longer insisted, just thinking about taking him over for errands.

So he took Charlie to the helicopter that had been prepared a long time ago, and headed to the opponent's front command.

After flying for about ten minutes, the helicopter landed slowly in front of a movable board house.

These prefabricated houses are all the residences of the government forces and the middle and high-level officers of the Wanlong Temple. Compared with tents, the conditions are indeed much better.

Moreover, whether it is a tent or a prefabricated house, there are camouflage covering sheds. From the sky, it is a dense camouflage. It is difficult to distinguish where the officers are stationed.

After getting off the plane, shivam took Charlie and walked all the way to the front-line conference room of Wanlong Temple. As he walked, he asked Charlie: "This brother, I don't know what you call it? are you from Huaxia?"

Charlie said lightly: "Ask what you should ask, don't ask what you shouldn't."

shivam's teeth were almost broken, but he could only say awkwardly: "No...I have to introduce you to our commander later, should I always say a name?"

Charlie said casually: "My surname is Wade, you can just call me Master Wade."

"Master Wade...Master?" shivam looked at Charlie dumbfounded. Although he couldn't see his face, at least he could tell from his eyes that he was not joking.

shivam was extremely embarrassed and secretly thought: "What the hell is this god, the ability to pretend to be force is really unprecedented, Master, what kind of master? What master? Is it a qigong master?"

Although he felt upset, shivam said respectfully: "It turns out to be Master Wade, I am lucky enough to meet you. I am shivam, a three-star warrior in Wanlong Palace!"

"Samsung fighter?" Charlie asked curiously: "Sponsored by South Korea?"

shivam looked demented and asked: "...oh no, Master Wade, what do you mean... I didn't understand..."

Charlie said casually: "Didn't you say that you are a Samsung warrior? I ask you, is your name sponsored by the South Korean Samsung Group?"

shivam has the heart to die, and blurted out: "Master Wade, you are too good at joking. The three-star warlord is the star of our Wanlongdian warlord. The lowest is one star and the highest is five stars. I am a three-star, so it is a three-star. Fighter."

Charlie frowned, and thought to himself: "This shivam is a two-star warrior. If a two-star warrior can only be ranked as a three-star warrior in the Wanlong Hall, would the four-star warrior at least reach a three-star warrior? Strength? Or is the five-star warrior going to reach the strength of a four-star warrior? Then their palace master, at least, must have the strength of a five-star warrior or even higher?"

"If this is the case, then the strength of the Wanlong Palace is indeed terrifying. There are so many martial arts families in the country. At present, only the old man of the Elms family has successfully broken through to the four-star warrior with my help, but the Wanlong Palace must have at least Many four-star and four-star warriors."

Thinking of this, Charlie asked, "I heard that our soldiers killed one of your five-star generals during the war a few days ago? That person should be much stronger than you, right?"

shivam gritted his teeth and said: "What you are talking about is our five-star warrior Gorka. He is far superior to me. He is one of the strongest among our more than 100 warriors..."

Charlie smacked his lips and shook his head: "Tsk, no matter how strong you are, you are afraid of bullets. He has been training hard for half a lifetime. But he was shot and killed by an illiterate in Syria, who didn't know a big character. Do you think you lose?"

shivam's heart became even more angry when he heard this.

He had a good personal relationship with Gorka, and now he was very angry when he heard that the other side was so sarcasm about Gorka.

However, what Charlie said made him unable to refute. Moreover, the sarcasm of Hunter (Hamid)'s tribe was illiterate, which he himself said just now.

Gorka's strength is very strong. If a few soldiers shoot at him with machine guns, he really has a great chance to escape and kill the opponent.

However, in the last battle of the Gorka, he and many Wanlongdian elites were surrounded by multiple firepower points. The heavy machine gun bullets in all directions formed an all-round firepower network. The heavy machine gun with a caliber of 12.7 mm, even weighs ten tons. African elephants can also be killed in one blow.

Therefore, even if Gorka is a five-star warrior, he is simply unable to recover.

shivam's inner hatred for Charlie was already overwhelming, almost resisting the urge to draw a gun, and biting his teeth, he brought Charlie to the door of the meeting room.

Then he knocked on the door, and someone inside said: "Come in."

shivam pushed the door in, and a Chinese man sitting on the opposite side said: "Commander, the negotiator of the Hunter (Hamid) faction, Master Wade, is here!"
