

The Amazing Son In Law (Charlie Wade)

Chapter 3492)

Charlie's words shocked the government commander's face!

Before that, he had never thought about what Charlie said.

But now, he suddenly felt that what Charlie said seemed very reasonable.

At this time, Charlie stared at him closely, and said seriously: "For you, Wanlong Palace is the gauze used to wrap wounds!"

"When the wound keeps bleeding, you especially need gauze to help you stop the bleeding and heal the injury;"

"But if the wound is healed, you will not let the bloody gauze stick to you all the time, and you will also want to take off the gauze!"

"And the gauze itself, if you want to stay on you, you must let your wounds never heal and bleed forever!"

"If the gauze wants to occupy a larger area on you, you must find a way to cut more wounds on you! Until you are covered with this gauze!"

Charlie's words completely frightened the government commander.

He could already imagine that in the future, under the control of the Wanlong Temple, Syria will be war-torn, riddled with holes, and will never be peaceful.

Charlie was still continuing to kill people at this time.

He looked at each other and warned word by word: "Think about America, Comrade Commander! You have been miserable in the Middle East for a long time. The United States has made you restless in the Middle East under the banner of humanity, and even sent troops to invade many countries. You Do you think he really is thinking about your peace and tranquility?"

"You must understand that they are actually just coveting your rich oil resources and want you to be controlled by them for a long time!"

"They are the source of your pain!"

Speaking of this, Charlie stretched out his hand to Chen and said coldly: "This group of people is no different from the United States. If you still don't recognize this point, you will definitely be tortured by this group of parasites to death in the future. !"

The government commander was already pale.

At this moment, he completely believed Charlie's words.

Believe that Wanlong Temple is not here to help them, but to kill them with a knife.

As for Chen beside him, he couldn't help shaking.

He was incomparably shocked in his heart, and thought to himself: "How does this guy know about the plan of the Lord of the Palace?!"

The Lord of the Palace had indeed planned it a long time ago. After the Wanlong Temple builds a base in Syria, he will immediately support the new opposition in secret, let Syria continue to be trapped in the quagmire of civil war.

In that case, the Wanlong Temple will always be needed by and relied on by the government army, and it will naturally be able to ask for more resources from the government army..."

"But, how does a Hunter (Hamid)'s military division know this?!"

"The Lord's plan for Syria is parasitic!"

"The Wanlong Temple first used the temptation to help Syria to eliminate the opposition, so that Syria was willing to open the door and let the Wanlong Temple take root."

"Once rooted successfully, the Wanlong Temple will parasite in Syria and expand wildly!"

"But if Syria recognizes the situation now, then they will never continue to perform the cooperation between the two sides. Then, all the plans of the Wanlong Temple will be completely ruined!"

Thinking of this, Chen was so nervous that his scalp was numb, and he didn't know what to do.

At this time, the government commander moved his body subconsciously, kept a certain distance from Chen, and said: "The matter is beyond my personal ability now. I need to report to my superior. Please wait for the two of you. moment."

The person said, stood up, took out the satellite phone and prepared to go out.

Chen made a quick judgment in his mind.
